A young girl in a coma . . .

A series of stolen antiques . . .

A few children with deadly secrets . . .

Can Josh and Olivia put together the clues and solve the case?

The mystery begins on the tiny New England Island, where Josh and Olivia are staying in Josh's family's vacation home and enjoying the quiet but quirky island ambiance.

They've also started their own detective agency, Mountain Valley Investigations, but they quickly find out how challenging their new business will be when a case emerges involving Josh's father, some missing antique books that vanish from dad's home and other valuable collectibles that go missing from various homes around the island.

Things quickly go from curious to downright odd when children they don't know begin fleeing from them, and Olivia's dog and cat begin behaving strangely as well.

Can Olivia and Josh figure out who is behind the wicked events that are ruining their island paradise . . . or will their first case end up being their last?

Festive Fun

I hadn't read any in this series but it didn't matter at all. The author Jane Firebaugh quickly got me up to speed and then I buckled in for the rest of the ride! There's several mysteries in one, as well as engaging characters and a fast, action-packed pace. A lovely, light read for anyone who likes a dash of romance and some gourmet recipes with their whodunnit.

Kristine (A Cozy Booknook) says

i really enjoyed this book, it has all the elements of a great mystery. The story is fast - paced and interesting with plenty of twists that kept me guessing. The characters are likable, I wanted to get to know them better. This is a great book and I look forward to reading the others in the series!

I received a copy of this manuscript from the author, my review has been voluntarily submitted.

Jeannie and Louis Rigod says

This novel was filled with suspense of a different genre. Someone is stealing valuables from a group of wealthy home owners in Georgebury, a larger island of Mary's Orchard. The homes are very similar and that is interesting also.

Everywhere Olivia and fiancé Josh looks they see youths atop bikes. When Josh see a young teenager driving his deceased Mother's bike down the road, he knows this seems to be part of a theft ring...but how?

Olivia and her dog and cat find a child who is severely injured. As the child begins to recover, Olivia tries word games out to help the child remember her previous life, prior the injuries.

Then, as the search for the child's identity even takes a stranger turn and Olivia seems her former fiancé who had left her at the altar. There are even stranger coincidences and the tale takes on a strong ending.

This book is a true cozy and romance combined. All I can say is that I'm up for the next installment.

Amanda Showalter says

This is a mystery that is clean and is suitable for many different types of readers. This is about Josh and Olivia who run a PI agency. When Peter (who is Josh's father) asks them to work on a robbery that happened in his vacation home they stumble onto a bigger story as the case expands to include other robberies. Every way they turn they are surrounded by children in one form or another; injured ones, ones that obviously are involved in the thefts, and ones that are just confusing. I wish I had read the other 2 before this because I am not sure if I missed anything important in those. This is a well written mystery that moves at a fast pace while being able to keep you guessing.

Robyn says

Olivia and Josh run a private investigation agency, and are asked by Josh's father Peter to look into a robbery that happened at his vacation home. They stayed at Peter's home while he was out of town, along with their dog Molly, and cat Sheyna. While investigating, Josh and Olivia find out that several houses were robbed, so with the consent of the local police department, they also looked into those robberies. This is a fast paced book with lots of twists and turns, and I couldn't put it down. Jane Firebaugh is a phenomenal author. I love this series and highly recommend it
