## **Ride with the Wind** Marla Monroe

Raven is running for her life from an ex-fiancé who wants to keep his extracurricular activities a secret. She finds safety and comfort in the home of Reese and Dominic, the leaders of a biker gang. While she knows that living with them is only temporary, she can't help falling in love with them. Reese and Dominic want their relationship to be permanent, but convincing her will have to wait until they can free her of her past.

When Raven goes missing, they don't know for sure who is responsible—the new gang in town, an old rival, or her ex. They have to turn to an unlikely source for help before it's too late.

Once she is free to return to her former life, will she choose to remain with Reese and Dominic, or will she leave and try to start over? She loves them, but they're bikers, and bikers don't settle down with just one woman.

Solid storyline but I felt no connection to the story or characters. The writing style is tell you instead of make you feel it.

so over all

storyline-3  
characters-2  
sex scenes-2

really wish there was .5 stars so I could round it up to 2.5 it was an OK read to delved into good at some points.

Hmmm I'm not quite sure about this one. It was definitely an enjoyable read but it just didn't read *quite* right for me. Possibly a touch too short to really allow me to connect with the characters completely. I just felt tad removed while reading it. Not that there's anything wrong with that, I don't mind reading for enjoyment alone (refer to my love of z-grade fiction) but this (and it's sequel) just weren't quite there for me.
