Looking for Giants Dominic Ross

"The impossible happens all the time. You just have to know where to look."

A storm descends upon the island village of Palpillon, and everyone has run off to the mountains for shelter. Everyone that is, except for twelve-year-old Bast and his friend, Adora. As they make their way back to safety, a hand reaches down from the sky and whisk Adora up into the clouds, never to be seen again.

Thus begins Bast's journey where he discovers the Cabinet Man's incredible secret, a desert that exists above the clouds, and an island called "No-thing" is more than what it appears to be.

Most importantly, this is a journey to find his friend.

But first, he has to look for the impossible: he has to look for giants.

Looking for Giants Details

Bea San says

Quick, light but addictive read which I've re-read a couple of times already!

The plot is gripping from the onset (just how I like my YA books) and the world painted by Dominic Ross is somewhere I'd like to go on a vacation to, even with the giants. A great YA magic realism find.

Rebecca McNutt says

This is one of those books that I wish I'd been able to read when I was a kid. Dazzling, mysterious and imaginative, the way the words come to life on each page is truly magical.

Victoria Budkey says

While I liked the characters and story given to this short read, I found myself often having to struggle to keep the complicated names straight in my head. The Giants all seemed a little bit stale to me, but the ending was well resolved and left you feeling satisfied.

Johann Diaz says

Definitely a must read!

First, I fell in love with “Palpillon”, the myriad of creatures in the Sea God's Hands, the serene beauty of white paper lamps and cerulean hue of the Lazura Festival, and the fiery sacrifice of the old gods to build Hallow Heart.

There were also lots of characters to relate to, whether its the headstrong Adora, the calm and cautious Bast, the hasty Nang, or the pensive Cwin. Then there's Couran, Rigolo, Maya, Naila, Aga and Eld, and, of course, the enigmatic Cabinet Man.

And finally, there was so much action, including a giant hand from the sky scooping up a loved one, a magical jar, that, with all sincerity should never be underestimated, and a silent scream which could have been the last thing our hero heard - or unheard.

All in all, I liked this book a lot! :)
