## No Good Deed Allison Brennan

Lucy Kincaid understands the dangers of corruption. As an FBI agent, she has witnessed some very bad deeds committed by seemingly good people. That's why she's glad to see corrupt DEA Agent Nicole Rollins behind bars for murder, conspiracy, and gunrunning. But when Rollins makes a daring escape—jeopardizing a busload of children and killing five officers—Lucy becomes the key to the biggest manhunt in Texas history...and the target of a brilliant killer.

Some believe Rollins has fled the country. But Lucy suspects her plan is far more sinister—a taunting game of cat and mouse that hits much closer to home. First, an FBI agent with a connection to Texas is killed in Washington. Then, Kane Rogan disappears on a mission. When Rollins ups the ante again, Lucy is determined to save the people she loves—before her enemy strikes again. Time is running out. The body count is rising. Rollins wants more than revenge—she wants to destroy everything Lucy holds dear...

## From Reader Review No Good Deed for online ebook

### **B.E. says**

Another excellent installment with Lucy Kincaid. Exciting, gripping. I love Lucy. I did, at one point, want to slap the crap out of Sean, but I kept reading and learned he wasn't doing something tragically stupid after all. The villains are particularly vile - especially the teenage girl sociopath. :shudder: She makes my skin crawl. Oh, and I loved having Kane Rogan as a central player in this one. I can't wait to see what Ms. Brennan has in store for us next.

### **fleurette says**

First, I have to admit that I haven't read any of the previous books in this series. And yes, I was aware that this is the tenth book. So I knew nothing about the characters, their past and the plot of the previous books.

To be honest, I'm a bit disappointed. I didn't feel the connection with the main characters. Maybe it's because I haven't read the previous books but still... I found Lucy quite boring despite her emotional problems. And I can't decide if Sean should be seen as a bad boy or as a nice guy.

Part of the problem is that the story follows umpteen different people, some of them completely indistinct to me. We follow the good guys, we follow the bad guys, we follow the dead guys, we follow the guys that doesn't matter for the story at all. Everyone has his or her five minutes show. I didn't like it at all. It makes the first half of the book quite boring as we get to know the past and personality of the new person with every chapter. And the long, long retrospections are slowing the plot even more.

Yea, I think this is the main problem. The whole story is rather slow.

I will probably give this series another chance, maybe even start with the first book this time. But I don't feel like doing it right now.

### **Sparkymom says**

This was the twenty seventh book I've read by Allison Brennan, so I guess you could say I'm a huge fan. This particular series is absolutely my favorite. Just as a note, this is definitely not a standalone. It is book ten in the series, and each book builds on the previous one. Actually, in my opinion, you get the best reading experience by first reading the Evil trilogy and then the FBI trilogy. These two series help familiarize you with the Kincaid and Rogan families. They also take you through everything that happens to Lucy Kincaid, the events that shape who she is. Having this background information just makes the Lucy series ten times better.

This story has Lucy and Sean tracking prison escapee Nicole Rollins, a murderer they helped apprehend in the previous book. Lucy and Sean are FINALLY engaged ( yes, I've been waiting for that for a long time), but there is no time to celebrate. DEA and FBI agents are being murdered, and all hands are on deck working around the clock to recapture Rollins. Sean and Lucy are pulled in different directions, but try to connect as

much as possible. Unfortunately, things only get worse when Kane, Sean's brother, disappears in Mexico. Sean knows he has to go find Kane, but hates to leave knowing Lucy is likely a target for Rollin's violence. He enlists the help of a trusted colleague to watch over Lucy and sets out for Mexico.

Lucy is working non-stop. Information is leaking from someone within the joint task force. The leak forces Lucy to question everyone she knows and works with. No one is above suspicion other than a couple of close friends. Lucy's brother, Jack, also arrives in town to help out.

Personally, this was my favorite Lucy story to date. The action and suspense were continuous, the depth of the relationship between Lucy and Sean is beautifully depicted, and Jack and Kane (two of my favorites) are front and center for much of the story. I truly can't wait for Kane and Siobhan to get their own story. I'm completely addicted to the Kincaids and the Rogans.

I received an ARC for review from Net Galley.

### **Alex is The Romance Fox says**

Allison Brennan's The Lucy Kincaid Series just keeps getting better and NO GOOD DEED, the 10th and latest addition takes off just after the previous book, Best Laid Plans.

Nicole Rollins, the corrupt DEA agent is now in jail and waiting for her trial in corruption, murder and her part in working as a double agent.

After a daring and violent escape whilst being transport from prison to court, she's now on the most wanted list and the largest manhunt for her recapture.

Whilst everyone believes she's fled the country, Lucy Kincaid suspects that may not be the case....she believes Nicole has a more sinister plan and is hiding out until she has taken her revenge on Lucy and the DEA.

