Wild Renegade Andria Large

Ace Vaughn

The bad boy, the wild one - that's what they call me. I guess it suits me. I work hard, but I party harder. I mean, I'm single, so why not? I like clubbing, drinking, and banging random women. Unfortunately, I sometimes hook up with the wrong chicks. Like the ones who gets attached after a romp in the sack, but sometimes that just comes with the territory. I never really thought that one would actually cause so many problems. How do I keep the one I love safe when a former one night stand falls off the crazy train and lands in Psychoville?

Nicole Gionelli

I finally get the job of my dreams as a backup dancer for Renegade for their world tour. It means that I'm going to be away from my friends and family for about a year, but they understand how important this is to me. I meet Renegade on the first day at the dance studio. I knew these guys were attractive, but seeing them in person is a whole different story. Hello! I know I need to remain professional, but damn, it is hard when two of the guys start vying for my attention. Who do I choose? Do I really want to get pushed into the spotlight by dating a member of Renegade? I'm not so sure. But if I do, what's my chances of taming the Wild Renegade?

Warning: For mature audiences only. Contains seriously hot sex scenes that will leave you wanting to fulfill your very own boy band fantasy. Please keep in mind that this is a work of fiction and I made it up from my own imagination.

Michele McMullen says

The boys from Renegade are back. They are known for their sizzling hits and Andria has another hot hit on her hands. She is here to tell us bad boy Ace Vaughns tale!!

Ace is the quintessential rocker bad boy of the band Renegade. He has a sultry name to attach to his hot tattooed nasty boy persona. He has always been amused by his band mates love lives and will be the first to rib them about falling for "The One". He thinks that he is much to wild for that and enjoys woman too much to "settle" for just one. Ace has never been denied and truly enjoys all woman have to offer.

Nicole Gionelle has finally had her big break come her way. She has made her way through the dance world with strong work ethics, determination and a very supportive traditional Italian family. Nicole is a beautiful, sexy, talented, smart woman who knows what she wants. She has been successful in retaining her dignity in the crazy world of show business. She has finally landed the dream job.....a back up dancer the for the hot , young Renegades. She may have her limits tested with this group.

The moment that Nicole walks into rehearsal the sexual chemistry and tension fills the room. She can feel his eyes on her and swears they are making her temperature rise. She knew this was going to be a problem. She is determined to not become a notch on Ace's bad boy bed post. We must give Ace an A for persistence he knows that Nicole is different but can't stop himself from pursuing her. She continues to deny him and that only adds fuel to the sexual fire.

They are in the spotlight and one night of unbridled passion and spontaneous actions propel them right into the media limelight and frenzy! Is it possible to find that special someone and make it work with the world watching and critiquing every move? You will have to read and see!

This is a great love story filled with amazing attraction, drama, overwhelming sex appeal and strong choices!!!

5 Wild Stars!

ARC received for an honest review

Review also posted on Mara's Bookshelf

Once in a while, I want to take a break from drama and angst filled books (which I really enjoy, by the way). An uncomplicated book but still with sense to curl up to during a lazy afternoon. Wild Renegade was that book for me. This one was quite an unexpected treat. A very welcome one at that.

A 30-year old backup dancer, Nicole "Nikki" Gionelli is one of the quirkiest, candid, and easily appealing female character that I've read in a while! She does not take any bullsh*t from anyone, and it was so refreshing to read a heroine who doesn't whine and stands up for herself all the time. She was obviously smart and confident and that was consistent from start to end. There was that one incident though that was

typical female reaction but I appreciated how rational she was in considering both what her mind and heart are telling her and in the end, the truth always wins out.

Nicole comes from a very traditional Catholic Italian family, well, her father that is. Her father only wants an Italian man for his daughters, someone with the same tradition and beliefs (according to him). And Italian Ace Vaughn is not.

Ace Vaughn, one of the 5 members of the boy band group, Renegade. He's a 26-year old tattooed bad boy. But that didn't fool me. Even at the start of the story, it was evident how funny, genuine, and not much of an asshole he really is. The attraction he felt for Nicole was a usual thing for him, but after that initial attraction grew into admiration for Nicole's tough personality and then into love as they spend more time together, *those* were new feelings for him.

