Raff Laurann Dohner (Illustrator)

Lilly left Earth seeking adventure, and learning about aliens sounded cool. She just didn't expect to meet any in person—until her ship is attacked by alien pirates. Now she's meeting plenty of them. Scary ones who want to do very bad things to her.

Fighting for survival since childhood, Raff Vellar is more intimately familiar with knives and bloodshed than women. Then, during a trip to his home planet, a tiny human literally falls at his feet. When he learns she's been forced into slavery, a fierce need to protect the human overcomes him. A feeling that quickly turns into a deep need to keep her forever.

Paraphrodite says

3.5 stars.

Raff is the assassin, unacknowledged cousin to Cathian (book 1), captain of the Vorge. He's back on his home planet G4 looking to find the last man who murdered his mother.

Our heroine Lilly was on a scientific exploration ship that got taken over by pirates and sold into a brothel owned by a crime boss acquaintance of Raff. She was trying to escape the brothel when she was stunned right in front of Raff. Seeing Lilly is human, Raff immediately decided to save her despite having to go against the crime boss and his whole gang.

Raff's shuttle is damaged during their escape and they had to wait for rescue so a lot of the action took place hiding out in G4's outlands where Raff and his mother hid years ago, whilst the crime boss's people searched for them. During that time together, Raff decided that he wanted Lilly for his own.

Unlike the other human mates, Lilly is the only one who actually wanted to go back to Earth and we found out that it's actually possible to have video chat with Earth from outerspace. How cool!

It's strange how Raff is a totally different character when interacting with Lilly to how he was in the first three books. It's the power of LUUVE, I guess.

Raff is a bit out of character in here, but still an enjoyable short read.

I wanted more of Raff's backstory here!
Still I liked that he got his human mate too!

Sophia Triad says

I think Raff has had the most adventurous story of the series and I thoroughly enjoyed reading it!

Raff is Cathian's cousin and obviously he is Tryleskian as well. Only as we realise he is not one hundred per cent Tryleskian. Taking a lot from his mother's biological race, his mating process is somehow different and his anatomy is completely different.

Moreover unlikely Cathian's childhood, he did not have an easy life as a kid. That was the reason that he visits G4, an unfriendly dangerous planet and his childhood home, to get his revenge. A revenge that he vowed to have. There he realises that the person he wanted to kill is not longer available and alive. Instead Raff manages to save a pretty small human girl, Lilly.

Lilly wanted to visit space, seek adventure and meet many aliens. Unfortunately alien pirates have abducted her and she was on her way as a pleasure slave, until the cat-man saves her.
Raff and Lilly will try to stay alive at G4 until Vorge returns and rescue them.
Perfect opportunity for some interesting mating.

Though I gave the book 3 stars, I was greatly disappointed. Having read the other books, I was highly anticipating Raff's story. Raff is the silent dangerous one- the 'loose canon'....the 'unknown'. In this story, he is suddenly the antithesis. I swear, sometimes he wouldn't shut up...so 'out of character'. I believe there was missed opportunity to add an additional dimension to the storyline. After all, one of the reasons for having a "strong silent" type is so the leading lady can scratch at, and eventually knock down, the walls that have been so carefully erected. Ain't happen'n here.

4.3 stars

I truly enjoyed the Story of Raff and how he met Lilly. I think that the fact that he was by himself allowed him to be more at ease with her, it is like the opinions of all of his crew had him in a box that was hard for him to be gentler.

A feisty heroine that was easy to admire

Great writing, looking forward to reading the next

Loved it a lot

The kindle ebook had way too many typos. I have read all of LD's ebook and audiobooks, several times over and absolutely loved most of them. However, this book must be updated. Using my kindle I felt like I was proofreading the book with the amount of error report I sent.

WOW! Again, it reminds me of this author's other series, which i miss reading.... especially, a certain aspect of when Raff is highly aroused ;D LOL! Love it.

Fun fantasy Alien men

This is the story of human women meeting and falling in love with smart sexy and strangely handsome men with one women hearts and minds. It is a great read can't wait for the next book.

3 1/2 "Fall at your feet" Stars!

Entertaining, but Lilly contradicted herself. It was as slightly annoying. Raff was a sweetie. Looking forward to the next one. Happy reading!

Chappy says

Raff was always very quiet in previous books. Here, we get to see him open up to Lilly. Very quick insta-love with a strong "need to breed". The Vorge crew seems to be collecting human mates. Curious to see what happens next with Cathian's brothers.

