## **Falling Together** Claire Cullen

Will doesn't want an Omega. He's been there, done that, and never truly got over it. His brother's untimely death has left him Alpha leader of Eden City, a responsibility he wants no part of. Acting as gatekeeper to the only urban district that accepts unmated Omega, Will does his best to dissuade new arrivals from staying in a city fraught with danger. As much as he wishes he could, he can't stop caring. A truth made all the more obvious when he crosses paths with Jake.

Jake is running from the hell his home has become, carrying a secret only an Omega can carry. To him, Eden City means hope, means a future, but everyone says it's no place for an Omega. When they're proved right, and he winds up in trouble, his only chance for freedom lies with Will, an Alpha troubled by his past. If Jake can form a connection with the seemingly indifferent Alpha, can Will lead Jake to safety and maybe to love?

*Falling Together is the first book of The Omega Haven series. It is a 63,000-word paranormal romance with a happy ending, no cliffhangers, and can be read as a standalone. There are scenes and language not suitable for readers under the age of eighteen. It includes mpreg.*

# From Reader Review Falling Together for online ebook

## Romancefantasy Ebookmaven says

Yeah this was a really slow paced and boring book. I finished it cause I had already started it and wanted to see how it ended. But it just went on and on and on. It's just an ok read for anybody desperate for any mpreg mm romance.

---

## Tiffany says

### This was different...

Most shifter with Mpreg follow a certain pattern. Fated mates, mating bites, knotting, the omega self lubricating and heats. The only thing we got in this story was a mention of a heat that we didn't get to see or experience. Most of those things are what I LOVE about shifter books. The story was still good but not what I expected.

---

## Kazza says

I'm usually *not* one for mpreg shifter "MM" (gay) romance reading, I generally find them to be full of editing issues with sex galore to the detriment of any plot. That wasn't the case with this book. It's inexpensive - currently US\$0.79 or AUS\$1.04 - and I felt in the mood to give another one a shot. I hit this book at the right time for my reading mood and I was pleasantly surprised, really enjoying it.

There is nothing particularly new about it but it's light and easy reading. There's not a lot of specific wolf shifter action or lore or world building. It was Alpha/Omega-centric and old-school romance novel-esque. It is a true standalone, complete with a happy ending. I'll read more in the series as it progresses and as my mood dictates. I'd like to see how Jake and Will are going.

## sinayel says

What a beginner for a series. I liked the fact the series is angsty but full of a world where not everything is peach and roses. You have the Alphas and Omegas and even the Betas but mostly you have a secret world where Omegas have a life of misery and prostitution, where some look for it but others fall on lies. I loved Jake, he was hardworking and fair, and I loved Will. Will who didn't want to get into it but at the end did, and I loved the fact the baby wasn't Will but that didn't stop him from loving Jake with all his heart.

---

## **ZENIA M smack Thattush says**

### **New twist**

This modern world brings new ways to effect the well being of omega. Bet you won't see what troubles are chasing Jake. Thankfully Will will be there to save him . The sweet gentle omega is strong enough to do some saving himself..

---

### **Lyn says**

2.5 stars

I would have enjoyed this more if the characters (main and secondary) weren't so boring. I found their interaction with one another to be dispassionate, and their reaction to what was going on around them lackluster. It's a shame because the story is an interesting one but without the right characters it falls flat.

---

### **Rachel Emily says**

I thought that this was a great new start to this series! It definitely sets things up nicely for future books by the end of this one.

I adored Jake, I wanted to just give him a hug and protect him and make sure he had the happiest of HEA endings because he deserves it. This author is really great at writing the abused/hurt omega running from a crappy pack finds the alpha of his dreams trope, and man it just pulls at my heartstrings every time. Great writing, always lots of emotion, and engaging story as well.

Eden City sounds rough, like it's not going to be a whole lot better for omegas, but I think with Will's family running the city more efficiently, and with Will and Jake's safe house for omegas being set up, that it will get better. I look forward to more stories and can't wait for what comes next.

I received an ARC in exchange for an honest review.

---

### **Diana says**

This is the first book in a new series, and I'm already really looking forward to the next one! The writing was good, and I love the setup: The main character from this book, an Omega who has suffered a lot of abuse, becomes the head of an Omega refuge which no doubt will figure prominently in the following books.

In this book, I love how the crusty Alpha slowly melts for his Omega. He gets to come to the rescue several times, although in at least one instance the Omega rescues himself before anyone else could get there. Nice to not have a complete damsel in distress situation!

Lots of fun.

---

### **Julie says**

#### **?FANTASTIC START TO A NEW SERIES!?**

? FALLING TOGETHER is a well-written book with a fully developed storyline that provides readers with a complete story in this first book in addition to setting the stage for future books in this series. So.....Yes, this book can be read as a standalone --- BUT (because of the quality of the writing and the author's skills at developing the overall storyline) most readers will likely want to read future books of this series.

