Mania

Tim Kizer

Mania Tim Kizer

Richard Brower has killed a dozen people. Now someone is trying to frame him for the murders committed by another serial killer.

Serial killer Richard Brower buried his cheating wife, Mary, in the woods on Saturday.

On Monday, Mary calls her brother's girlfriend.

A few days later, she calls her mom.

Then Mary bumps into her friend at a mall.

Are all these people lying or has Mary actually come back from the dead?

Richard has no idea, but he will get to the bottom of this. Or at least he'll try.

Lisa says

From the first page, I was hooked. The character portrayal of Richard was both disturbing and conflicting. One minute you think he's an ordinary, average guy, and the next minute you find out that he's done something horrific...but worse than that, he views the incidents as no more than mosquito bites or a nuisance along the path of life. It's a chilling tale inside the mind of one man who will have you at the edge of your seat. Do you have a Richard in your life? Are you married to one, related to one, or perhaps even work in the same building as a Richard? You'd never know. This book is a true psychopathic chiller from beginning to end and I couldn't put it down. The mystery and plot twists were remarkable and I highly recommend this book to anyone that wants to be gripped by the throat and shaken to the core of understanding.

Lois Welsh says

This book has a lot of twists and turns.

It kept me guessing throughout the book.

Just when you think the story line is going one way---there is a curve and you go in another direction.

Rachel says

I normally enjoy books by this author, however this one was ridiculous. The plot jumps around all over the place like a hyperactive toddler, and the writing follows along happily, making a confusing mess out of what was a promising premise. There is no engaging with the cliched little cardboard cut-outs that are our characters, and the writing itself is shoddy, almost like stream-of-consciousness babble that is really hard to follow.

Not recommended unless you're a fan of extreme confusion.

Dawne Dunham says

Slightly confusing

A good read, but a little hard to keep up with in spots. The ending came out of nowhere in a decent plot twist.

J&B Reviews says

Mania...Smania

Described as 'Silence of the lambs' meets 'Gone girl' reads more like 'Monty python' meets the 'Following'. There were parts of this novel that were really tense then there were parts of this novel that were just silly and hardly believable. Read for yourself and decide if you agree.

Catherine Edwards says

Excellent, fast-paced, edge-of-your-seat reading!

In Tim Kizer's superbly crafted 'Mania', Richard Brower is a killer. His wife Mary dies accidentally after he confronts her about her infidelity. It's not the first death he has been intimately involved in. Richard Brower is a serial killer.

He secretly buries his wife in the remote woods of the Pacific Northwest and goes back to living his unassuming life - waiting for the right moment to report her "disappearance." However, things do not go quite as he had hoped when others report hearing from or seeing his dead wife.

Even stranger things start to happen at home. Is that Mary walking around inside their home? He got rid of her pictures, how did they get back on the wall? Then neighbors and acquaintances suddenly die under mysterious "accidental" circumstances.

Is someone out to get him? Is it Mary's ghost that everyone sees? Is Mary really dead? Is there something much bigger going on? Is it paranoia when it's not only in your mind...?

As the story unfolds, the reader begins to realize that all is NOT as it seems!

With the use of perfectly timed flashbacks, author Tim Kizer artfully sets his characters onto a tangled web of murder and suspense that had me reading it in one sitting.

A lifelong reader of this genre, I was pleasantly surprised by the books ending – I DID NOT SEE IT COMING!

Rhonda moreland says

different kind of story

Kathi says

By the way....

Genuinely disliked the way it was written. I give anyone with the chutzpah to write and publish a book, even "just" an e-book, much respect. but this book should have been read in less than a day, I've been forcing myself to get through. But I have to close this book. One two many "by the way"s. And all the characters spoke the same way- too much same voice different characters.

Arathi says

this is a very horribly written book, one in terms of language the author thought it was fancy to write it as if he was talking to the reader - really? who writes like that!!

and seems like a boy as young as 9 knows all about sex!!! and doesnt mind being done by his own father!!!
one mental writer!

Adam Toren says

Fascinating read. It is not easy to write an ambiguous character. The author of "Mania" pulled this off with ease with Richard, a serial murderer with a long list of victims. I also liked that the main female character is not a defenseless woman who needs to be rescued, but a woman who kicks ass.

Candice McKinney says

Richard Brower is a serial killer. His wife died jumping off of a bridge running away from him so he buried her in the woods. Then people start getting telephone calls from her and other friends have seen her. She seems to be haunting Richard or someone is trying to convince him she is still alive.

Mania is very different. There are twists and then more twists. Enjoyable book with an ending you don't see coming.

Jenn Syx says

What happened to the ending?!

Although I was not completely engaged throughout the book I was compelled to continue reading because I was sure things were not as they seemed. I enjoyed the flashbacks and the feeling that this guy isn't as bad I first thought. The writing was acceptable and the story creative but this lacked a little... something. While the dialog worked it was almost too drawn out at times. I could have overlooked this if there was an actual ending. All that build up and it just. Ended. Abruptly. Just like that.

Cathy Benavides says

The story was very different, and the twist was awesome. But it wasn't all that engaging. It was written almost like an essay, not a suspenseful book. I finished it because I wanted to know how it turned out, but it was certainly not a page turner.

Talia Orr says

Really liked it until...

It's a really cool story. I was a bit confused at times because of all the switching back and forth because it was very abrupt. Then the story took on a comfortable pace. When I got to the end, I'm also a bit disappointed. It ended so quickly I wasn't sure if it was really over (I quickly flipped forward a few pages to previews of other books). Imagine my disappointment. I love the way the story ended but it ended on one page! I could've read at least another few chapters. I'm not satisfied with this ending at all. Not at all.

Ruth Meeks says

A good read, enjoyed the intensity of the book. The surprise villan, which wasn't who you thought. I like the twist and turn with the happy ending.
