## A Song for Sophie Mackenzie Crowne

Jobless, practically homeless, and tired of being manless, Sophie Taylor jumps at the chance to be Beaumont Walker's personal assistant. Six weeks on the road with country music's bad boy--and, more importantly, his all-male crew--is the perfect opportunity to change her life.

Beau Walker doesn't need any more distractions. Sophie, with her butt-ugly suits and balls-to-the-wall attitude, shouldn't be one, but she proves to be distracting and more--even, surprisingly, a friend. So when he discovers her plan to snag a man from his worldly wise crew, he's determined to protect her from herself.

When Sophie realizes Beau is behind her failure to attract even one member of his crew, the last place she expects to find herself is in his bed. But will one night of passion convince her she's woman enough for him? Or will it destroy their friendship and his budding belief in true love?

## From Reader Review A Song for Sophie for online ebook

### **Juli says**

4 1/2 stars.

Sophie Taylor, a laid-off history teacher who, faced with too many bills, accepts an offer of a lifetime. She becomes a temporary assistant to popular country star Beau Walker.

Unfortunately, Beau has a bottled up monster in him the first few days on tour, and doesn't like anyone to stand in his way. Especially a straight-laced teacher hiding her charms under god-awful business suits.

Though the two butt heads back and forth, it seems a little of what she's learned dealing with children helps quell the beast. And yet, her own loneliness is deep and it's clear, to Beau's eyes, that she knows little about what goes on in the outside world—let alone the world she'll be faced with on the road. A world he becomes determined to protect her from, even if it means taking her (his little "Serge") into his heart, and his bed.

Part of the Honky Tonk Hearts series by The Wild Rose Press, A Song for Sophie is a short and delightful romance novella full of charm, music, and a little humor. If you enjoy such contemporary romance with a "rock and roll" kick (so to speak) do check it out.

### **Jenn says**

A Song for Sophie was one of those books that I could not put down! I read this book in one sitting that is how much I loved it!! Through this book and the beautifully written dialogue I was able to imagine all of the things going on in the story.

This story could be said to be a little bit like a Cinderella story with elements of the country added in. Sophie, the main character is free spirit. She is fun, loving and drop dead gorgeous. Beaumont Walker, is your typical bad-boy singer and is absolutely delicious.

The romance scenes were packed full of humour and love. The dialogue between the characters was some that I absolutely loved. The supporting characters were just as great as the main characters. Beau's mom, Savanna and Tim were so entertaining.

This book is one that I would definitely recommend to anyone.

---

### **Francine "Tsukime" says**

Romantic and hilarious, A Song for Sophie tells about a laid-off and desperate, plain-looking history teacher who took the job as a tour assistant to a gorgeous and famous country singer. Surrounded by amazing side characters, Beau and Sophie's character developments are interesting and outrageously funny. Mackenzie Crowne's ability to twist scenarios and pour a huge serving of emotion into them has been further highlighted by the simplicity of its plot. I adore this story for it made me cry multiple times at the

culmination of its climax, and the dialogue used has been both straightforward and heart wrenching. I highly recommend this novelette to those who love an entertaining and romantic fast read comedy.

I have been given an e-copy by The Jeep Diva for the purpose of an honest review. I was not compensated for this review—all conclusions are my own responsibility.

### **Marcy says**

I really enjoyed this story about a laid off history teacher who becomes an assistant to a country music star while on his latest tour. Sophie's life was going downhill fast when she gets this new job. I loved that even though she had vulnerabilities, she spoke her mind to Beau and didn't let his bad mood intimidate her. These interactions were some of my favorite parts to the book and the ending was so sweet. This was my first read by this author, but I'll be looking for more books she's written.

---

### **SandyL says**

A fun and entertaining story! Sophie Taylor is laid off from her teaching position, with a balloon payment on her dad's house due. She takes a job as assistant to Beaumont Walker, a country music superstar, travelling on tour with him and his band. Sophie is a 26-year-old virgin with an organized and funny personality - Beau nicknames her Serge or Sergeant. She wears ugly, boxy suits, her hair is pulled back in a braid and she doesn't wear make-up. Beau dates tall, slim, models so he is very confused on why he is somehow attracted to Sophie.

