## NOT A BOOK: Barron's Anatomy Flash Cards NOT A BOOK

This attractive, newly re-designed set of Barron's Anatomy Flash Cards makes an ideal study aid for medical school students, nursing students, and health care trainees. A total of 300 cards show muscles, bones, and organs, and are color coded according to their general function in the human body. New cards featured in this set include:

Layers of skin in Overview  
Microscopic development of the brain  
Immune system cells  
Microscopic structure of vein and artery  
Microscopic structure of the large intestine and stomach wall  
Cross-section of spleen  
Nervous tissue  
Much more

An added bonus to this updated edition is Internet access to electronic color images of each flash card. Students can log on to test themselves on every detail contained on the cards, and even create playlists of particular systems or areas where they require further study. Includes a ring that can be used to change cards as needed for studies on-the-go.