Christie Thorsen says

If you have ever stalked my "Read" list on Goodreads, you would probably come to the conclusion that I am a little bit of obsessed with Laurann Dohner's writing, given the sheer amount of her books I have and the number of times I have read each one. Well, here we have her latest book in The Vorge Crew series: Raff. I have been on pins and needles waiting for his book, and was absolutely not disappointed. Yet another brilliant book by the one and only Laurann Dohner!

All Lilly wanted was what her parents and grandparents have; true, unabashed love that lasts a lifetime. What did she get instead? Losers who either think her family has money (they run a solar farm), or are just biding their time until the next lonely woman crosses their path. So, Lilly decided to take to the sky, so to speak, and venture out into the great unknown in hopes that one of the men on the crew of the Bax would fall madly in love with her. Yeah, that is so not what happened.

Queue Raff. Huge, muscular, highly lethal Raff. Visiting Gluttren 4 for what he hopes is his the last time, Raff is shocked to see a tiny human female drop to the ground at his feet, after having been stunned whilst fighting for what it looks like is her life. He can't help the protective feelings and urges that flare inside of him when it comes to the female, and immediately decides he must protect her at all costs. Even if it means taking on his former childhood best friend and the entire planet to do so. Getting off of Gluttren 4 proves to be much harder than they both thought.

Raff and Lilly are absolutely perfect for each other, as they really do complete one another. Lilly is the one person in all the universe who can soothe his savage beast. And, Raff is the only man for Lilly, who can give her the love and devotion of a lifetime that she so desperately needs (and deserves).

Raff by Laurann Dohner is everything! It is sweet, sexy, and oh so romantic (in a wonderfully alpha male way). I definitely recommend Raff, book 4 in Laurann Dohner's The Vorge Crew Series. In fact, I highly recommend getting the entire The Vorge Crew series by Laurann Dohner! What are you doing still reading this review? Yay! I'm so glad this isn't the last book in the series.
Can't wait for more! :D

Probably the least believable couple but Raff was a total sweetie and I loved him.
Lily was contradictory but she was relatable and I just want more from Dohner.

Rosebud says

Raff has systematically killed those responsible for his mother's death until there is only one left. Eldet. Vowing never to rest until Eldet is dead, Raff returns to his childhood home world Gluttren Four where his prey has been located.

Life is difficult on Gluttren Four as the strong control the weak with no one stronger than Raff's childhood ally Prix who has taken Raff's kill opportunity away from him, making it his own. Prix had a major role in Eldet's death leaving Raff with mixed feelings as the adult Prix controls his world through fear, intimidation, violence, and illegal commerce. Regardless, Raff's mission is complete and he can leave Gluttren Four forever, never to return as the planet holds no happy memories for him.

Lilly is a distraction Raff can't ignore. An Earth female auctioned off to Prix who will use her in one of his brothels. To be used and bred. Not something Raff will allow.

This is the 4th installment in the "The Vorge Crew" that features a character I have been waiting for the most. Raff. To date this has been the meanest badass of the crew. Feared by all as to gain his attention is to invite pain, torture, or worse. He's the boogeyman of people's nightmares. But. Raff is loyal to the *Vorge Crew* and is as much a friend to them all as anyone in his shoes can be.

With the above being said, I really was irritated that the hype for Raff didn't translate into this book. Sure he can fight and sure he has skills with his mercenary killer background but somewhere along the line he's become a pussycat in this story.

The storyline has various degrees of action/adventure and adult content romance scenes, but overall was

pretty straightforward and superficial. Though this author does provide an enjoyable reading experience for her fans, I wanted more big and bad with sexy time whipped cream on top.

The next installment teaser is included at the end of this book which will feature Marrow. Not a character I'm interested knowing more about so don't think I will be continuing with the series.

B.E.Love says

I have loved this series and once I heard about Raff I was very excited. After seeing so much of his backstory I was left wanting more from this book. As you can see I still am rating this a 4 so not bad by any means but not a 5 star with is what I was sure this would get. I wanted to see more of his rough and tough side. And I wanted to see more of the family dynamic in this book after getting so much build up and story about his horrible family. I do think more will be coming with the family from what is at the end of this book but I was sure it would happen in this book. I can't wait for the next book especially after seeing who it is about and seeing how more and more charters are being added and the opening for more charters has been made.
