## **Extra! Extra! Dead All About It** Amanda M. Lee

The primary election is almost here and Avery Shaw is in her glory. Her boss has unleashed her on the leading candidates - including two of whom she downright loathes - and Macomb County's leading reporter (and pot-stirrer extraordinaire) is about to turn the election on its ear.

She just needs to find a story first.

When her nemesis Tad Lancaster loses a volunteer, Avery sniffs out a bigger story ... or at least she thinks she does. She has a pile of documents, too many insidious ideas to wrangle, and a long-suffering boyfriend who can do nothing but shake his head.

Avery is determined to find out the truth, even if it doesn't lead to Lancaster's downfall. She only has a limited time to do it, too, and the clock is ticking down to election day.

In short order, Avery has to uncover a pile of financial corruption, irritate her co-workers to the point where they don't want to steal her story, hook her ex-boyfriend up with a new girlfriend, survive family dinner, convince her boyfriend she's not chasing ghosts but rather something that's really there, and save Macomb County's election process for the people.

Oh, she also needs to figure out a way to avoid a baby shower, too.

It's all in a day's work for one hard-working and fast-talking reporter. She just needs to survive the final showdown to prove to everyone exactly how superior she really is.

## **Debbie Poole says**

### **Avery shaw**

Another great read by Amanda Lee, she definitely has imagination, I have tried to read everything she writes, I have my family favors, but I am never disappointed in anything she writes, so pick up her books, I know once you do there will be plenty of laughter in your life. Keep them coming Amanda

---

## **Patrea Beard says**

### **Enjoyable**

I was happy to see more of the Lauren character. Hopefully we will see more of Carly, especially with the impending mother visit. She can help Avery cope. Just waiting now for the next book.

---

## **JadeShea says**

Avery is having an awesome time living with her boyfriend, and covering the new election going on. She is ready to enjoy all the dirt she will dig up on Tad, and the other candidates. But when someone dies, and she gets the story, she knows there is no stopping once she gets the sent of a good story. But, she also has to try to hook up her ex, and avoid a baby shower if possible.

This book was another great one in this series. I loved Avery and Eliot together. They are great. I still wish Fawn was gone, and I was a little annoyed with Avery obsessed over Jake's love life. But other than that, I thought this one was really good. It had a great story line, and was awesome.

I'm also looking forward to the next one, this one left a little hint about what the next book will be about and I'm nervous and excited all at once.

---

## **Heather Render says**

**I love Avery, she says what she wants like the rest of wish we could.**

Avery Shaw is hands down one of my most favorite characters of all time! Her snarky attitude and be overwhelming and sometimes I want to wring her neck, but she is just so entertaining. I do wish the men in her life didn't give in quite so easily all the time, but in no way is that a deal breaker. I hope to read many more Avery Adventures.

---

## **Emily Vaughan says**

### **Love love love this author!**

Amanda M Lee can't seem to write a bad story, no matter which series or name she's writing under and this is no exception. Avery Shaw's life continues to get more complicated and despite her being a character you ought to hate, you just can't help but love her and root for her to win. If all newspapers had a reporter like her on staff I think we'd all read the news with much more enthusiasm!

---

## **Jessica says**

### **So good!**

I absolutely adore AML's books, but I have a special place in my heart for her Avery Shaw series. Avery's snark, crazy antics, and her amazing relationship with Elliot, her friends, and family make every book entertaining and a joy to read. I'm already ready for the next book in the series!

---

## **Kelly says**

### **Avery is always Avery**

I love Avery. I love her relationship with Elliot. I really want to see her one time skip family meal and see how her mother reacts. I don't believe her when she says what will happen. Also, she shouldn't have caved so easily to Derrick about the baby shower. Technically he was just doing his job.. she should of held out longer bc I super hate Devon too.