A chilling cat and mouse chase begins as Lucy and the FBI, working with the DEA agents try to get into Nicole's psyche and find her before more people are murdered.

Nicole Rollins is the most brilliant and cunning villain ever. The games she plays and how she taunts the authorities is clever and scary. Using her deadly and immoral partners, they take out anyone who stands in their way. Amoral sociopaths with no regard to anything but their goals, the group is dangerous and crafty. And Nicole's family.....the most evil and dysfunctional one of all time.

We finally discover Tobias's identity...wow, was that a total and unexpected surprise.

I loved the family dynamics in this book. Lucy and Sean are now engaged and Lucy finally finds peace in her life. Kane Rogan plays a huge part in the plot as he travels to Mexico to help with Nicole's case. We also see him and Siobhan together again, after her rescue. I can't wait for their book. Some of Lucy's family make an appearance, which I enjoyed.

A compelling and complex story that you can't stop reading. It keeps you on the edge of your seat from the 1st to the last page. The ending has a cliffhanger and I am most looking forward to the next chapter.....

The epilogue was really nice and sweet. I love Lucy and Sean together. They just fit in so well with each

other and who knows....we may get to see their wedding day soon.

This is a brilliant series and should be read in order. I have read all the books so far and I am eagerly waiting for the next book.

#### **Reading order of the Series:**

Love Is Murder (Lucy Kincaid, #0.5)

Love Me to Death (Lucy Kincaid, #1)

Kiss Me, Kill Me (Lucy Kincaid, #2)

If I Should Die (Lucy Kincaid, #3)

Silenced (Lucy Kincaid, #4)

Stalked (Lucy Kincaid, #5)

Reckless (Lucy Kincaid, #5.5)

Stolen (Lucy Kincaid, #6)

Cold Snap (Lucy Kincaid, #7)

Dead Heat (Lucy Kincaid, #8)

Best Laid Plans (Lucy Kincaid, #9)

---

#### **Victoria says**

No Good Deed is the very first novel that I have read by Allison Brennan and the tenth addition to the Lucy Kincaid series. I realized a little too late that my reading experience would have benefited greatly had I just started the series from the very beginning. It sounds like a “duh” sort of claim, but there are many thriller series that don’t require you to start from the beginning. This is not one of those. Therefore, if you are planning on reading the Lucy Kincaid series, I highly recommend catching up on all of the books prior to this one, because otherwise some of the plot may not make much sense to you.

This book started off great! I was glued to the pages and refused to go to sleep until I could find out what happened next after that crazy introduction! I found the concept to be highly intriguing and the characters were just as captivating. The events in the book were very interesting and made the book hard to put down. They played out like a movie in my head.

However, my biggest complaint is due to the amount of points of view there were throughout this book. I stopped counting after about 7 or 8 POVs. It was just too many and that was within the first 100 pages! It became difficult to get a feel for each of the main characters simply because the book was shared with so many of them. Once again, it would have been helpful to have started this series from the beginning to lessen the confusion. This was probably the first book I’ve ever read that has made me feel the need to take notes just to keep up with everyone lol.

Overall, I still enjoyed the book and hope to go back and start the series from the very beginning because I love Lucy’s character and want to read more about her.

Special thanks to Minotaur Publishing for sending me this beautiful paperback to review! :) All opinions are honest and all my own.

### **Silver James says**

I...uhm...what to say about this book... First, it kept me up until the wee hours of the morning because I hit the serious action about the time I normally turn off the lights and try to sleep. Yeah...no. Not with this book. A lot of the Lucy Kincaid books can be read stand-alone. I don't think this one can. A reader, to get the full impact, really needs to read #8-DEAD HEAT and #9-BEST LAID PLANS before reading this one. There's a 3-book story arc that is intriguing, complicated, and on-so-very suspenseful. Read them all. You'll be glad you did!

How to talk about this book without spoilers? I wanted to kill Sean. Lucy surprised me (but I shouldn't have been). I still have a book-boyfriend crush on Kane and can't wait for his story. Some threads sort of tied off in an uncomplicated square knot when I really wanted some intricate macrame twisty-turny resolution. I know that doesn't make sense, but might when you read the book. Because of that, the book is a 4.5 rather than a 5, but dang, reading this book still had me wishing I had a full pot of coffee and chocolate. You need both to get through to the end. Can't wait to see where Lucy's FBI career takes her next. Well done, Ms. Brennan.

---

### **Hilary says**

Almost everyone and everything is suspect now that rogue DEA agent Nicole Rollins has broken out of prison, taking her knowledge of procedures, staff and cases with her. Now a manhunt is on... but who's hunting whom? And do the FBI know enough to find Nicole before she disappears for good?

It was much stronger than the last RCK installment I read (which seems to be book 7), and kept driving forward. I only put it down for essentials like work.

Disclaimer: I received a free copy from NetGalley in exchange for an honest review.

