Cooking Up Trouble Elizabeth Coldwell

The good news is that Morgan Jones has landed her dream job, co-presenting the Saturday morning TV cookery show, Cook's Treat. The bad news is she'll be working alongside the hottest celebrity chef in London, Scott Harley.

Voluptuous Morgan has never forgiven Scott for trashing her cooking style and physical appearance in a magazine article, but when she meets him in the flesh for the first time her reaction is very different. The attraction between the two of them is mutual and undeniable, but she's determined not to fall for his obvious charms. Their chemistry on the show disguises the tension behind the scenes – a tension that grows more sexual by the day.

Can she stand the growing heat – or should Morgan get out of the kitchen?

Never Stop Reading or Dreaming says

2 1/2 stars

Why wasn't his public humiliation never addressed here? It's not like he forgot about it. He even mentioned it. But other than that it was decent enough. Except that big unanswered question that ultimately makes me see the h as weak.

Ashley says

Loved the chemistry between the characters.

Kathy (Kindle-aholic) says

I ended up getting this as a freebie way back when. I think in the summer? Anyways, I read it in about 30 minutes.

There was chemistry between the 2 leads. It's steamier than my usual reads, although most of the action is very elaborate fantasies that the characters have. In the middle of making their show.

Not kidding. Full-page (or more), orgasm-inducing fantasies in the middle of making a souffle (or some other dish). I got a little bored.

I just wanted everything to get going.

Diana's says

Downloaded this one free from Amazon cute short read!!!

I'm off to the next Amazon Free read I've downloaded :)

Rhonda says

Talk about turning up the heat. What a scrumptious treat this book turned out to be. Morgan and Scott have a chemistry that definitely turns up the heat. I think that maybe Morgan should've confronted Scott about his past comments about her (from before they met), especially since they had bothered her so much. It was like she just forgot about them. Of course, I might have too with him creating new recipes on me.

[I just couldn't buy the total 180 the hero pulls. He d

SW says

First of all the cover, which doesn't appear on Goodreads for some reason, but the girl on the cover does NOT depict Morgan in the book at all. She's supposed to be a size 10+ girl with curves and that girl on the cover is like size 4. So that's my little rant of the evening but otherwise I thought the book was fairly well written for such a sort book.

It's 59 pages so really quick read but I instantly liked the main character Morgan, headstrong and chubby baker and local TV star vs. world renown Michelin rated chef and TV star of the most popular cooking show in Britain. Before even meeting him Morgan already doesn't like him since he said some nasty stuff about her in an interview a while back, and then they are suddenly thrown together in a cable cooking talk show. And you know how it goes from there sparks fly, they try to resist each other for a while and their fantasy's about each other are the steamiest parts in the book, so you know when they do get together they'll be dynamite.

I thought for a smexy book it was written well, you get to know Morgan a bit more than Scott but its' Okay his description of sexiness makes up for his lack of character description and development. Essentially he's the mean cook on the TV shows and totally arrogant and womanizer. But when they meet there's instant attraction.

It's a good read fast, and steamy. A good smexy book for those that don't want to commit to a roller coaster novel of emotions and sex like some longer books.

Sultan * Baby Mama Smut-a-teer* says

Cute free short read. It had some heat and nice sex and a good storyline. Makes you look at honey in a different way too ;)

Irene says

Predictable, but entertaining enough.