---

## **Sherry says**

### **The Magic that is Avery Shaw!**

What is that magic, you ask? According to the source herself, "The magic of Avery Shaw is that she can make grown men cry with merely a glance." And cry they do! In Extra! Extra! Avery is back harassing arch nemesis Tad Ludington, coworker Duncan, cousin Derrick & his baby mama Devon, boss Fish, & ex-boyfriend County Sheriff Jake Farrell. Even though she occasionally exasperates boyfriend Eliot, all she has to do is promise to play video games naked & she's forgiven! I just love Avery's snark & sarcasm. It makes me laugh out loud as I'm reading. I thoroughly enjoy her interchanges with her coworker "pervy" Marvin & Eliot's clerk Fawn. But most of all I admire Avery for being tenacious & never letting up until she finds the answers & truth behind her story. I don't want to give away any spoilers, but there are quite a few future events I can't wait to see how they play out in the next book! Phenomenal as usual!!

---

## **Darrin-Anne Henckel says**

### **Avery Shaw does it again**

The character of Avery Shaw is the confident tough woman I would like to be more like. She is tough but fair and does not tolerate fools. She is driven and successful in a good old boys career field. The best part of any series is watching a favorite character evolve. No one wants to read the basic same story, book after book. Avery is evolving which just makes her character more interesting. Best of all she says stuff that we all would have loved to say but don't dare.

Every time a new book comes out I make sure to read over the weekend. Instead of binge watching I binge read. Thank you Amanda Lee for a wonderful series. I look forward to many more of Avery's adventures. By the way, I love the snark.

---

## **Kerry says**

I love this author, but I'll admit that Avery hasn't been my favorite heroine. She has grown on me as the series has progressed, and there have been some installments where I have really seen some development in her as a character. This installment wasn't necessarily bad, but I didn't really see that development in either Avery or her relationship with Eliot. The mystery was interesting and I liked the election angle. I did get a little bored of Avery's obsession with setting Jake up with Lauren, but I'll be interested to see how it plays out in future books.

---

## **Jolene Johnson says**

### **Avery Shaw Keeps Getting Better**

Amanda M. Lee has done it again! I'm a faithful reader of all of her books, and Avery Shaw just may be my favorite character. With her bluntness and carefree attitude, she makes me laugh out loud.

The plot is a surprisingly complicated county political race, and while politics isn't really my thing, it kept me riveted throughout the entire book. The twists and turns had my brain working trying to figure out who was behind the murder until the very end.

I can't wait for the next book- there's a teaser at the end that I won't spoil, but suffice to say- it will be epic!

---

## **Elisa Hordon says**

Trouble always finds trouble..... One day Eliot really will have an aneurysm and Jake will date the girl of Avery's dreams, Tad will fall flat on his face yet again and everyone will bow to Avey's absolute genius..... Then we will all wake up..... lol

I seriously love this series Avery is AMAZING and not just in her own mind....

---

## **XxSnoZBeRRieSxX says**

### **Another great addition to the series**

Amanda M. Lee really shines in this series. It's some of her best work in my opinion.

I really didn't want to stop reading at any point it was a joy to read as all books are from Amanda M. Lee

---

## **Diane Schultz says**

### **Total book**

I'm pleased to see that Ms. Lee wrote the whole book and didn't sacrifice quality and the ending for some arbitrary deadline like happens to many writers who find success and end up with deadlines from their publishers. The constant argument that all these same writers feel they have to put in every book - the male love interest going into protective mode and we have to listen di endless arguments about the MC's right to live her life like she wants while compromising for peace in the family- gets old though. I really don't care about his issues. He's arm candy and occasional smut and romance - albeit unrealistic at times - thrown in for interest and because there's usually always a man in a womans life, just as there's usually family, etc. But let's pretend they're all smart enough and accepting men, too, if we're creating a fantasy lover anyway, of letting the woman do what she wants. Letting gert decide she wants more weaponry if she does. That is how this MC met this fantasy boyfriend. Complete the fantasy and leave out the tedious arguments. We can imagine them all too much as it is.

---

## **Lyndsey says**

Avery Shaw is one of my favorite series from Lee. But this book was kind of super boring. I was hoping for some major temper tantrums from the king tool himself, Tad. And as much as I love strong female characters, I also love a good dramatic crisis. Avery tends to get into some seriously dangerous trouble but this time it was just a tense chat. And as much as I like Eliot, I'm always going to shop Avery and Jake. Eliot is just to accommodating so it's gotten pretty boring. No matter what though, I'll always be a huge fan. Not every book can be a slam dunk.