I really enjoyed this book and had a hard time putting it down.

---

### **Amy says**

I have to say upfront that cowboys, country music, and honky tonks are not my thing, and for that reason I was a little hesitant to read this. I gave it a shot because I have loved everything else by Mackenzie Crowne. It was a very sweet, easy romance. I think what really stood out for me was that sex scene was not your typical "be very careful of the virgin" sex scene. I liked that Beau didn't treat Sophie like she was so fragile and breakable just because she was a virgin, and that he let her take control. Also, I loved the ending...talk about melting your heart!

---

### **Jamie Rhodes says**

Sweet, quick read. I got this as a free book, and it was a nice gift. Beau is a hot country singer. Sophie is an ordinary if not plain history teacher. Sophie is out of a job and is offered a job on Beau's tour by Beau's sister. Sparks fly and Beau and Sophie have several stand offs. Sophie can give as good as Beau. Sophie is

on a mission to find love or at least someone to have a good time with. Beau gets word of this and threatens all of his crew to keep their hands off of Sophie. Needless to say, sparks fly again. I wanted to hurt Beau when he said some nasty things about Sophie, but he did redeem himself. I have to admit that this story made me shed a tear because I felt for Sophie and how alone she was. I am glad that I found this free book.

---

### **Brittany Shivers says**

After losing her job Sophie is given the job as an Assistant to successful Country Singer, Beau, who is fully aware of his attractiveness. A man used to getting everything his own way! Sophie has a way of dealing with the 'Mr Cranky Pants' Beau becomes just before a performance.

In the beginning Beau just sees an annoying commanding 'Serge'. No where near the kind of women he is interested in.

Sophie was dealing with her deadbeat father loan repayments and took the job to clear his debts. Turning down the alternative solution given to her by the bank manager.

The longer Sophie spends with Beau she realizes that she is falling for him even though she doesn't want to. Beau, although he doesn't know it is also falling for Sophie, he finds himself thrown towards her and tries to fight it.

One night things heat up with Sophie. Beau did his best to make Sophie 'Off Limits' where the crew and band were concerned and she was infuriated when she found out. Whe she confronts him Beau stops fighting their attractions.

Beau gets overwhelmed and says something that Sophie overhears sending her running home to start over.

With the help of his Country Singer mom, Savanah, Beau puts his heart on the line in A Song For Sophie.

If it wasn't for the fact that I needed sleep I would have read this in one day. I just finished reading it and already want to read again.

---

### **Janey says**

Enjoyable read, I do like a Cinderella themed book, gets me every time, throw in broody & surly in the form of a cowboy country singer, I'm there!!, it's not a long book, read it in a day, definite read.

---

### **Snarky Mom says**

"A SONG FOR SOPHIE" was such a heart-warming, fun read! It is \$3.99 for over 110 pages of a sweet country romance of two completely opposite people. Country singer Beau Walker's sister overhears Sophie Taylor after she's fired from her job... and her boyfriend... and offers her a job as her assistant - which makes her the assistant to the assistant of Beau. Sophie enjoys irritating Beau (it is so easy, after all) and let's it slip to him that she's hoping to find someone while they are out on the road to give her a rollicking good time.

For some reason, this REALLY bothers Beau (hmmmm... wonder why??) and he warns all the crew to stay away from her in a romantic fashion.

This was really such a fun read, and it gives you that warm tingly feeling & makes you want to rush off to hug your man. There's some yummilicious lovin', a heart-felt song and a reunion between mother and son. Really - go get it, and then check out the other fun offerings from Mackenzie Crowne: contemporary romances The Billionaire's Con and That Dating Thing; and paranormal romance (shapeshifter & fae) Gift of the Realm.

