Denise Smithson says

I can't stop laughing at the last scene in the book and the trouble Gwen gets herself into! I was said to see Aiden leave but lord help me I am in love with Dorian! Another amazing book by Stephanie Nelson and I can't wait for Hexed!

Jess (the cozy reader) says

I am an Aiden's girl, so this guy above pretty much explains how I am feeling right now. Besides my heart aching, it was another kick ass book from Stephanie! I don't know how Gwen does it, with all those hot guys around. I would be puddle on the floor.

Nereid says

Gwen is torn between her love for Aiden, the vampire with an addiction to brew and her attraction to Dorian "the angel of death" so talk about being stuck between a rock and a hard place. Though I am drawn more towards Dorian as he has all the usual bad boy traits yet he saves her life repeatedly. Aiden on the other hand does love her but he constantly seems to be putting her life in jeopardy and the VC Council are not her greatest fans these days. Trying to sort out her love life is confusing enough but with so many people trying to kill her, Gwen is struggling to rise above it all. Her attitude at times is frustrating and the constant back and forth between the two men makes me want her to just "pick someone" already. The ending for me seemed a little too perfect as the lead up kind of had me expecting this all out battle but it just sort of fizzled out before it had really begun. And the ending, well when you think that Gwen's drama filled life has finally gotten back to normal (for her anyway) another problem surfaces and a new challenge begins but will Gwen survive the onslaught this time and poor Dorian is left wondering what the hell happened?

My favourite quote from Gwen has to be " What can I say? I'm a girl who likes men. Not in a fifty-dollar, make you holla kind of way but I do enjoy the rush they provide my body with."

I have enjoyed the series and look forward to the next one.

Denise says

So I'm glad it ended the way it did but I am hoping the next book will have a major shocker!

Cocktails and Books says

I thought I was an Adrian girl, but I've found myself loving Dorian. I can't wait to see what happens in Hexed after reading the epilogue!

Jen Rattie says

I swear my favorite authors have been on fire. Stephanie did it again, this is the best book to date in the Gwen Sparks series. The ending was gloriously not what I expected and Dorian I want to eat with a spoon. I can not wait to read Hexed. If I could give this book 10 stars I would.

Diane says

OMG I love this series. Of the three books out, this is the best so far. More background about Dorian (Angel of Death) I want to be on his team. Gwen has rogues, vampires, witches, and demons after her. Girl can't get a break. Not a lot of Aiden in this book, which was fine with me. Gwen has enough to handle with Death on her side. A couple old adversaries show up in this book, and a couple new characters. Gwen finds herself in New Orleans with Dorian (Where he lives) A lot of sexual tension. Look out for the cliffhanger at the end. Book #4 is suppose to be out some time in July. Can't wait.

Laura Anna says

Has some elements that seem borrowed from the "night huntress series" by Jeaniene Frost. Or is it just me feeling that way?

Missa Irish says

Another great Gwen book. Can't wait for the next one!

Joshirl says

Coveted really turned out to be a great book. I was a little disappointed in the vampire, I thought that he would at least fight for Gwen. I am glad the best man won. Now the ending left me waiting for the next chapter for Gwen and the Angel of death.

Kerry says

If you are reading this review, then you've already read the first two books. This is by far my favorite. I won't bog you down with details, but imagine hot guys, lots of sexual tension, and plenty of excitement. I'm a Dorian fan, and this book did not disappoint. I love the back and forth between Gwen and Dorian. He's such an interesting and mysterious character, not to mention sexy. Coveted gives us a little more insight into his world, which just adds to his intrigue. (Side note: I still wish he'd ditch the sunglasses.)

I stayed up half the night to finish this book. The ending was oh so yummy! Then, Ms. Nelson completely caught me off guard with her epilogue. I almost wish I hadn't read it because I was over the moon happy with the what I thought was the ending.

That being said, I can't wait for the next installment. I hope the epilogue is quickly resolved; however, I feel like it may be the main focus of the next book. Who knows? Either way, I'll be reading it!

Candice Terry says

Omg sooooo good ! Can't wait for hexed to come out !

Possibly my favorite of the series so far, perhaps certain Death have something to do with it, I can't help it I just dislike Aiden so much...it seems like everything goes wrong when he is in the picture...

Amanda says

This book was amazing! Coveted is Book 3 in the Gwen Sparks series and the best so far in my opinion. This author writes a fantastic love scene and I love the way she added a bit of humor into this book. Great read, I highly recommend.
