### **Melissa Richardson says**

Awesome!

### **Janet L. Hage says**

#### **Urban fantasy graphic novel number 4**

Fills in the blanks of how the Mercy Thompson epic starts. Mercy at her best. This is not a stand alone as with all the graphic novels. Read one of the novels first then read the previewing graphic novels. Well-developed characterization. Mature teens due to violence.

.

I am not a comic reader but I love the Mercy Thompson series so I read all 4 of the Homecoming comics. I liked them. It gave more of the beginning of the story.

### **Linda says**

#### **Surprise comic**

When I bought this, I thought it was a short story or some such.. I liked it, but I expected more from it. Seemed choppy in some places
