#### Short but sexy..3.5 stars

Angel lives in L.A. but has returned to Miami to visit her parents. Her best friend asks her to cover for one of the girls at her brother's club. She has barely seen Lorenzo in five years. She has a crush on him but he shattered her heart at the age of 18.

Lorenzo has always loved Angel but thought he was too old for her. When he sees her up there dancing, he goes ballistic. He wants her for his own and sets out to get her.

When she goes back to L.A. to break up with her boyfriend, he doesn't take it well and beats her up. She goes back home and her father and Lorenzo put bodyguards on her. Can he keep her safe from her ex and convince her how much she means to him?

Sexy but the girls acted like teenagers rather than grown women. Their conversations didn't sound authentic. Rich people. A crazed ex. And smoking hot sex.

Miami Inferno, Miami Nights 1, by Elle Boon

Miami is hot but Miami Inferno is HOTTER!!!

Oh my, could anything be hotter than Lorenzo Delgado? Angelina Rugiero has been in love with her best friend's big brother since she was thirteen years old. On her eighteenth birthday Lorenzo destroys all of Angel's hopes and dreams. Will these two ever get together?

This is Elle Boon's first book in the Contemporary Romance genre. I hope that she continues to write more in the Miami Nights series. The steam poured off my Kindle the story was so hot. The story was exciting with plot twists and turns and all the steamy bits that keep you reading late into the night. I highly recommend this book to anyone who enjoys hot sexy Contemporary Romance with a happily ever after.

English Review

On the occasion of his 18th birthday, Angel plans to show Lorenzo that she became a woman. Lorenzo is attracted to Angel, but being older than her, he tried to resist. Alcohol helping, he finds himself caught in a room by another woman, and thus surprised by Angel.

For five years, she will avoid him by moving to another city and trying to build a new life. The marriage proposal of her current boyfriend pushes her to go to Miami to see her best friend Gia, which is no other than Lorenzo's sister. Will he take the opportunity to prove his love?

This is a beautiful romance about second chances with a touch of suspense and it's hot, really hot :) The main characters are endearing, the secondary characters too – especially Gia – and the style is enjoyable to read. I loved this book. Elle Boon has perfectly managed the transition from paranormal romance to contemporary romance. I'd also love to read one of her paranormal romances whenever I have the opportunity.

#### Avis en français

À l'occasion de son 18e anniversaire, Angel a prévu de montrer à Lorenzo qu'elle est devenue une femme. Lorenzo est attiré par Angel, mais étant plus âgé qu'elle, il tente de résister. L'alcool aidant, il se retrouve attiré dans une pièce par une autre femme et est ainsi surpris par Angel.

Pendant 5 années, elle va l'éviter en s'installant dans une autre ville et en tentant de construire une nouvelle vie. La proposition de mariage de son petit ami actuel la pousse à rentrer à Miami pour voir sa meilleure amie Gia, qui n'est autre que la soeur de Lorenzo. Va-t-il profiter de l'occasion pour lui prouver son amour ?

C'est une très belle romance sur les secondes chances avec une pointe de suspense et de la chaleur, beaucoup de chaleur :) Les personnages principaux sont attachants, les personnages secondaires aussi – surtout Gia- et le style est agréable à lire. J'ai beaucoup aimé. Elle Boon a réussi son passage de la romance paranormale à la romance contemporaine. J'aimerais d'ailleurs lire l'une de ses romances paranormale dès que j'en aurais l'occasion.

If you are a fan of Elle Boon, you will enjoy this different shift in her style of writing. Miami Inferno is based on romance, no paranormal, no shifters, just two fractured humans who throw away years of their lives running from the reality of love.

Angel had been in love with Lorenzo for many years and on her 18th birthday she planned on showing him she was a woman, a sexy, loving woman willing to dedicate her life and heart to him. What she got in return was his distance and the sight of him with another woman. With the help of a friend, she finds that she may have caused more damage by running than staying and finding out what was going on. This caused her to run and try to start a new life, ultimately finding a man she was willing to pretend a happy ever after life with.

Lorenzo took over the family business with his brother, which ended up being more, him doing all of the work and babysitting his immature sibling. When enough was enough he called in his sister to help while his brother was “grounded” from the business. Angel and Lorenzo get a second chance because his sister is also her best friend. This will only work if he can get over his guilt of remembering her face when she caught him in the act. How can he ever convince her that his feelings for her were real and now they have a chance since she is older?