? If you enjoy books in this genre, I recommend reading this one.

? Read it and ENJOY! ?

THEN BE HAPPY KNOWING THERE WILL BE MORE BOOKS IN THIS SERIES  
TO READ AND ENJOY IN THE FUTURE! ?

### **Angie says**

#### **Shifter MPREG m/m romance**

3 stars

This is a unique take on shifters in the city. In a lot of ways this book reminds me of omegaverse stories but these are wolf shifters living in a city.

This book contains dark content including trafficking and sex slavery.

This was a good book but not exceptional.

---

### **~nikki the recovering book addict says**

#### **Good start**

Claire Cullen hasn't worked for me for awhile so I'm mighty pleased that this was a good one. I would say this has a very busy plot. But that's not a bad thing. I just wish it would have some unique take on werewolves other than all the usual tropes. Looking forward to the next book in this series!

---

### **Zuzu says**

I liked this story but I missed the "true mate" aspect of a lot of shifter books. I like shifters to be OTT in their attraction. In this shifter universe, they seemed to just choose someone. I didn't feel that overwhelming attraction between the 2 MC's.

---

## Amy says

This is a good start to a new series. Our Omega Jake takes all kinds of abuse, and escapes to Eden City where unfortunately his luck does not turn. This is a quick, simple story about turning the City around and giving Omegas a safe haven to live and thrive.

---

## Elise X a.k.a Ryder's Pet X says

?????\*Not all that bad\*?????

Surprisingly, it wasn't as bad as I first thought it would be. This was, after all, my first *mpreg* book... Alpha leader of Eden City **William 'Will'** (28) and Omega **Jake Torres** (22) met when Jake ask for permission to stay in Eden City and since Will want nothing to do with Omegas - been there, done that, never again - he just gives him the permission with a warning; you're on your own. However, when Jake gets taken, Will goes against everything he has decided on and rescues him. Offers him a place to stay and work until he's back on his feet. That changes however when a secret is revealed and and things becomes more complicated. There's also the growing attraction towards each other *and* growing danger...

*"You're mine now," he said, leaning in to lick the skin around Jake's navel, watching Jake's eyes slide closed at the sensation.*

*"Every inch of you belongs to me, not just outside but inside as well."*

**Overall, I actually enjoyed it.** Not all that much, but enough that I was pleasantly surprised and I would definitely consider continuing this series. If there will be more, of course. However, there was something that really bothered my - practically annoying the living hell out of me - and that was the fact that **the unborn child wasn't appreciated enough**. Sure, he/she was still in the stomach, but I had expected some more... *love* towards the unborn baby. I understand the awful situation of how the child was conceived, but Jake decided to keep it, and protect it, yet, I didn't feel his love. I'm sure it wasn't attended to be that way when **Claire Cullen** wrote it, but it was how I felt. Which was so sad, because the book lost a bit of its appeal and lost a full star from me. At least there wasn't any *insta-love*, which I was afraid of.

*"It's more than I ever knew I could have. Everything has just kind of fallen into place."*

*"That's because we fell together," Will replied, "and into each other's arms."*

*"Like we were meant for each other,"*

### Quick basic facts:

**Genre:** - (Adult) Paranormal Romance (M/M)

**Series:** - Series (Standalone), Book One.

**Love triangle?** - (view spoiler)

**Cheating?** - (view spoiler)

**HEA?** - (view spoiler)

**Favorite character?** - Jake Torres, I think.

**Would I read more by this author/or of series?** - Sure.

**Would I recommend this book/series?** - Sure.

**Will I read this again in the future?** - Unsure, though probably not.

**Rating** - 2.5/3 stars.

**Sue says**

## **FABULOUS INTRODUCTION**

Omega Haven sounds like it's going to impact the shifter culture in ways we have yet to see. This was a fabulous introduction to the packs that surround Eden City. Will is the unsuspecting Alpha, who couldn't possibly care less. He's just putting in time until his family decide who they want the true Alpha to be. Will is ruggedly handsome, unknowingly sexy and clueless in a self absorbed fog. Then Jake walks in his office. Omega, beautiful, sexy and running scared. Jake is determined to make it on his own in Eden City. He knows all he has to do is get a job, work hard and stay out of trouble. Weeks later, when he can't get hired, he's out of money and out of luck, the first predator gets their hooks into him. The only one that can save him is Will. This is a fantastic story that is filled with interesting characters that seem to have endless stories to tell. I think this is going to be a great series with many different characters we're going to fall in love with. I can't wait to see what The Omega Haven Series has to offer. I HIGHLY RECOMMEND THIS BOOK!!!
