Forbidden Fruit: Preacher's Son Jasinda Wilder

I showed up in backwater little Yazoo City Mississippi expecting to find solitude and a fresh start. I just left my wealthy, neglectful husband--with a couple million dollars belonging to him, I might add. When I got to Yazoo, though, I didn't find any solitude, that's for sure. I ended up in the arms of an oh so sexy man named Tre McNabb. The problem? Tre is the preacher's son.

All three, hot Preacher's Son stories in one edition.

This is smut that slowly adds a hint of drama and romance into it. This is very hot and heavy on the sex. Includes an older woman and a younger sheltered virgin. Pretty easy and surprisingly sweet read.

Kayla says

Wow... This is one of those fantasy novels that you know will never, ever be true. And every single page has a new sexual fantasy or adventure unfolding between the two characters. I've read other erotic novels that made me literally flip the pages because I was sick of reading about sex... This one wasn't quite like that. I enjoyed all the sexual scenes and the plot that went with it. Overall, if you need a quick, super steamy, sexual fantasy novel, here ya go.

I just finished reading Yours by this author and really liked it. This of course led to more by Jasinda Wilder. I am really disappointed by the story line/plot. If you want to read some really raunchy sex scenes then this is the book for you. I don't mind hot love scenes in the books I read but there needs to be more of a plot.

Fun quick read

This was a fun quick read to keep me occupied while I waited for my next new release to be delivered. I love Jasinda's writing; this book had a lot more sex and less outside context but she still managed to create a love

for the characters and the desire to see them both happy.

I read this one as The Preacher's Son.

Forbidden Fruit was a great series by Jasinda Wilder. Shea found herself in a small Mississippi town. She left to leave her husband and never expected to find herself in the arms of someone else. That is until she meets Tre. I thought this was well written. Jasinda has a way of making you fall in love with the characters and you want the best to happen to them. This was a definite must read if you like Jasinda Wilder.

Sometimes when you're home sick you make bad decisions. Like to download terrible romance novels from the library and read them all in one sitting. The truth is, I was desperate for a book with a fruit or a vegetable in the title for my reading challenge and it was this or The Grapes of Wrath. In my weakened state, I picked the low hanging fruit (get it?).

This book was....not great. It was a good detour from some of the denser books I've been reading lately, but I can't really recommend it.

Mary says

Quick easy read that was over. Not a lot of character development or story line.