What started out as a job for Nicole, turned out to be that and much more. The charming Ace put on the moves on Nicole and because Nicole is one of those girls who actually does not play hard to get without coming out as slutty, she welcomed the advances -- well, that drunken night jumpstarted everything for both of them. Another thing I liked about Nicole, she had a mini-freak out about what they did when she was drunk but after a few minutes, she put up her big girl panties and dealt with it like a logical, practical woman.

Unfortunately (or maybe fortunately depending on how you see things), that drunken night became next day's gossip and to avoid damage to Nicole, Ace came up with the suggestion to go public and say that they are actually in a relationship. A fake one that is, but for the paparazzi and the public's sakes, they are in a real one. And that's where things got interesting.

But like I mentioned earlier, Wild Renegade is an uncomplicated but still engaging read and with Ace and Vaughn who are both outspoken and honest about almost everything, their story is anything but boring! Even though this is quite a quick read for me, I applaud Andria Large's talent in writing a book that is packed with romance, humor, a bit of drama, and even suspense in less than 20 chapters! Yep, you read that right. There's suspense that had me holding my breath for a minute or two until it was over. That one was surprising and I think that particular turn in the story added *oomph!*. A really good *oomph!*

The secondary characters also filled a significant part in Ace and Vaughn's love story. Their friends supported them in their careers and when their relationship became real and they were there when accidents and crazy bitches tried to jeopardize everything and I believe that without those insanely supportive characters that back up Ace and Vaughn, it won't be the same.

Well done, Miss Andria Large!

Stars: 5 stars!

Recommended to: If you're looking for a book to get you out of your heavy drama series funk, Wild Renegade is a good choice!

POV: First person. Dual POV.

Series: Yes. Standalone.

Cliffhanger: No.

EXTRA COMMENT: I will definitely read the next story in this series.

Vieira says

So even though there are only 2 books in this series so far I'm going out on a limb and say this was my favorite! lol Now don't let the "boy band" part diswade you. I myself do not like boy bands and these "boys" aren't that they are men. All men!!Yum I can not wait to read about all of them!

Megan says

I have read Andria Large's Beck Brothers Series so I knew I would love this series and I was so right. In fact, to my utter surprise, Sebastian is in the book several times. I loved how this tied the two series together. This series is a bit different from other 'rocker' series in that instead of the characters playing instruments in a band, they are a 'boy band' and sing and dance. I really enjoyed the commodore between the characters and even their body guards.

Ace and Nicole are instantly attracted to each other and after a one night stand the go into a fake relationship for PR purposes. However, over time the relationship blossoms into something real. Of course you throw in the psycho girl that won't leave Ace alone and you end up with quite the drama and suspense. I freaking

loved Ace. He is protective, funny, and sexy as hell. He's known as the wild one with tattoos and piercings but he's not as bad as the media makes him out to be. Nicole is a dancer and fantastic at it. She's passionate, caring, driven. I really loved both of them and easily found myself absorbed in their story.

This book had a fantastic story line that had me interested from the first page. I seriously sat down to read in and didn't get up until I'd finished it a couple of hours later. The scenes and dual POVs transitioned well. I really enjoyed this book and I'm hoping for more books about the other men in Renegade. 5 out of 5 stars!

??*•*•*??CoNnOrBeLl??*•*•*?? says

This was so good, it was so much better than the first book. I didn't know what to expect from this because I was so disappointed of the first one. That is why it took me so long to start it but I'm so glad that I finally felt that it was time to read it.

Both Ace and Nicole where great I couldn't say anything really bad about them. They where funny as hell and don't take shit from people even if it's coming from her own father. And especially if it comes from a catty bitch that wants her man. And loved that they didn't fight there feelings for each other they just went with it and fell in love with each other.

I love that Sebastian was in this book a little he had me laughing my ass of. He was one of my favorite from The Beck Brothers series.

