## **God the Reason: How Infinite Excellence Gives Unbreakable Faith** Craig Biehl

"God the Reason is a remarkable work, presenting theology proper the knowledge of God in all of its transcendent importance and breadth. It does so in a way that is accessible, clear and spiritually invigorating. If you are thirsting for a deeper and more personal knowledge of the Lord of the universe, drink deeply of this study. The divine perfections celebrated here will bless your life, stir your reason and ground your faith on an unmovable foundation." Dr. Peter A. Lillback, President, Westminster Theological Seminary.

Accessible to a wide Christian audience, simple illustrations display the impossibility of life and the universe without the God of Scripture. Indeed, every scientific discovery declares the truth of Christian faith. And while atheists would need infinite knowledge to know the infinite God does not exist, they deny Him even as He feeds and sustains them in a marvelous display of His power and genius. Moreover, God's infinite excellence gives comfort and assurance in the face of great evil, suffering, and mystery. His perfections provide the ultimate source and guide for knowledge about Him and the universe He created, and thrill the soul of the child adopted into His family in Christ. To know ourselves we must know the God who made us. To rightly live in the world, we must know Him who owns, orders, and sustains it. In our relationship to the Source and explanation of all things we have life, meaning, and purpose, while our trivial existence gains importance as part of God's eternal purpose."

## Johanna says

Christian theologian and apologist Craig Biehl presents a compelling and solidly scripture-based approach to defending the faith in his wonderful book, *God The Reason*.

Rather than refuting, one by one, common objections to Biblical theology, Biehl strikes at the root of unbelief by challenging and exposing its unjustified and faulty faith assumptions. In doing so, he also explores at depth the various attributes of God, examining their implications for right thinking, living, unbreakable faith, and defending and sharing the Gospel of Christ.

*God The Reason* is a fantastic resource for Christians looking to both bolster their faith and to firmly and accurately defend that faith when challenged. I really enjoyed the author's unique approach to this vitally important subject, and while I did find the book to be more "academic" than other more basic apologetics books I've read in the past (certainly not a "fast and easy read" for casual readers) it is nevertheless a powerfully compelling book that offers readers a well-presented, exceptionally thorough, and profoundly logical approach to a defense of the foundations of the Christian faith. A very worthwhile read, and would make an excellent addition to any Christian's library. Highly recommended!

God the Reason: How Infinite Excellence Gives Unbreakable Faith

Knowing God as He relates to my everyday experience is a goal of my spiritual life. In this book, I learned about the foundation of my faith and how I can understand and defend it compared to other world religions. I learned why my faith is defensible, logical, true, and trustworthy and understand how God's attributes build a foundation I can rely upon. I have tools to use to witness to unbelievers about God and not be so intimidated by their arguments. I am excited I don't have to research a ton of facts about other belief systems to be able to interact with people effectively! Growing up in the church, I have never heard this explained the way Craig Biehl explains it - so helpful!

This is not the kind of book that you would usually expect about the attributes of God. It deals much with world views and shows how the glasses one looks through influences one's views. There are some good apologetics in the book also.