---

### **Julie Kirby says**

What a sweet story, not a romantic story as both leads were not interested in falling in love.

Beau, hot ripped sensational singer and resident bad boy!

Sophie, 'Old Maid' curvy beautiful unaware of her body and a boring history teacher to boot!

Sophie takes a job as an Assistant to a successful COuntry Singer, who is a bot of a self conceited jerk. A spoilt man who gets everything his own way! Fortunately Sophie sees through this exterior, although not straight away, she does have a way of dealing with his arrogance.

Beau sees Sophie wearing 'Ugly' clothes but he can see that she is a great girl underneath. In the beginning he just sees an annoying commanding 'drill sergeant'.

I loved the too-ing and froing between them.

Sophie was dealing with her deadbeat father loan repayments and took the job to clear his debts.

The longer she spends with Beau, she realises that she is falling for him, even though she doesn't want to.

Beau, although he doesn't know it is also falling for Sophie, he finds himself thrown towards her and tries to fight it.

Things take an interesting turn with Sophie taking the lead; this shocks and excites Beau. He did his best to make Sophie 'Off Limits' where the crew and band were concerned, she was infuriated when she found out!

Sophie then overhears Beau talking Uh Oh! rightly so she quite!

AWE what happens next, so so sweet and cute, I wasn't expecting that!

Great ending.

---

### **Katherine Grey says**

I enjoyed going on Sophie's journey with her. Not just her physical journey from one city to another as the tour moved across the US, but her emotional journey as she realized she was more than just an afterthought. Throughout the book, she gained confidence, bravery, and more patience when dealing with Beau during his mania periods than I ever would have had. I liked how she outmaneuvered him by using his own words and/or foibles against him.

At first, I thought Beau was your stereotypical music star. I'm happy to say I was wrong about him. He genuinely cares about the road crew and is appreciative of everyone involved in making the things he needs done happen including Sophie, no matter how much she makes him grit his teeth in frustration at times. The song he wrote and sings at the end just made me like him even more.

I do have to point out one thing that bothered me. Beau often refers to Sophie as a little sergeant because he thinks she's so bossy. It was cute and gave them a sense of camaraderie. What bothered me is when he would call her "Serge." The first time, I thought it was a typo, but it's like that throughout the story. The informal address of Sergeant is "Sarge." Coming from a family where for generations nearly all of the male members have served in the military, it just was very jarring for me and pulled me out of the story each time. Also, I work with two men from the Ukraine who are named Sergey and Sergei, same name, different spelling. Guess what we call them -- Serge (pronounced surge). Given both of these reasons, the use of "Serge" in the book may have stood out to me more than it would someone else.

### **Vonnie Davis says**

I hated to turn off the Kindle which is why I'm a little bleary-eyed this morning. I stayed up late last night, reading this most excellent addition to the Honky Tonk Hearts series. Each book written by a different author; each story vastly unique. Ms. Crowne's story for this series is an accomplished blend of heart, humor and hero hotness. I devoured every emotion she wrapped with just the right words and placed on the page as a cherished present for her readers. I've read other books by this author, each one sweetly tender, yet edgy with spice--a combination she does so well.

This is in many ways a coming of age story, for both the heroine and the hero. Sophie embraces her femininity and matures sexually. Beau forgives his mother and admits he's been acting like a jerk at times--so like a man, don't you think? As I journeyed with them on their road trip to self-discovery, I chuckled, I cried, I cursed at Beau. In short, the author yanked on all my emotions and when a writer can do that, I am well and truly a life-long fan. Well done, Ms. Crowne. This has gone into my Kindle's keeper file.

---

### **InD'tale Magazine says**

4.5/5.0

Kudos Ms. Crowne, this saucy little country number is a toe tapping good time that is sure to put smiles on faces!

Read full review in the 2014 February issue of InD'tale Magazine.

**Dakota Madison says**

Loved it! A very sweet romance with great characters. I just wish it wasn't so short. This could have easily been a full-length romance or even a series.