And I got introduce to Dennis and a little of Tucker it made me want to start there book but I think am going to hole off on it for a bit more.

Overall I enjoyed the book from start to finish with a little hick up in the middle that they settled very fast.

{MY LIKE SCALE}

Romance: 5/5 (I love them together only one misunderstanding after that they were great for the rest of the book)

Drama: 3.5/5 (Yes there was drama but it didn't piss me off just when that stupid bitch was trying to ruin Ace And Nicole's relationship)

Cover: 5/5 (Great Cover)

Nicole: 4.5/5 (She was a very strong heroine I liked that about her and liked that she went with her heart and not her head she was great)

Ace: 5/5 (I knew that I was going to like him because I knew how he was in the beginning wasn't his true self he's definitely one of my favorite heroes no doubt)

Writings: 5/5 (Great writing and story)

Humour: 4/5 (Had some great moments)

Hotness: 5/5 (Just enough very H.O.T Hot)

HEA:(view spoiler)

I was gifted this book for an honest review.

Crystal Marie says

Let's be honest, I am personally on overload with all of the rock band and MC books coming out but something about the description of this book sparked an interest in me. I signed up for the review and I am glad I did because the author gave us one heck of a story with Ace and Nicole. While the background for this story was common and seen before, I don't think you can call those two characters anything other than unique and endearing.

I am sure you have read the synopsis so I will spare you a repeat. Let's talk about Nicole and what I saw in her that made me adore her. She isn't in her early twenties, still trying to find herself, just living to have fun, no this woman is older yet sexy as all get out and a dancer for the band. She has her head on straight and knows the difference between emotions and logic. Nicole has no problem listening to others advice and opinions but in the end she will follow her own choices and she takes responsibility for those choices. When she meets Ace it is clear to her that he certainly wouldn't pass the requirements set in place by her religious and cultural driven father. So what is a girl to do when she finds the forbidden man interesting and the chemistry is brewing? She goes after that man who has touched her heart and desires.

Ace was also well written. For being in a band and having the sexy looks that would bring most women to their knees, he kept it real in this book. Not saying he didn't make a few bad choices in women in his past, one of those choices will wreck damage to what him and Nicole are trying to build, but he knows that the feelings he has when he is around Nicole are not only new but strong enough for him to throw fear and his freedom aside and reach for a happy ever after with her. He is HOT, does wonderful things with his voice and hands, and has talent that most women would pray for their men to have, but he is real. With his heart full of compassion, love and respect he will do whatever he has to do to prove to Nicole that he is loyal to her no matter what it will cost him. He knows he made some bad choices in the past but he does all he can to protect her from those demons.

So let's wrap this up with what I loved most about the book. The author gave us every ingredient you would need to make this a tragedy waiting to happen. The set up was perfect for an immature girl to run wild with her emotions and assumptions while the hormone crazed man would react in anger and then beg for her forgiveness even if he were falsely accused of the crime, just to get her back. The author proved just because you have the same ingredients it doesn't mean you have to use the same recipe. She took those two, placed them in a drama filled situation and showed us what real people do. The emotions were raw, finding yourself laughing at times, crying in other places, angered at how far people would go for "the story" and revenge and through it all Nicole and Ace stood strong. I am not saying they didn't have moments of sitting in the corner rocking and crying but soon they stood up, dusted themselves off and went looking for the facts. They listened to their hearts while allowing their logic to lead them. They were a couple who wasn't willing to throw away love because of assumptions or rumors, they valued what they felt for each other and they respected the ones they chose to be partnered with. That is why I say you must read this book. The author kept it real and she gave us a powerful and entertaining story in the process. I can honestly say I finished this book with not only love for Nicole and Ace but for the highest respect towards the author for weaving a plot that has been abused and over used in the past and giving it a wonderful mature and passionate twist.

Three Chicks says

4 Star Review by Jen Skewes

Wild Renegade is book two in the Renegade series. Ace Vaughn is considered the bad boy member of the group Renegade. He loves to party and loves his woman. He's single, famous and loving life. When he meets the new dancer that is going to be on tour with them sparks fly.

