**Disney's Princess Storybook Collection: Love and Friendship Stories** Sarah E. Heller , Todd Taliaferro (Designed by)

Following up the best-selling Disney's Storybook Collection, this new collection celebrates princesses and the joy and fun of friendship and romance. Featuring Cinderella and her friendship with the mice, the three fairies from Sleeping Beauty, and Snow White and her friends the dwarfs, these stories and many more, reveal the secrets of lifelong friendship and bear witness to the power of true love.

**Theresa says**

retelling of the movie with movie stills

---

**Amy Ringquist says**

This collection is a great way to introduce student writers to the idea of a "seed" story. Most elementary students are familiar with the characters and their fairy tales, while these stories focus on smaller moments. A nice model text that allows a teacher to focus on building understanding for small moments while easily activating prior knowledge of the original fairy tales. This also gives student ideas for writing their own stories as they think of daily snapshots within other favorite characters' lives.

Reading Equivalent = 1.8

**Heidi-Marie says**

This is a nice addition to my children's library and hopefully will be much enjoyed by my daughters.

---

**Lindsay says**

I got this book when I was little and just came across it today. Of course my favorite stories are Mulan and Pocahontas.

---

**Nikki says**

The stories are cute retellings of the movies. The pictures are wonderful. The thing I did not like about it was that they were not all princess stories. It's a princess collection so it would be assumed they would all be princess stories but they are not. Still the stories are cute and children who love Disney will love this collection of stories.

---

**Esuominim says**

It's a pretty good collection of SHORTENED stories for young princesses, but nothing fantastic or worth seeking-out.

---

## **Jenni says**

Read this in swedish. The title is: Den stora sagoskatten.

---

## **Sarah Adamson says**

This is a big book containing shortened versions of many Disney princess stories. Some of them are not technically princess stories and some of the abbreviations unfortunately focus on the more negative side of the stories. Eg the story shortened from the Little Mermaid puts a lot of emphasis on Ariel doing it all for the love of Eric instead of also exploring her interest in all things human and the explorations of the human world and the ability to explore in itself.

It is nice looking with pretty illustrations. However the focus is not always what I want my daughter to remember from the overall story.

---

## **Summer says**

Read this to my sister and she really loves it.

---

## **Tanya says**

Though I liked the stories in this book, I felt like when my daughters were young there were so many pages in it that they got distracted.

---

## **Amanda says**

While I love the Disney film versions of these fairytales the written versions are not great.

---

## **Triston says**

I didn't read the whole thing, but each story is basically a shorter version of the real story, but they still have the same endings and some details were the same also.

---

## **Isha Barrie says**

This is one of my most treasured and favorite childhood books. It has all the great Disney princess stories

and a lot of Pixar stories as well. I love this book I have many fond memories of my mother reading these book to me and it is something I will definitely be doing when I have kids of my own. GREAT BOOK!!!!!!!
