Loved their banters (verbal & text) Too bad the ending felt a little rushed, nice epilogue though :)

Honey Warren says

3.5 stars. I am always so torn when rating stories like these!!! I liked the plot and the characters. A lot. I just always feel like things are rushed when reading these short novellas. I read the three books separately. It just seems like this could have been three full length novels!!! I wanted more more more!!! I also feel like when reading these billionaire types you are in a category that you will always feel compelled to compare to the others. Mr. Grey, Mr. Beautiful. I hate comparing and it doesn't seem fair BUT I just can't help it!!! Soooooo all that being said, I liked this book. I liked the premise I just really needed more. I am onto book four which is full length...YES! I am hoping after setting up their story in the first novellas that this will make book four even better!!!!

Melina says

Fun thrilling read makes you want to know more unable to put it down. Fills all of your senses and puts you through the ups and downs with Olivia.

Dannielle Helsby says

Fab read! Looking forward to more from Kate Dawes!

Melissa Steiman says

I found these books to be like a watered down version of Fifty Shades. The trilogy was a quick read and enjoyable. I would recommend this as a beach read. There's nothing thought provoking or original though.

JenRider says

I chose to write a review in this so it'll represent all three of them..

I find that this was a story that if the author had invested a little more time in this book it will have been a

huge hit..Now, it's like you took a book and kept only half the scenes and got rid of the rest..

For everyone who want a quick love story, this is your book.

Krystal says

So I liked this book. I really did. I swear I'm still missing something though....

I really thought Max was going to break out some kinky stuff, but then he didn't... So I don't know what the hell I missed, I just feel like there is something about him that **CLEARLY I MISSED**. There's just something I can't put my finger on. Am I the only one that felt this way? Like there was just *something* about him that we were missing? Beuller... Beuller...

I was also excited when I saw there was a girl in this book named Krystal (like me) and then she turned out to be a coked out porn star...

Also, I think their relationship was pretty rushed. It went from like seeing him in a meeting for the first time to **BAM** orgasms in the office!

Chris:

I did think Max and Olivia were cute together. I grew to really love Max even though I still feel like I was missing something. They had lots of hot sex. Can't complain there.

THAT EPILOGUE:

How about REWIND and tell me all about what the fuck happened because that shit was too much for me to read in like 2 pages. GO BACK AND EXPLAIN. I NEED DETAILS DAMNIT!

Either way, good book. Read it :)

I'm glad I waited for all the series to be completed before I read this otherwise I would probably have been

more disappointed. Or perhaps I should have gone ahead and read the first book right away, that would have saved me from spending time reading the rest. Just the first few pages of the book already threw me in a feeling of disbelief, having the successful sinfully handsome movie writer and producer and the naive country girl Olivia Rowland having sex on a couch in his office after briefly meeting and hardly even spoken to each other, it's unreal! there was no real connection between this two, I couldn't connect with them either.

The story is so predictable, not so bad but just so like many books nowadays that are being split into many parts/series when it could have been finished in one book with less than 150 kindle pages, charge whatever the author want to charge and be done with it. The trouble is, WE, us readers, allow and support this very annoying trend by letting ourselves get sucked into it. They're probably laughing all the way to the bank while we are all annoyed and frustrated for the way cliffhangers are cleverly done leaving us hanging can't wait to get the next series only to find out it wasn't really a cliffhanger. It was just a way to tease us and of course to keep us anticipating and all agog in buying the next book.

Whatever happened to the good old days when books were done in one book with over 300 real pages and written by well seasoned authors such as Mary Stewart, Judith McNaught, Lisa Kleypas to name just a few, who have all written real epic books? I really don't mind getting books in series, (as a matter of fact, I look forward to some; such as the Locked series by Ms. Cross, Kathleen Turner series by Tiffany Snow and others) as long as they stay true to what they promise and deliver...my sentiments.

Characters: C-

We learn next to nothing about Max. To me, Max and Olivia had no chemistry. Other than Max being hot and rich there was nothing special about him. And to me Olivia seemed more invested than him. Especially with him saying things like he had a good time and having nothing to say when he says it's this best sex of her life and saying she had an awesome time.

Plot: C-

To me, there was not plot. The thing with the ex was stupid and Ott. The thing with her great boss all of a sudden took a stupid and Ott turn. The Most interesting part was Krystal. To me this story had no plot, and the devices that were used weren't well executed.

Heat: D

There was too much uninspiring, and mediocre sex. I think that there were too many scenes. I like a good scene as much as the next girl, but these weren't even hot.

Overall a boring nook that I ended up skimming with too many mediocre sex scenes.

Ashley says

LOVED this series! I hope there will be more!!!

Stephanie says

There was something missing here. I kept hoping this would get better but it just kind of stayed ehhh. With some more development of the characters this might have been a really good book but it felt way too rushed.

Karen Meyer says

Short but satisfying!
Looking forward to more from this author!

Christine says

Loved these books

Sofia Lazaridou says

I will say a couple of things about the books.A)Hello Fifty Shades of Grey without the BDSM stuff!The books reminded me the Fifty Shades trilogy.Girl meets young,hot,famous millionair guy and he is doing everything he can to make her his.B)The synopsis makes the books seem better than they actually are.C)If you don't read the books you won't miss much.

D'dee says

What a fantastic series! Great story about a young woman new to Hollywood, fresh off the bus from the Midwest. When she walked into writer & movie producer, Max Dalton's office, she had no idea what was in store for her..

That's all I'm saying, except to tell you, when you're ready to begin, make sure you're free to read for a while, you're not going to be able to put them down.

I look forward to more from Kate Dawes!!