Nicole just landed her dream job as one of the backup dancers for the group Renegade. She is so excited but some of that excitement is taken away from her when she meets the other girls. They are petty and vindictive but she is here to do her job and do it well. She meets Ace Vaughn one of the members of the group and he is even sexier in person. She knows that she should stay away from him. He has a reputation and they will be working together on tour. But sparks fly and it turns into one hot night of passion. It was meant to be just a hook up but led to so much more. Feelings start to arise between the two of them which neither one of them can deny.

Nicole and Ace's relationship is anything but easy. They have so many obstacles in their way. Being famous means that your life can be one big media circus. But aside from that there is a psycho ex (it was really just a

one night stand but she thinks otherwise, since she is a little bit crazy) and then there is Gina's father who will only accept her dating a nice italian man, which Ace certainly is not. What started out as a one night stand turned into a love that neither one of them expected. Can they survive the obstacles that life has thrown their way or will Ace lose the one woman he has ever loved?

Ace may have been labeled the "bad boy" of the band but in my eyes he was anything but. Yes he had a past of partying, drinking and woman, but when he met Nicole he was anything but wild. He is very sexy but also very sweet. I think falling in love wasn't what he expected but yet he fully embraced it. He would do anything for her. I loved Nicole. She dealt with a father who was would rather lose her daughter than see her happy and then has to deal with a pyscho bitch who thinks she had some sort of relationship with her boyfriend. But she is a very strong girl who knows what she wants and won't let anything stand in the way. I loved watching the two of them go from a one night stand nothing more than sex to falling in love. There was a bit of drama and some angst but the end I have to say was wonderful. Just loved that one moment that I cannot mention. I loved Ace and Nicole's story and cannot wait for the next one!

BooksandBeyondFiftyShades says

Being the Wild Renegade, Ace Vaughn had all the girls he wanted, he never knew what love was until Nicole Gionelli walked into his life.

Nicole Gionelli has landed her dream job, being one of the backup dancers for the hottest group The Renegades, the only think she wanted was to obtain knowledge and experience to her resume until she was paired with Ace Vaughn as a dance partner.

Ace and Nicole romance is far from normal, being in the spotlight, hatrade from a psycho ex, and the disapproval of Nicole's father.

Can their love survive all the troubles and turbulations come their way?

I love this love story, is full of love, and steamy sex scenes. You will fall in love with Ace.

Becca says

4.5 Stars for Wild Renegade. Oh I have a new boy band obsession and their name is Renegade. Wild Renegade is the second book in this new series from Andria Large.

Ace is the bad boy of the group, at least by his appearance. Full of Tats, flirt and man-whore extraordinaire. But when Nicole joins the band as one of their backup dancers, Ace is thrown for a loop by his attraction to this beautiful woman who has walked into his life.

Ace is beyond charming and proves that he is more than what the tabloids say about him. Things aren't always as they seem and Nicole learns that first hand and not in the most pleasant of ways.

Not only do we get the sexy men of Renegade, but we also get Nicole's best friends - Raelynn and Sebastian Beck! (And if you have not read Andria's Beck Brother Series - go add it to your TBR NOW! (<https://www.goodreads.com/book/show/1...>)).

Jennifer Hines says

I received this book free from the author in exchange for an honest review

I love a book that can keep me thoroughly engaged and laughing my ass off at the same time, Wild Renegade did just that.

“Wow,” I mutter, shaking my head in confusion.

Ace’s eyes flip up from the menu to meet mine. “What?”

“I just thought you would have checked out the hostess’ ass as she walked away,” I say with a dismissive wave of my hand. “I mean, I think Alex jizzed in his pants over there.”

Ace is labeled the bad boy of Renegade and truth be told he has pretty much earned it. From his tattoos to his very active sex life, he enjoys the lifestyle of the rock star he is. The arrival of a new back up dancer throws him off his game. She’s funny, mouthy, and doesn’t fall for his shit. It’s those reasons why he can’t stop thinking about her.

“You... I... uh...” Ace stutters. He shakes his head as if to clear it and tries again. “You look... whoa... I mean... goddamn!”