As the two reconnect, her past won't easily go away. Elle did a great job at bringing the heat to this book along with intensity and all done on a human level that will be easy for the reader to connect to. I look forward to more books of this kind coming from Elle Boon

I really enjoy reading Elle Boon books and in this one she out did herself!!! Angel has been in love with her best friends Gia's older brother Lorenzo since she was 13 yrs old. her parent have a big party for her on her 18th birthday and she hopes to see him and let him know that she loves him. Instead she walks in on him in a very precarious situation with another woman. She runs out and into his best friend and they get drunk. She thinks she loses her virginity to Derek. She tries to avoid Lorenzo for 5 years. When she does a favour for her best friend Gia things change instantly. She runs into him and he won't let her go this time. Neither one can deny their love for each other. After one night together she goes to break up with her boyfriend and he beats her up. Angel is so sweet and innocent and obsessed with him and Lorenzo is equally obsessed but also so protective of her. Can their love keep them though everything?

Once you start this book you won't want to put it down!!

It is Angel's 18th birthday party and Ren, the man she has crushed on since she was 13 has given her a beautiful heart necklace for her birthday. But when she stumbles on him, at the party, in a compromising position with another woman, Angel is devastated. She spends the next five years avoiding him, going away to college and then getting a job in LA, far from her Miami home.

Ren has loved Angel since she was a teenager but thought it was inappropriate because of the age difference (he is seven years older.) But now she is fair game, and he wants her. When she returns to Miami to visit before deciding if she will accept a marriage proposal from Andrew, the man she has been dating, she meets up with Ren the sparks fly.

I liked the relationship between Angel and Ren, plus add Ren's little sister who is Angel's best friend, and it kept the story lively. I didn't understand why she became a professional dancer with an NBA team. She is from an extremely wealthy family with a huge trust fund and it sounded like she was a cheerleader for a basketball team. But with that kind of money she could do whatever caught her fancy.

My problem with this story is understanding why Angel would even consider marrying Andrew. Not only does she not love him, but she is saving herself for the marriage bed while she knows Andrew is fooling around with other women. Doesn't that clue her in to the type of marriage they would have? And Andrew's reaction to Angel's trip home did not make sense to me.

#### **OMG**

Angelina and Lorenzo had me going through so many emotions that I couldn't stop reading because I needed to know what happened next.

Heartbreak and anger is how I first started when reading this book, then I went to anguish, shame, and self pity. Then finally hope, lust and love.

Elle really had me in this one and I can't wait for the next book in this series.

Thanks Elle for keeping my heart pumping.

I loved this book. At first I thought maybe not. It started a little on the corny side but then it really took off. Lorenzo is one hot alpha Cuban male and I so want one for myself. Angel has loved Lorenzo since she was a young teen. Lorenzo loved her from afar, he being 7 years older than her. One very bad decisions on his part kept them apart for five years. Once he gets his hands on her he vows to make her his. This story has all the emotions, laughter, tears, suspense and some serious hot sex.

### **EJ says**

I loved this book. Angel & Ren are such a great couple. This has it all, romance, comedy, angst, danger, steamy love, all coming together to make a fantastic read.

### **Stacy Jordet says**

Angel has been in love with Lorenzo for most of her life. On her 18th birthday she hopes that he will finally see her as an adult and be with her. Walking in on him in a compromising position was not how she planned to end her 18th birthday and takes off with his best friend.

Lorenzo has been in love with Angel for just as long but has been waiting for her to grow up. Since her 18th birthday she has gone out of her way to avoid him and he wants it to stop. One night at his club he sees her dancing and can no longer deny their chemistry. After his sister informs him that Angel's boyfriend has asked her to marry him, Lorenzo decides its time to stake his claim.

This book was amazing to read. The banter between these two was really hot and Lorenzo seems to be a man who really knows what he is doing!!!! I highly recommend this book!!

#### **Hot Miami**

When Angel was young, she fell in love with her best friend's brother, Lorenzo. At 18, he broke her heart and destroyed her trust. She has avoided him for 5 yrs, but when Gia asks her to come home to help her at Club Inferno, Ren sees his chance to change history. Ren has always loved Angel, but felt he wasn't worthy of her, so he let her go. Can time heal old wounds & mend a broken heart? Can a dangerous Ex, destroy everything in the blink of an eye? Great book Elle, I enjoyed it thoroughly! I would definitely recommend it!

