Presumed dead for the past 25 years, Lexi's mother, Sylvana, has suddenly walked back into her life, and is about to reveal just how many skeletons are hidden in the Balefire closet. Can Lexi learn to trust her mother, or is Sylvana just after her daughter's power?

### **The Want of A Mother's Love**

Half Witch Half God and a whole lot of hot mess. Lexi is trying to come to terms with the knowledge that her mom is still alive, her dad is Cupid, she's found her soul mate, but can't see her own future. I felt it was darker than the first one and I ached for her need to trust and love her mom.

### **Undecided**

I found this book intriguing. At the start I felt it very light and fun. That changed quickly as Lexie celebrates her 25th birthday. Still a worthy read it tends to drag in spots. Hopefully book 2 picks up the pace.

### **Need more**

This series is so intriguing. More of Lexi's past comes to light while reaping with her new-found mom. Can she trust the woman she thought dead? Also Jett, her revengeful half brother is trying to reverse Lexi's matchmaking while she struggles with her own love life. Can't wait to see what happens to this blood witch and daughter of Cupid.

### **Oh, the mystery!**

This is an engaging series, this book ended with a cliff hanger, the series is to be continued. Darn I don't see how I can wait for it to come out.

### **Not quite as good as one**

This book is still well written but I'm not really keen on heroines who behave like two year olds, and in this one Lexi is decidedly in "stick my head in the sand and whine" mode. She also seems to be attempting a prize for most boneheaded moves in one book. I mean I get it. She's enthralled by having a new family

member, but she seems to have left brains and ethics in last year's handbag. Still, it carries the story along so I didn't take stars for it. For me, the plot was a three while execution was a five. That sort of comes out to four.

Is her Mother really wanting a relationship?

Finding out she's a daughter of Cupid is a shock but so is realising that her mother is alive and well. Will she be able to forge a relationship with her? And what about her new boyfriend, will he be under threat due to their relationship. Great action, wonderful characters and a very down to earth witch. Terrific

Lexi Balefire, Fate Weaver, witch, and matchmaker finally has a boyfriend who is her soul mate, Kin, (Mackintosh Clark). Lexi and Kin are happy becoming a couple when yet more witchy trials are thrust upon her. At a city festival, Lexi is overwhelmed with couples who are matches and in close proximity before she even gets there. She literally flits through the town making matches left and right while ignoring Kin. She is intercepted by a supernatural being (Delta) that wants to talk to her, but her recently returned mother interferes time after time to keep the being away from Lexi.

What does Delta want? Turns out she wants Lexi to embrace her father's gifts and find his missing bow and arrow. Don't worry, he isn't a hunter. Lexi's dad is the God of Love, Cupid.

Much confusion between what Delta wants and what her mother (Slyvana) wants. Lexi chooses to spend time with her mom, hoping to catch up on many of those mother-daughter times she has missed in the last 24 years. However hopes and wishes don't always come true even for a witch who has 4 farie godmothers watching over her-no hovering in her life.

This fast paced and exciting story has twists and surprises throughout the book. As the second book in the series (and yes! You HAVE to read them in order. If you haven't read A MATCH MADE IN SPELL, stop and read it right away. You won't regret it!) less time is spent in the business of match making, and more time training Lexie in witchcraft. However it is a good balance between the two as it allows Lexi to grow and become a better witch and person. I couldn't read this fast enough-it was so good. The authors make the various characters come to life, descriptive accounts of places only enrich the already wonderful story. You won't want to miss this book or the series. Truly one of the best witchy books available.

**Rhonda Jones says****Interesting Series**

I am hooked. I love the suspense and characters. The characters, while paranormal in nature, witches, are very real to me. They have personality flaws, just like we all do. Some are even selfish or evil, which makes for a very interesting read.

I just loved this book. It was a fun book. Could not put it down.  
Loved Lexi, Kin, Salem and the godmothers.

Initial Thoughts: I continue to enjoy this quirky series. Lexi can be completely flaky and dense, but she is endearing and cares deeply for her friends, her family, and her beau Kin. Though spunky and crafty, she is easily fooled by the reappearance of her mother. Like any girl raised without her mother, she dreamed they would be reunited - however I'm sure she never dreamed it would be like this. I enjoyed this witty and light romp as Lexi tries to find the famed Cupid's Bow and whether her mom is back to help or use Lexi. Ms. Cooney continues to capture Lexi's personality and quirks perfectly while also maintaining a nicely varied assortment of other character voices. Lexi is a bit of a flake and in parts of the story I didn't think much of her. But, even though Lexi flip flopped through the story, she finally gets it together and does the right thing. When Lexi's mother, that she thought was dead, shows up to help her, she isn't sure how she feels about the woman. Can she trust her? What does she want? But there is the little girl who wants her mom to love her. Will her mom love her back?
