Dead Moon Rising Macy Largo

[#205 Siren Menage Everlasting: Erotic Paranormal Menage a Trois Romance, M/M/F] Sarah is moving from Seattle to Miami when a cranky car and a terrifying brush with a serial killer leaves her stranded in the middle of the dark and desolate South Dakota plains. Captain Plato Delaney of the South Dakota Highway Patrol is on the killer's trail, and Sarah is the only living witness. With limited funds and nowhere to go, Del invites her to stay with him and his lover, John Riley, himself a retired Trooper. It's not long before the killer is on Sarah's trail and she's in Del and John's bed. Now the men have to protect Sarah against a killer who stays one step ahead of the law. But Sarah's flashes of intuition prove to be stronger than any of them thought, and her conversations with the ghost of a little boy murdered decades earlier might be the key to saving them all from another Dead Moon Rising. ** A Siren Erotic Romance

Kaylyn says

Macy Largo did an amazing job. It was a page turner from beginning to end. Sarah's intuition saved her life in more than one way. It saved her from a serial killer and brought her to Del and John. The sex scenes were hot! I loved the plot. Every time Robert came into the picture I would get goose bumps. I will be buying more from Macy Largo in the future!

LynnMarie says

Ashira Datya's Review

Sarah is a young woman with an extraordinary gift. She travels from her home in Seattle Washington to her uncle's home in Miami Florida, but when her car breaks down in South Dakota, she is found by police officer Plato "Del" Delaney who is investigating a very serious set of crimes happening in the town. He takes her to his home and has his lover John (who is a retired officer) watch over her. John and Del fall in love with Sarah and vice versa, and they form a delicious three-some. Together, John, Del and Sarah find love and danger.

I give Dead Moon Rising four Tea Cups because it kept me on the edge of my seat and I never once wondered if the story was over yet, in fact, I didn't want it to end! The love scenes were amazingly written and were perfectly graphic; I give it a heat score of three. I hope there is more to read from Ms. Largo, and if there is, I can't wait to find the stories and devour them.

4 Tea Cups!

Lyndac says

This was a good read with likeable characters and a good, but predictable, plot. The whole relationship happened a little too fast for me and it seemed as if the guys focused completely on her rather than each other when she moved in.

Carla Herbert says

The mystery surrounding Sarah is the initial point bringing the lead characters together. The quickness of the relationship developing is unsettling, but it is an erotic romance so I guess reality can be suspended. There was tremendous emotional depth to all of the characters and it was nice to "see" the relationship develop between all 3 of the main characters. The background characters had enough emotional depth to make them interesting enough to participate in the storyline. The editing was refreshingly well done. There were few page break errors, which made the book relatively easy to read. It was a fast paced read that had me turning

pages impatiently trying to figure out who-dunnit while still staying very invested in the relationship between the 3 main characters. Without knowing Macy Largo is another pen name for Tymber Dalton/Lesli Richardson, the story had all the calling cards of her style. I whole heartedly recommend this book for anyone not afraid of things that go bump in the night.

Melanie♥ says

I picked this book up back in 2010. I started it and realized it had a paranormal element: a ghost. I usually hate books with (shudder) ghosts, so I put it away.

I later learned that Macy Largo was actually Tymber Dalton. She is one of my favorite authors and when a reading challenge gave me the opportunity to read a "favorite author" book, I thought of this one.

I'm glad I got back to it!

Nice steamy mm and mmf love scenes, a great story line and I became quite fond of the ghostly Robbie. Four stars.

Ana says

Apart from that last creepy scene with the baby...it was okay. I didn't love it but it wasn't a complete waste of my time so I guess it was better than some. So why only two stars? Well. Mostly I think the romance wasn't all that good. It was based solemnly on sex, they didn't really talk much or got to know each other. The men jumped into a relationship with her way too fast for it to have any credibility. I also found Sarah a little weird, not about her supposed psychic powers, those I actually understood, but about her behavior and way of talking. She let herself be swayed to be with them both out of the blue. She never questioned anything, not really, and she just seemed childish. And her vocabulary...boy that one was hard to swallow (no pun intended). She dished "Yeah", "Uhnn"(not even a word girl!) and "yes please" as if she never learned the full alphabet, I swear. Little girl talk, believe me. Not the greatest thing in the middle of a serious talk. Not that they any many of those either but you get my point. It was pretty disappointing. I also think the author shouldn't have kept this book between paranormal and normal because she ended up not achieving either very well. More like a weird mixture.

Caroline says

Fun, sexy suspenseful romp which includes murder on a paranormal scale. Great mmf book.

Daisy Sloan says

HOT menage story with some suspense and mystery built in. Gotta love it!

Del and John are lovers. John is a retired highway patrol officer. Del is current patrol officer. They live together in peace and quiet in a small town in SD. Sara gets stranded in said small town and barely escapes a serial killer. Now the guys are protecting her from the killer and seducing her at the same time.

I loved the mystery and suspense. I did figure out who the killer was about 3/4 way through the book. I also liked the paranormal aspect to the story. It added something extra to the story without taking over! I also really liked how technology played a part in this story.

My only complaint is that Sara fell into the menage relationship really easily. Didn't take much for her to jump in. Even though she was relatively inexperienced and had never done anything like this before. They guys were great and their pasts were explained so it was believable. I do think they fell into pretty quickly without much discussion as well.

Good Story! I'll have to check out more from this author!

Angela says

Definitely a Comfort book

I love physic paranormal and a little ménage doesn't hurt. This is a simple love and mystery story told in a straight line —no twists. Well written and leaves room for you to imagine a little more.

Amanda Saunders says

I loved jt!

I had this book for a while now and decided to read it today and it had me from the first page. It is a great mix of romance and mystery. I will absolutely be reading more books from these two.

toofondofbooks says

I debated on this one between 3 and 4 stars, but based on the story line itself, went with 3. I really enjoyed the relationship, and the sex was pretty good. The 'mystery' fell flat for me, though. I knew who the bad guy was immediately, and thought the characters were kinda stupid for not figuring it out. I thought it was funny that the heroine kept calling herself too stupid to live, and I definitely agreed with her the second time. Overall, an enjoyable love story, but don't read it for the mystery.

Judith says

An intense and erotic romance set in the context of the search for a serial killer, a person seen by Sarah as she is trying to nurse her ailing car down the Interstate. Rescued by a state trooper patrolling that section of the highway, she is brought to his home initially as a temporary haven until she can move down toward her ultimate destination with her uncle in Florida. But her witness of various aspects of the case and bits and pieces of evidence that mean Sarah's life is in danger. She is also extraordinarily intuitive and her meetings with a little boy who died in the same area as the current victims gives assistance in catching the perpetrator. A wonderful story of Sarah's relationship with Del--the trooper who rescued her, and John--a retired trooper

whose service-related injury cut short his career, and how her presence in their lives eventually resulted in her become their "third."

Kristinmarie says

I love anything written by Tymber Dalton, no matter which name it is written under. This was no exception. From the very beginning I was hooked on the characters. There was mystery, love, and even paranormal.

I can only say I loved it and would recommend everyone read it!

Tammy Rigney says

Wonderful erotic suspense. Just the type of wonderful writing I expect from Macy Largo AKA Tymber Dalton.

Mspink says

LOVED this story. But if you are a Tymber Dalton fan (wink wink), of course you are going to love this too. I wish it had been longer because I enjoyed it so much. But either way, it was such a well rounded story. Suspenseful, romantic, sexy, a little supernatural edge to it too. Nice story!