Nicole is living her fantasy now that she’s gotten her dream job, dancing on tour with Renegade. The other female dancers may make it feel like high school, but she’ll refuse to let it get to her...until she has no choice but react, and react she will.

“You’re not at all star struck by us, are you?” I ask curiously.

“Oh, I am, but I need to be professional. I’ll freak out when I get back to my hotel room tonight,” she says.

After Nicole crosses a line with Ace things go bad fast and he’ll have to decide how to make it better. Thing is, when you’re pretending to do something it sometimes becomes more real than fake.

“You really know how to pick ‘em, bro.”

“I was fucking drunk and horny! Goddammit!” Ace says in exasperation.

“Yeah...just, ew,” I say with a fake gag tacked on the end, making Dean laugh even harder.

“I love this girl!” Dean exclaims, slapping his thigh.

This was a great read and I enjoyed it from start to finish. Wild Renegade has sexy rock stars, crazy friends, intensely heated attraction, a psycho ex-lover, and enormous amounts of humor mixed throughout the pages.

My Favorite Laughable Moment: I have to say that I absolutely loved Sebastian and all of his Valley Girl moments, especially his concert attire. He made me laugh so hard when he was acting crazy, but when he's being an overprotective badass or the loving brotherly type he'll make you love him too.

"Ahhhh! Like OMG! They are like so effing hot! They make me want to like throw my panties at them!"

My Favorite New Word: Twatwaffle! The words Nicole comes up with are something else.

Lady E says

3.5 Ace and Dennis and Sebastian! I didn't love Henry's book but I'm going back for Sebastian now because a hot guy with an accurate Valley girl imitation moves me! Anyway for a "boy band" these boys are very entertaining, and I approve of the Pretenders in this book. I liked Nicole I found her way more tolerable than Lizzie, and she took a nutty broad down when the occasion called for it! Good time all around, looking forward to the next installment and I still love Beau!

Mags says

Andria Large's writing just keeps getting better and better. Loved the story and what made it even better, more Sebastian Beck which is never a bad thing!!

Overall the story is hot, sweet and full of fun, mostly because of Sebastian! and is definitely worth reading! The two main characters Ace and Nicole are really great, plus there are appearances from a few of Andria Large's other characters, which for me just adds to the overall enjoyment of this fab book!!! :-)

~Re-read 2017~

Shannon Gorilla McGee Winston says

Rounding up from a 3.5

The Renegade Series is sort of a surprise to me. When I finished The Beck Brothers, I was totally in love. And willing to read anything Andria Large writes.

But my devotion was touch-and-go there for a minute when I found out that the heroes of her next series were...members of a boy band.

Not my ideal hero, but she makes it work. Cute, sexy and funny, I can't really NOT like them. It does take me a chapter or two to really get used to the 1st-person present-tense narrative, just because I don't read it a

whole lot (but if it matters to anyone reading this, take note).

As far as Wild Renegade goes, there was something I did dislike about it, though and I don't want to be spoiler-ish but the hero wasn't very heroic to me. Let's just say that Alex and Dennis, the bodyguards, have my full attention and I'm struggling to remember whats-his-name--oh, yeah, ACE, that's it, Ace.

Seriously, I need Dennis' story ASAP. She needs to write a Bodyguard series. Forget the pop stars, I need protective amputees with cold eyes and hot asses. Yessirrie.

But there was points for being Majorly-Awesome, too. Guess who makes an appearance as a secondary character. Sebastian Beck! That crazy mofo steals every scene he is in and I love it!

"They are *the* biggest boy band out there right now. I'm gonna be going on tour with them and dancing on stage during the concerts," I inform him.

"Oooh!" Sebastian replies, finally understanding whom I'm talking about. "Ahhhh! Like OMG! They are like so effing hot! They make me want to like throw my panties at them!" Sebastian shrieks in a valley girl voice that he does way too well, while running around the kitchen table like a girl, arms flailing.

That guy cracks me up.

Anyway, the rest of the guys in the band are definitely on my radar and I can't wait for their stories.
