Standalone Novel Galleria Stores is a huge chain of stores owned by Paul Galleria. Everyone who is anyone in Atlanta knows the Galleria family and their influence in Atlanta. Paul has three daughters – Jade, Kharisma & Happy Galleria. This is Happy's story. Twenty-nine-year-old Happy Galleria is unhappy with the way her life is going. Her life plans were to be married, excelling in her career, and pregnant with her first child. However, her boyfriend, Phil, has other plans. Trying to make partner at his law firm, his plans don't include a family, marriage or setting roots anytime soon. Happy has always been good with remaining emotionless, but will her emotions start to show once Phil ignores her pleas for wanting more in their relationship? While rushing to her gate for her birthday trip to Bora Bora that her sister surprised her with, Happy bumps into a man – literally. Peeved that the man has delayed her from making her flight, she yells, curses and continues to her gate. That man is her pilot. Colt Wright is a pilot who has worked himself from the ground up and has just moved his family from New York to Atlanta to work with a top airline. A single father to a ten-year-old girl, and trying to keep his eye on his aging mother, Colt Wright doesn't have time for small talk. After losing his child's mother to cancer, he wants more than casual talk or one night stands. He wants a woman – the Wright woman. These two cross paths and nothing may remain the same. Happy has baggage, but Colt is used to dealing with baggage, being a pilot and all. Will Happy remain Emotionless?

OMG I LOVED THIS BOOK!! ?.com

First off Colt is bae. I am so glad that Happy finally got it together and left that zero for a hero. Lil miss River is a straight DIVA at only 11yo. Can't wait for the rest of the series to come out cause I know they'll be the bomb too. I'm so ready to know what the deal is with Jade and her no good husband Tony.

Phenomenal!

What can I say about this book? Wow, this book was great. I literally couldn't put it down. I'm so ready to dive into part two. I'm glad that Happy started living for herself instead of everyone else. She deserved happiness too. I definitely love how sweet and caring Colt was towards her. I loooooove it! ❤?

Great read

I must say I was a little surprised by this story, in a good way, it was very detailed very thorough and a really good complete story. I enjoyed Happy and Colt story love the daughter River, his mother, and her sisters Khar and Jade just a really good story from beginning to end you know the kind of story when you finish it you feel like you got the whole picture . I like reading books like this You feel like nothing is left unsaid really good book highly recommend looking forward to reading about the rest of the Galleria family.

Old vs new

The book started out slow but the plots made up for it. It's refreshing to read books with drama and class. The southern up bringing vs the new age way of doing things. It also speaks on some of today's issues. I

wish the book would've closed the gaps on the plots. Hopefully there will be a part 2 to bring it in full circle.

Swooning

This book was incredible. Believable black love, minus the ex-drug dealer and fatherless woman. I loved that it touched on topics that many people are dealing with today like family issues and cancer. So well written This story was a breath of fresh air. So glad I stumbled upon it. Looking forward to Kharisma's story but I want so much more of Happy, Colt, River and Ms. Gia!

Good Read

I loved this book. Romance with just a little twist of drama to keep me pulled in. Phil was a workaholic and didn't deserve Happy G. Where he lacked Colt Wright filled his short comings and got Happy to live up to her name. I didn't approve of either Happy or Phil infidelity were there relationship lacked but I'm glad they parted ways with a mutual understanding. Diana, Happy G mother, is the devil in a skirt. Her sister, Jade is delusional to ignore your sisters truth and still parade around her rapist husband all in the name of monetary gain and status. She is truly her mother's child. Khar I love her relationship with Happy G and how she doesn't let her mom control her life. That husband of hers gets the side eye. I look forward to reading part 2 in the future.

Love??♥

I rarely give a five star rating so just know that this book was really good and needs to be on your TBR list. I love that Paul was the matriarch of his family and really loved on Jade, Kharisma, and Happy but Diana needed more therapy than what she was going for. She sucked at supporting her daughters but she failed Happy the most. Diana shouldn't have forced Jade to marry a monster like Tony just because his family had old money. I knew Phil wasn't the man for Happy and I'm glad that she literally bumped into Colt because he changed her life for the better. Colt and Happy both had wounds going into their relationship but they were each others healing balm. Colt knew what he wanted with Happy and he pursued her heavy until she submitted to being with him, River, and Ms. Nia. I love the sisterhood between Happy and Kharisma and I hope that Tommi and Kharisma have a better marriage than their older siblings Tony and Jade. I can't wait to read Tommi and Kharisma's story next but I REALLY REALLY can't wait to read Tony and Jade's story because she's trying to do everything to please him and he's just trifling by raping her baby sister AND openly having an affair on her. It was good that Darrius and Kelli spent some quality time talking a well needed trip but bra-man needs to purchase a larger house for his growing family. I can't wait to find out what Colt and Happy having. I hope River gets the little brother that she wants.

Ok Very good first Love Story

Man I so need me a Cole Wright. He was so loving and caring and a provider. He went through tragedy and then he found his happiness in an airport. Happy the youngest of the clan was unhappy in almost aspect of her life until Cole and his family. That mama of Happy i wanted to reach in the pages and smack her silly. Really good and emotional love story. Im such a sucker for happy endings. Good job

Great read

This read was great and also an eye opener. It showed me just because you have money doesn't mean you have happiness. Happy went and was going through so much that it made her programmed to thinking what she was going through was ideal that was until she met Colt and change her outlook on things. I loved Happy and Colt together and the saying is true that God always have a funny way of showing you things especially when you least expect it. This read was everything and more and can't wait for book 2 of the Galleria sisters because Kharisma looks like she has a story to tell. FYI the sisters mother SUCKED!!!

Pen ? Game EVERYTHING

I absolutely loved this book. Happy Mother is a hot mess she really made me mad. I wonder what's up with Happy's Father and Jade omg that's another person I wanna fight. I love how your pen game is so diverse you can write about anything and make us fall in love with your storytelling. Looking forward to the next book ?

Emotional, more like it

Emotionless was a good, quick read. Happy Galleria was anything but happy in her life with longtime boyfriend or with several family relationships. Enter sexy pilot Colts Wright and Happy has an even bigger dilemma.

This was my first read of this author - I enjoyed it and will check her out again.

Emotions

Jaahhh. To see you stepped out of your comfort zone for the very first time and you killed this story. It was everything. The characters were too real and dear to my heart like Happy G is my home girl I been rooting for. I am so glad she started living for her. If it wasn't for Colt she's be emotionless and still living her life for her mama. I can't wait to read about Khar. Lovely story girl.

Happy G

This has been one of the best romance books I've read this year. The love and affection from Colt to happy was so heart felt and made me want it myself! I can't believe their mother, but then again I can. I can't wait to read about the sisters. I know it's going to be a hit for sure!

Ahj Meeks says

Hmmmm

The author is definitely a good writer but I felt like the rape was swept under the rug. It made it seem as though it was okay to trade her daughters virginity for wealth. I understand forgiveness but it was accepted way to easily for me and they were back celebrating like one big family without any real apologies or healing. I hope by the time Jades book comes there are some real apologies and her husband has a nice lil fall from grace. It would be funny if she ends up with Platinum Happys new client.
