**Stolen: The Prequel** Dani René (Editor)

**From the international bestselling author, Dani René, comes a dark story that will push all your limits. This isn't your grandmother's romance. It's raw, gritty, and shocking.**

*There is no escape*

I never believed in evil.  
I never thought the devil was real.  
Until I was stolen.

\*\*\*

I knew Satan existed.  
I was convinced I'd be like him one day.  
Until my heart was stolen.

Would she be the one to set me free?  
Or will I be the one to steal her life?

**\*This is an extremely dark story with numerous triggers, please be warned. Due to scenes of an adult nature, this book is for 18+ ONLY.**

# **From Reader Review Stolen: The Prequel for online ebook**

## **Carla Bulian says**

3,8. Eu esperava mais desse livro.

Dark, mas em alguns momentos incoerente!

---

## **Philomena Callan Cheekypee says**

Well I don't know what to say after reading this. The author floored me.

Drake and Caia are living a nightmare. Drake was born into it and Caia was dragged into it.

Don't think that as this is a prequel it will be just an introduction, a teaser of what's to come. I don't think the author believes in a gentle build up, well she certainly doesn't in this story. This short read is fast paced and action packed with darkness. Yes be warned this book will push you:)

Can't wait for Severed. I've high expectations that the author will bring us more darkness.

---

## **Amber- Leave Me Alone I'm Reading says**

OMFG!! What did I just read?!?! I've read some dark and depraved shit, but Dani René just BLEW MY MIND!! Some of these scenes will haunt my fucking nightmares. My black soul and I loved it so much.

Stolen is a prequel novella and I am now completely dying for Severed! If you like dark romance, you better get ready, because this book will knock. you. out!

---

## **Helen Altafulla says**

GODDAMN IT!!!! Dani René!!!

Whyyyyyyyyyy?

This book was dark, sadistic, gruesome, so much gore... EVERYTHING. My jaw is currently laying on the floor collecting drool. I can't close it!

Drake and Caia... WHAT DID YOU MAKE ME READ?!

Oh, man. This is such an awesome novella.

Don't dive in expecting hope to save you, that shit was left at the door and doused down in gasoline and a match thrown in.

Now, if you're ok with reading a book that doesn't have a happy ending—don't worry, it's just the prequel—and are aware of the sensitive subject matter AND can get past that, then this book is for you.

Caia is a girl that was stolen from her regular life and brought the "the Devil's lair." Where her captors try

and try to do what is needed to completely break her down.

Whatever you're imagining, it's most likely that x100000000!

If I could've shoved my hands in to save her, I would've, but I kinda also wanted to keep reading, so I didn't.

I want both Drake and Dante... I don't care who is worse, who is better. Can I change my name to River?

Talking total nonsense, but my mind is so jumbled that I don't know what to say.

READ THE FREAKING PREQUEL! It's amazing! Ends on a BIG cliffhanger, but the next book is literally right around the corner!

Gaaahhh... I need a minute.

---

## **Cat Imb || The Reading Cat || says**

I received an ARC of this book from the author and I voluntarily reviewed it. Thank you Dani René!

Dani René has dived back into the darker side of her writing with this one. I say darker, but this is her darkest yet... and I absolutely loved it! It was raw, gritty, and intense! She managed to cram all of this high emotion into a novella. Quite a commendable feat!

I'm so happy with how René ended this novella. She brings you to the precipice and leaves you to fend for yourself against your own emotions and heart. It is glorious. She ramps it up at least 5 notches near the end. It's riveting and addicting to read.

René's writing is also improving. The style is becoming more pronounced and the flair is intensifying in a good way. I couldn't help but highlight half the book for beautiful passages. Her literary language was on point for this one.

So basically, I think this story is one of Dani's best, if not THE best. It's dark, gritty, and intense. Utterly captivating.

---

## **Sheena says**

Shocking and gripping....

Talk about sins of the father... this prequel sets the scene for what is clearly going to be a very dark series... pure evil lurks in these pages... a malevolence which the main characters Drake and Caia must endure to have any chance of overcoming.....

This is a shocking and intense start, which promises a tortuous journey of violence, destruction and depravity as the series progresses... what on the face of it appears to be a story of abduction and abuse is so much more complex... Drake and Caia, captor and captive, but they are both tortured souls and must fight their own battles if either is to survive.. which begs the question who is truly the victim and who is really in control...

The author has created a bleak and unforgiving world and I have dipped my toe into the murky waters and with some trepidation look forward to taking that deep breath and the long cold plunge into the ensuing darkness of this series...I received an advanced copy of this book from the author

## Saira Moodley (BookedMercy) says

*Arc provided in exchange for an honest review*

3.5 stars

WOW... this book is all types of messed up. This takes dark romance to a whole new level. I need a breather after that.

This is the prequel to Drake and Caia's story, Taken. Drake is the son of Malcom Savage, a man who runs an organization that deals in human trafficking. Drake finds Caia different to every other girl that's been in the basement as he feels she is strong and will be hard to break. He gets fixated on her and his obsession only grows with time, while she is tortured by others.

Drake was an anti-hero. He didnt want the lifestyle he had. But he had no other option as he was born into it. His father conditioned him to be the way he is, made him get pleasure from depraved acts.

***We all have our crosses to bear. Mine comes in the form of a family name I'd rather never have been born with.***

***I want to be the one who saves her from the Devil himself even though it may kill me. I want to sever the link to him and have her be mine.***

What Caia went through, was horribe and my heart broke for her. I just hope she gets some justice in Taken. This book is not for the faint of heart!!! Even I could not cope with how dark it was. This book does end in a major cliffhanger and left me with a lot of questions. Hopefully they'll be answered in Taken!