### **Nurse Lisa In Ohio (PRN Book Reviews) says**

TITLE: NO GOOD DEED

AUTHOR: ALLISON BRENNAN

SERIES: LUCY KINCAID (FBI) #10, I believe.

RELEASED: 11/2015

READ: 06/2016 via ebook (NOOK, Samsung Galaxy Tab4)

KEYWORDS/GENRE: FBI, mystery, suspense, thriller, fiction, adult fiction, law enforcement, crime, crime spree, drug cartel, murder, kidnapping, FBI profiling, series.

MY GOODREADS RATING (0-5 star scale): FIVE STARS

#### **BRIEF REMARKS:**

This is definitely a five star read. This take was absolutely gripping! Super exciting, heart pounding & anxiety inducing. EXACTLY what a mystery-thriller SHOULD be if you ask this reader!

The Lucy Kincaid series is a very intense one...the FBI rookie Special Agent can not seem to escape big trouble and drama-CONSTANTLY. I'll be honest, at first I thought this theme would grow stale and/or boring really fast, but there are SOOO MANY important characters in this series and tons of intense off-shooting story line, well I think it's got a LOT more time left!

Allison Brennan is a truly expert author. She's one of my mega-faves for sure. Her writing is just so, I don't know, maybe it's her experience that shows through? I just a majesty's sucked right into an unputdownable story when I open something she has penned. Brennan's stories do not come with typos, errors, ebook page problems and are so well researched that it would be really hard to find a mistake in her translation of the details in any scene, imho. I highly recommend checking out ANYTHING she has written; if you love suspense & mystery as much as I do, the Lucy Kincaid series is a excellent choice!

Enjoy!

Lisa

### **Terri Wino says**

3-1/2 stars rounded up to 4.

Well this book appears to have wrapped up the story arc started several books prior. I enjoyed this book for the most part, but my one complaint is I feel there was too much repetition and re-explaining of previous events leading up to this wrap up of the storyline. It's this reason my attention wandered several times in the book and why I knocked off half a star. That being said, I still feel the tension was kept up throughout the book, and I honestly wasn't sure how things were going to turn out for some of the characters.

I don't want to give away any spoilers of things that happen in this book, so I'll just say I'm looking forward to what comes next for all the people in Lucy and Sean's world.

---

### **Diane Saul says**

Corrupt ex DEA agent, Nicole Rollins escapes in a prison transfer leaving behind 5 dead officers. Rollins obviously had inside help. FBI agent Lucy Kincaid is part of the largest task force ever formed in Texas to capture her. Rollins has left a trail of bodies behind her and if she isn't captured more will follow. Rollins is getting help from someone in the DEA, or FBI and possibly both so officials on the task force are trying to discover where the leak is. Rollins hasn't left the area, she has an agenda. They need to find out what it is, and fast. Lucy is in danger from this dangerous psychopath and her family along with anyone she holds dear. I would give this book a 4 1/2 if I could. It was an excellent read. Full of action, suspense and betrayal.

---

### **Darcy says**

This book seemed to be a continuation of the last book. It was interesting how family played into this one, both on the bad guys side and with Lucy and Sean. The end realizations with Lucy and Sean were great, loved how they opening their house for the family invasion.

---

### **Mila says**

This was fairly interesting, but unlike most, I can't stand Lucy and Sean's whiny, codependent relationship.

---

### **CD {Boulder Blvd} says**

I have mixed feelings about this book. Was it a 3, 3.5 or a 4?

I'm not summarizing the story as it's in the description and in lots of other reviews...

The Lucy Kincaid books need to be read in sequence; there are just too many characters and too many plot points that you miss too much if you haven't read the prior books. But even if you have read the prior books this book just has so many characters going every which way it's really hard to keep track or remember who every one is.

I didn't classify this as romantic suspense; although there are pairings of couples there really is very, very little romance in this novel. Not necessarily good or bad, just a classification heads up.

Although I like Lucy and I really like Lucy and Sean together, there were times that Lucy got annoying in this book. It wasn't just one thing, but the combination. Although Sean had a pivotal plot point, he didn't get any page time and that was disappointing.

I had suspension of disbelief issues. This was an over the top police action plot and there were times it seemed too much. This book wrapped up a lot of threads, killed people off and still left unknowns at the end of the book that I would have liked to seen wrapped up.

The good guys vs bad guys plot was riveting and I read non-stop even though I was irritated by a few things that didn't seem right. My main problem is I didn't buy the way they got to the ending. The courtroom scene made all the good guys look like keystone cops, Sean's last plot line was TSTL and after I had invested all this time in this book I was disappointed.

---

### **Jess says**

Loved it (this shouldn't be read as a stand alone. Books 8-10 have a strong building storyline that should be read in order)

---

### **Elvan says**

[ by killing off key characters. (hide spoiler)]
