When the Cameras Stop Rolling... Connie Cox

On-screen doctors, off-screen fireworks!

On set they make a dream team, but when the credits roll the sparks fly between TV celebrity doctor Eva Veracruz and her brand-new co-host, Dr. Mark O'Donnell. While Mark's arrogant manner gets under Eva's skin, his smoldering glances have her heart racing for all the wrong reasons.

For widowed Eva and recently divorced Mark the last thing they need is an off-screen relationship. So why is it so hard for these medics to take their own advice?

Gregory Goddard says

This was a very enjoyable book. It is very well written with likeable characters. This would be a great book for a warm summers day kicked back in a hammock. I got this book from good reads.

WHEN THE CAMERAS STOP ROLLING... may go on record as my quickest read. I started the book one evening, was finished the next. The words flow so smoothly I was turning page after page after page. Latina spitfire Eva is the doctor-turned-TV host heroine, and handsome hunk Mike is the doctor-turned-reluctant guest co-host. What happens behind-the-scenes in the TV station is very realistic, and what happens to these two characters is well worth reading to find out!
