### **Lynx says**

When Cyrinda herself openly admits, multiple times throughout the book, that it was written purely for the money and that the publishers wanted all the dark, dirty details of her and Steven Tyler's marriage... well that should give you a good idea about the tone of the book. The first half, where she talks about moving to New York and becoming involved in the Max's Kansas City scene, you can tell she is enjoying recounting those tales. By the end, especially since she discusses Steven and their daughter Mia's relationship, you're left feeling a little dirty. It's unfortunate that she had to write this at a time where her bitterness over their painful relationship was still so strong. Still, she's got some great stories!

For those interested in learning more about Cyrinda check out her episode on Muses and Stuff a podcast co-hosted by me that's all about Rock n Roll Women!

### **Maryanne Christiano-Mistretta says**

I loved this book because it was heartfelt and honest. And in some instances, hot!

I had the honor of interviewing Cyrinda for Punk magazine (online) and hanging out with her a few times prior to her death. She was a wonderful person -- charming and fun. I miss her terribly.

---

### **Holly Thomas says**

This book was excellent because it was told by his first wife and it is right on!

---

### **Cheryl Schibley says**

A wild ride through the life of a rock n roll husband and his groupie wife. No they didn't stay together.
