Their Paid Girl ella_enchanted

Shawna is the girl every guy turns to... when they need a date? She does it for the pay, they hire her to go out for a multitude of reasons: making other girls jealous, impressing the family, you name it. Shawna's seen it all. Until she meets Adam Ferrell, the jerk god of the campus. He hates her (figures, she gave him a bruise), and she can't stand his guts. But they each need what the other offers, nothing more. Except sometimes it seems like something more.

Radiant says

Wattpad books are in right right now..and i have read my share of books.

I really liked this book.Shawna and Adam are couple who are really perfect for each other,except that they donot know that themselves.They both have past they are trying to overcome and in the process they both become eachothers support and love.

Loved the book..its Short,Sweet and lovely book.

Recommend to all.

Rating:4.

Cleo says

I really liked reading this. I also loved how Adam and Shawna really despised each other at the beginning. And after getting to know each other, their feeling of hatred towards one another turned to something else. Which goes to show that you can't really judge a person without knowing them personally. Sadly this is what everyone does. It's human nature.

I also loved the other characters namely, Jaime, Ester, Joel and others. I would definitely read this again someday.

Laplumedelyla says

It is something I would pay for. It was better than a lot of published books I've read.

Jennifer Guzman says

Excellent!

Sarraboufaid says

AMAZINGLY AMAZING it's just a wowwwwwwwwwwwwwwwwwwwwwwwwwwwww but sadly it's not finished yet since the last year i've been checking on it on a daily basic and when a saw that she uploaded (4 months ago or even more) i wen crazy

Tuba Sayed says

Meh -_-

kittypebbles says

This is the first book i have read this year and guys let me tell you something if you ever want a rebound.....you better start with a cliché.

Coming to the story of this book,it is also a cliché where Adam is your regular popular,player etc and Shawna is a kinda reserved girl who needs money so goes out on paid dates....

But obviously both have some deeper secrets and they uncover each other.

Totally this book was cute,good and definitely a rebound for me

Genni Eccles says

2.5 stars

Im beginning to think that Wattpad stories aren't really for me. The story was entertaining, but there's just not enough character development to really convince me of anything. Also, there were some continuity errors that just frustrated me.

I would say to give this a whirl if you don't mind reading a story that while entertaining, needs some serious editing.

Dilele says

Meh. I've definitely read better books on Wattpad. The story's fine but annoying and doesn't really make sense most of the time. It's just kind of a back and forth all the time between Adam and Shawna. What bothered me most was the author using the word cripple all the time when referring to Shawna's brother. That's a serious no go!

Masuma says

One of the better Wattpad books that I've read, but not the best.

Good story, but predictable, nothing really stood out and hit me.

Other than that, the writing was really good, especially compared to Wattpad standards.
