**Bang and Bounce: A MFM Romance** Angela Blake

**Lost in a storm. Rescued by two hot ex-marines.**

**The rain isn't going to be the only thing pounding hard.**

**This cabin is going to get seriously filthy...**

She wandered off the beaten track.

We found her, lying helpless.

She could've died.

Now she'll be gasping for breath for another reason.

**We'll mould her. Our little Baby.**

**And our Marine training will help us do it.**

She won't need much convincing.

She knows what we have for her.

Our skill. Our ripped bodies. All over her.

All of us. Entwined. Together.

**The three of us melting together in the storm. As one. Until we make it back alive.**

**\*\*Book One: A MFM ménage romance. No cliffhangers. Very mature themes. And a HEA.\*\***

# **From Reader Review Bang and Bounce: A MFM Romance for online ebook**

## **Jenny Brightman Harris says**

I received this book with the understanding that I could leave a voluntary and honest review.

This is a short story so I don't want to give anything away. In this story we meet Alia who is out camping with her friends. She isn't sure how she is talked into this trip but is glad that she came. It seems like the second night they are there they meet some of the neighbors. Things go off the rails for a bit after that. She wonders has she finally found the men to help her with a little problem she has or will this be all she will ever get?

There are some twists in this book that I want to tell you all about but with it being short I don't want to ruin it for anyone else. I will say this book will have you hooked from the first word to the very end. I would recommend it.

---

## **Millie Rosa says**

Sexy sexy sexy read! If you want to get hotter than hot this book is for you.

Alia is a 25 year old virgin. She is camping with some friends when she meets these two handsome marines. She saw them first at a creek where she flash them her goodies.

Her first night camping a heavy rain put her and others in jeopardy. She almost drowns but when she wakes up is to find herself at the mercy of the two handsome marines. What will these two hot men do with her?

## **MJM says**

A camping trip with friends sounds good, doesn't it? But Alia's trip doesn't quite go to plan. There is a terrible storm and she gets separated from her friends. But help is at hand in the form of two hunky, handsome, delicious ex marines called Brandon and Chris. Now they are going to save her - but for themselves and in three days Alia is going to discover so much that she never dreamed possible and, oh boy, is she going to like it and want more! Angela Blake has written a real, page turning, rip roaring, scorcher of a book here in Bang and Bounce that the reader is probably going to be swept away in this steamy hot and erotic story that you'll need to have a fan on beside you. You won't want to put it down as it's essential that you know what's going to happen next and you just might see a glimpse of the next story that I'm now wanting to read too! Beautifully written with great characters and explosive chemistry that is off the charts. Great fun reading about this innocent young woman's introduction to passion. I received an arc of this book and voluntarily leave my honest review of it here.

**DEFINITELY RECOMMENDED** and now waiting impatiently for the next story!!

Bang and Bounce: A MFM Romance

## **Judy says**

This is one hot and sexy short novella! Alia has gone camping with her friends and go further into the woods than normal. Ali is a virgin who just has not found the right guy. She gets stranded after a rough storm and found by two older hot and sexy Ex Marines, Brandon and Chris. They all going searching for shelter. These two dominate men are doing everything they need to stay safe and alive and along the way they become involved with Alia. They take care of her in more than one way and she is happy with it. in the end can they continue this unusual relationship once they get back to the real world? I voluntarily received an Advanced Reader Copy of this book.

## **Jennifer Holzapfel says**

This is a preview/ review. Book Goes live on Sept 23rd on Amazon.

18+ erotic romance

Alia, a 25 year old virgin goes camping with her friends and is swept away in a torrential thunderstorm. Chris and Brandon, former Marines from the campsite nearby, were also swept off in the storm while trying to save Alia. What will two beefcake Marines do with tiny little Alia once they find an abandoned guest cabin deep in the woods. How deep will Alia go for two sexy men?

## **Lauren says**

3.5 Stars

This book is the first book of Angela Blake's that I have read. Because of this, I wasn't sure on what to expect. The story is a quick read. It has a lot of steamy moments and the writing style is fairly easy to follow. I wasn't a massive fan of the characters. I wanted to know more about Alia.

I liked that Chris, Brandon and Alia formed a bond. I liked that they were there for one another. I felt a tiny spark between them but I didn't really feel any chemistry.

I liked the ending for this book. I liked that they all had one another and made plans for the future.

One of the things I couldn't understand was; after Brandon, Chris and Alia were found, they camp rangers threw them a party. At that party Chris and Brandon wore suits and Alia wore a sexy mini dress. Who takes that kind of clothing with them when they go camping?!

The storyline for this book is fairly easy to follow and an ok read.

Just a warning; this book has a lot of slut shaming and rough sex, it may cause triggers for some people.

## **K?rösi says**

I voluntarily reviewed an Advanced Reader Copy of this book.

This is a very quick read, perfect for a lunch break or just a little book break when you need one. I'm really enjoying Angela Blake's writing style and this is another book that once you pick it up, you won't put it down

until you finish. Its such a great storyline, which is captivating and flows well and captures your attention straight away. The main characters are very well described and the chemistry between them is really hot. I highly recommend it.