Angelina has loved Lorenzo since she was 13 years old. Lorenzo has felt the same but he is several years older than she is and feels like a pervert for wanting her. At Angel's 18th birthday party good intentions bring bad results and Angel flees the party and Miami for the next five years. Now she is home trying to decide if the man that asked her to marry him is the one she can spend her life with knowing her heart belongs to another. But for the first time Lorenzo or Ren makes his move. Can he convince his Angel that he loves her more than life? Can he protect her from the man that feels Angel did him wrong? Is there heat in Miami or is it just the inferno of love?

Miami Inferno Miami Nights Book 1

by Elle Boon

??????????

Oh My! I What a FASCINATING read! The story is extremely heartfelt and emotional. The story has plenty of energy and you can feel the heat between the main characters. I enjoy reading Elle Boon books, it's clearly very imaginative and I enjoyed reading this coming of age relationship. As usual Elle's characters are well developed and written. I didn't like Ren at first but I understood that he didn't want her to see that Way. Angelina Rugiero is just coming of age and she has love her best friend big brother for years. Lorenzo Delgado Is the oldest of his siblings, their parents defected from Cuba before he was born, it's hard for him not let his feelings show and claim her because he wants her to live some first. Angel and Ren make an adorable couple but sometimes love isn't enough. She's so sweet and innocent and obsessed with him and Ren is equally obsessed but also so protective of her. Of course in usual Elle fashion their chemistry is so blazing hot it burns right off the page. I understood how they tried to ignore their growing feelings for one another. I can't say enough about how fabulous this book is. Elle Boon has done a great job on this story, with the drama and secrets. The story has fantastic characters who are all awesome. I can't wait to read more of Elle Boon books! This book has kept me on the edge of my seat. I couldn't put my reader down! This story is a emotional roller coaster. So you may want to grab your copy today and buckle up and start reading you won't be disappointed. I hope you enjoy and happy reading. I read the excerpt and knew I wanted to read this story. I recommend this AWESOME story to any reader who enjoy reading a Awesome romance.

### **Very Good Start!**

I say very good start because this is another new series & this was a very good story; not only because of the sex scenes but also because of the good vs bad element.

Angelina has loved Lorenzo since she was 13; on her 18th birthday she got a unpleasant surprise when she accidentally walked in on Lorenzo & another woman doing a partial dirty dirty. She then left with his best friend Derek & they both got drunk, fell asleep on the beach & then woke up thinking that they had sex together. & after that she's avoided being alone with Lorenzo for 5 years.

Lorenzo has been attracted to Angelina since she turned 16; but because of the age difference he felt like a leech. On her 18th birthday he drank too much liquor & let some other woman take care of his Bonner; but has regretted it ever since. He has waited all this time to finally grovel to get Angelina back & into his arms, his bed & into his future.

Angelina had come home to Miami to decide whether or not to accept a marriage proposal from one of the basketball players that she works with & lets just say that when she made her decision he didn't agree with it & tried to rape her. She got away but not before he hit her a couple of times; her roommate Renee saw her & got her to go to the hospital & then later called Angelina's parents who dropped everything to go to her side.

At this point Lorenzo doesn't know what has happened yet & I'm not going to tell you what happens next as you will have to read the book. But it was a very good book.

#### **Miami is hot, this book is hotter!**

On the night of Angelina's eighteenth birthday she thinks she's finally going to get everything her heart desires when she opens a beautiful diamond necklace from the man she's had a crush on for as long as she can remember breathing, her best friend Gia's oldest brother Lorenzo. Angel quickly searches her party to "thank" Ren for the beautiful present. She finally finds him being pleasured in the luxurious restroom of her party's venue. To add insult to injury, Ren screams at her to get out. In her anger, Angel runs and looks for a way out, in enters Derek, Ren's best friend, Angel's night in shining armour.

Flash ahead five years. Angel is now twenty-three and a professional dancer and choreographer with the L.A. DANCERS. She is home in the Miami area to think about an impending engagement, maybe? Her boyfriend of a few years, Andrew Cage, has asked her to marry him and she needs to think about it. Ren is now thirty, he and his brother, Fernando (Ando), have purchased their parents night club from them. Ando is going through a lot. He has recently lost his fiancee in a freak accident and he isn't dealing with the loss. Ren is struggling with opening a new club, while running their club, and dealing with his brother's crap. He needed help. He called in Gia to work the club so he could get some other projects finished. Gia called in Angel to dance. Viola!! Insta heat! What happens when you mix two hot Cubans and a salsa? Fire!!

Angel ends up going back to L.A. to tell Andrew she can't marry him and his true colors shine through. He's a true d+++! Let's just say he doesn't let her go without a fight and without Angel having a security detail. This is a hot book with an added thriller on side. Another great series by Ms. Boone.
