A Very Vampire Christmas is a (very) short story by popular American author Charlaine Harris. Vampires Dahlia and Taffy are Christmas shopping at the Rhodes Marketplace Mall. Dahlia finds the whole Christmas thing annoying, but the firefighter crew of Engine 34 did save her life during the bombing of the Pyramid of Gizeh hotel the year before, and she wanted to show her appreciation. But then, just as their friend Matsudo Katamori arrives, they become aware of a potentially dangerous situation.

Their new sheriff, Joaquin has issued orders for his nest vampires to remain inconspicuous in situations such as these, but Dahlia can't stand by and see human children suffering. And Taffy and Katamori can't let Dahlia handle this alone. This is billed as Sookie Stackhouse 10.1, but is better described as a story set in the Sookieverse, as Sookie herself never makes an appearance. After this tale, you'll see Christmas elves in a whole new light.... Shopping, sex and blood and gore.

Jennifer Layne says

I originally found out about this book series by watching the HBO Series True Blood ...

That said ... The books ARE WAY BETTER! I actually had to stop watching the show because they strayed so far from the well written books.

Loved it! The Books are WAY better than the Show True Blood! Each book gets better and better!

On to the Next!

Shannon (Savhage Temptrest) says

Loved this original short by Charlaine Harris! "A Very Vampire Christmas" features Dahlia Linley-Chivers and her pursuit to shop at the local mall for some Christmas gifts for her "friends." Of course, the store elves surrounding the mall Santa are more than anyone bargained for...

Very cute vampire Christmas story.

I don't remember Dahila and Taffy from the Sookie books but enjoyed the story quite a bit.

Would have liked to know who they were related to the vampires in the books we do know, but the story did establish they had their own sheriff a group of them lived with.

Was originally published in Glamour magazine (that figures with vampires) in 2010.

Link to story is on the story page.

I haven't read that much about Dalia but this story was fun to read. I never imagined that some things which are so cute and Christmas like can be so evil. I like Dalia and her two vampire friends and I wouldn't mind reading more about her, hopefully she will appear in one of the Sookie Stackhouse novels (while writing this I have read the first 8 Sookie Stackhouse novels). I'm hoping for it and otherwise another extra bonus story with Dalia would be nice too.

Great story! No Sookie in this one but boy was it a good one. The characters are fantastic, it's action packed, toss in a wee bit of sexy.....yea!

took a long break after the first 9 books --

I guess I am missing the fun and novelty from the earlier books ... the humor seems to be long gone and, at this point, I just want to get to the end of the Sookie series

I found this book bundle on my library's ebook service and went on a binge read then I saw the first season of "Trueblood" and stopped right there ...

I Absolutely love this book series. It's one I always go back to.

Katie Gaughan says

I thoroughly enjoyed this series, but beware fans of the TV show, you will not get the same ending in the novels.

Rachael says

Great story, and it was nice that there was a link directly to it & it was free! I love all the short Sookie Stackhouse stories, maybe some day Chalaine Harris will publish them all together in one book when the series is finally finished (although I hate to think of it ending soon) ~ like a Sookie Stackhouse compendium of short stories, she could call it: Short & Dead, or something like that. It would be nice to have a few short stories about some of the other vampires she hasn't written about yet before the final end arrives though. :)

Renaë says

I have been reading the Dahlia short stories because they're supposed to be in the same world as Sookie Stackhouse, but I just really can't get into Dahlia's story. I will probably forgo reading any more of them. I don't find any of them overly exciting and they always have a super predictable ending. For being a badass vampire, I think the Dahlia stories are really corny and silly. The christmas theme was cute and that's really the only reason this has two stars from me.

Sarah Goodner says

Didn't see any of the expected characters. In fact, I didn't recognize anyone, so I'm not sure how this very short story can even be considered in the Sookie series.

Darkpool says

Really astonished to see this "Sookie Stackhouse 10 book boxset" appear on my to-read list. I've read the damn series, why would I want to read the boxset? A bit of digging and I discover this was originally the short story "A Very Vampire Xmas" (which I had intended reading back in 2010. Yes, I really had...) which for some reason a librarian has decided to replace/combine/wtf with the boxset. A Very Vampire Christmas can still be found here: (probably an illegal copy. Whoops)

Cassandra says

I have read literally every Sookie Stackhouse book in the series....and I cannot fathom why I did. After reading the books AND watching the TV show I thoroughly don't like these books. Sookie is kind of a Mary Sue in the beginning, with her falling for every vampire just because she can't read their minds and vampires are cool. She seems to constantly be getting into situations that she should just run screaming from, dates Bill until she learns he was spying on her for the Queen, dates Eric for most of the books but then they break up because of some dumb reason, and then ends up with Sam who she should've just picked in the first book. The author has so many Southern euphemisms I had to Google every few pages just to make it through, and the idea of Sookie being this irresistible being had me going full on Pam at one point. I am so sick of Sookie Stackhouse and her magical fairy vagina.