---

### **Julie says**

I received an ARC in exchange for an honest review.

I enjoyed reading this book as it has a good storyline and good chemistry between the main characters. Alia gets separated from her group of friends following a storm whilst camping in the mountains. She is found by Chris & Brandon in the river. Being Ex-marines they know a thing or two about survival! They managed to found a cabin & take shelter there. This is were things progress rapidly for the 3 of them. Alia started this trip a virgin but she left with a lot of experiences!

---

### **Raecharmed says**

Alia is camping with some friends when a storm hits in the middle of the night. During the storm Alia falls and when she wakes up she is hurt and nowhere near where her friends and the camp is. When she fell she wasn't alone Chris and Brandon 2 guys she met with hers friends have fallen downstream also. Chris and Brandon are ex-marines and have wanted Alia since they first saw her. They find her and assess everyone for injuries before they start to figure out how far from camp they are. As they walk they come across a cabin they stayed there until the storm cleared. While at the cabin all 3 gave into the attraction they had been fighting. They don't think rescue will happen if they stay at the cabin so they start walking again and stumble across search & rescue people. What happens now that they are back to the real world? You'll have to get the book to find out.

This was a quick read, great story. The heat between the three character was instantaneous and scorching hot. This was a great story.

I received a copy of this in exchange for an honest review

### **Kysha says**

Not real sure where the title comes from but there is definitely ALOT of banging! I was really glad my hubby was home when I was done reading this book!

I am unfamiliar with the author but got this ARC for my honest review.

The story is unrealistic but isn't that what you want in smut books. The 2 guys are older than the girl and almost too Alpha and bad ass. Marines or not I have a hard time believing they would be able to do all the things they do in the forest. Also, they totally could have found their way back sooner. I think that they just wanted to stay and screw some more. Her sexual awakening is so sudden and total that I was surprised she survived. The complete domination of her body and mind was very hot and also a little sad. I don't like women who give up themselves so completely to a man.

Overall this short book is a great smut read for a release.

---

## **Leticia says**

The author knows how to deliver one hot menage story. That leaves begging for more. From the first page to the last. You can feel that connection with the characters. As they take you through one amazing adventure of being lost in the forest. As they used their survival skills to survive. Alia never imagined finding love camping with her friends. Being blown away from a storm and passed out in the middle of the forest. She is rescued by two ex-marines. They're lost and far away from their campsite. They find shelter in the old cabin. What will happen would love blossom between them. I love how two males only focus on the female. And the chemistry begins slow not rush. If you love a good menage I highly recommend you this book. It deserves more than five stars. I voluntarily review an advanced copy of this book.

---

## **Marie says**

"I received a free copy of this book via Booksprout and am voluntarily leaving a review.

The first book (Bang and Bounce) I would say had more "disturbing" (to me) things that would pull me out of the flow of the story line.

The second book (Grunt and Grind) less so and to me seemed better. The third book (Slap and Swallow) I would say was the best out of the three.

As for the writing it had a very easy flow to it that I enjoy reading. I liked the third book the best because it seemed to have more of a story" to it.

---

## **Lexee Toste says**

This was an okay read for me. It was quite what I was expecting it to be. The story line was what I was expecting but the sex was a little different. It's explicit, which I was expecting but has a little bit more of a darker tone. Everything's consensual. The guys are rough (heroine enjoys it) and some of it was just beyond my preferences. There's a little choking/asphyxiation, and some slapping (to the face which is what bothered me). The story really wasn't bad and for the most part well written. Just not my cup of tea. I wish that there had been a little bit more of a heads up in the blurb so that I had been aware of what I was getting into. My rating reflects the fact that this story wasn't for me, not that it's a bad story. If the stuff that I mentioned doesn't bother you and it sounded intriguing then give it a shot.

---

## **Monica Randau says**

If you enjoy MFM romances then you will enjoy this fun quick read by Angela Blake. The author has a very good writing style that can be easily followed. There really are not any holes in the storyline other than the story ended pretty abruptly. But that could just be because I'm used to stories that have the extended epilogue at the end. The story focuses around Alia who is on a camping trip with her friends. She gets lost and stranded with two hot and sexy former marines for a few days until they can find their way back to their

campsite. There is great dialogue between the characters, a few hot steamy scenes with a little light kink. The only element that I didn't really care for is the face slapping as it was portrayed as a hard slap and not really soft or playful. Other than that is was a very enjoyable read that can be read in a few hours. \*\*I voluntarily read an advanced reader copy in exchange for my honest review.

---

### **Ericka Gutierrez says**

I received an ARC in exchange for an honest review.

I'm on the fence with this one. On one hand, I could see the potential for an exciting story by having a virgin girl get lost in the woods with two very hot dominating men. The scenery was laid out perfectly and you could just picture yourself there. On the other hand, I felt like something was missing to really make this book great. I couldn't see the chemistry between this trio at all. This book felt like it was all about two men getting themselves off on rough sex with a girl. Don't get me wrong I love ménage stories but this book just didn't do it for me.