## Jennifer Finn says

I'm annoyed by all the bad reviews I've read about this book complaining how dark it is. There was a very clear and concise warning in the blurb and at the beginning of this book saying how dark it was. You were clearly warned so how do people actually have the balls to then give this book one or two stars crying that it was too dark. I mean obviously you can read because you've purchased a book so my only conclusion is that these crybabies are morons. I don't like historical romance so guess what ? I DON'T READ IT. If I did

decide to branch out and actually give it a try but still didn't like it I certainly wouldn't give it a poor rating. Anyway enough of that. I myself only gave this book 3 Stars but it had nothing to do with it being too dark because honestly I don't think it actually was that dark. If you really wanna read an awesome book that is DARK then I suggest reading either ; Deliverance For Amelia by Bonny Capps. or one of my all time favorites ; Joseph Fallen (Estate Series) by M.S. Willis. Actually the whole Estate Series is excellent but the one I mentioned is not for the faint of heart. I didn't love this book because I felt it was really rushed and instead of being dark it came off as goofy to me. It felt like there was stuff missing from the story that perhaps is better explained in the next one I don't know. Also I wasn't crazy about Caia and because I didn't like her I didn't really care what happened to her. I would definitely like to explore more of Drake and River.

---

## **Hanan says**

Holy Hell!

Hell is exactly where the characters in this book are!

Drake is the spawn of The Devil and has lived his whole life in the depravity and gruesomeness of the vile evil man who doesn't deserve the title of father.

He doesn't know anything soft or loving. It's something he's never experienced.

Drake only knows pain and destructive tendencies.

Caia wakes up in a dark dank dungeon.

She's drugged and disoriented and nothing is making sense to her.

At eighteen she's innocent and naive from her father's over protectiveness.

Caia is one strong young lady.

No matter what the Devil and his minions put her through she's determined not to break.

I thought Caia was a tough strong willed girl.

Even though she's in the pits of hell she still didn't give up and outwitted the Devil.

Depriving him of the ultimate prize.

Poor Drake broke my heart.

The darkness in him is not of his making but of the circumstances and environment that is forced upon him.

I feel that somewhere very deep inside of him is a small flicker of light wanting to shine through.

Even though I think he'll never be "normal" there is some humanity still left in him.

Gripping intense book that I had my heart pumping so fast and hard I was worried about myself.

It's jaw dropping and shook me to my core.

I can't wait for Severed!

Bring it on Ms. Rene!

---

## **WendyW ~ Girls Just Wanna Have Books says**

Holy Mother of Pearl!!! I was not expecting this level of dark from this author. While this is my first read of Rene's, I was under the perception that she wrote steamy, stimulating books. Boy was I wrong. While there is some erotism within, this book is definitely hits high on the depraved scale.

If this is a premonition to what is to come in Severed, then sign me up as I will be one clicking the release faster than you can say "Take Me To Hell"!

Total darkness. Total destruction. Totally DELISH! This story is not for pansy-assed readers. You people ARE NOT ready for this type of dark play. So don't be that dick that says "*I didn't know it was so dark*" and "*not my cup of tea*" after reading all the warnings as to the content and the storyline subject.

The only critique I have is that I would have like to see more detail on the depraved scenes. My moral is 'Go Big or Go Home'. I live for those unscrupulous, unethical details to feed my darkened soul. Overall this little prequel has stolen my interest and indulged my proclivity for wickedness!

---

### **Anne Milne says**

Any prequels I've read previously give you a tease of what you can expect in future books however this one doesn't fit that mold. There's no lulling the reader into a false sense of security no softly softly approach. This is dark brutal and scared the ... out of me at times. Drake and Caia are both trapped in a brutal world with no chance of escape.

I'm not sure what I just read but I'm hooked and this is only the prequel. I can't wait to get my hands on the next one.

---

### **KAT ? Kitty Kats Crazy About Books ? says**

I don't know what to rate or how write my review for this one, I requested an arc due to the subject matter and the many warnings stating that this was a dark read, now and then I like to dip my toes in this genre, but sadly I didn't find this one dark at all.

---

### **Teema says**

This was not what i was expecting at all...

---

### **Kay's Blushing Book Reviews says**

*Stolen A Prequel Dani Rene-*

**GENRE:** Dark Romance/Horror

**NARRATION:** Dual POV

**BOOK DETAILS:** A prequel to Severed

### **MY REVIEW**

This is one hell of an introduction! A stark and confronting intro to Drake's world. One full of depravity,

abuse and violence, and his devastating role in the destruction of young girl's souls.

This is very well written, and although the subject matter is sensitive, the violence shocking, I was completely lost in the darkness of this book. I simply could not put it down.

This is no holds barred, raw, gritty and ballsy storytelling at its highest and not for the faint hearted. This is beyond dark with no unicorns or rainbows in site. I warn you, do not read this book unless you can stomach strong graphic violence, it will push your limits regardless how much you like dancing in the dark.

Dani has primed me ready for book#2 but at least I won't be going in blind, surely it can't get any darker? Or can it?

**MY RATINGS:** (All ratings are out of 5)

BLUSH RATING: 4

DARKNESS RATING: 5

PLOT RATING: 4

OVERALL: 4 Blushing Stars

## **Tre Talbot says**

Mind freakin blown! I cannot believe this is a first for this author writing this dark and disturbing of a story, the way everything unfolds for Caia and Drake I wouldn't dare put my kindle down because I was hooked. The storyline is one that kept me on your toes with all the possible scenarios of why things are happening as they are, just when I thought I had it figured out there's another twist that would leave me gasping in shock of what I've just read. Caia is a strong girl but I wonder just how much more she can take and when it comes to Drake, the way he was raised and seeing the man he's becoming I wonder which path he will take in the end. I cannot wait to see what happens next and will be eagerly waiting for more. This is my unbiased and voluntary review.
