A Shade Of Midnight Renee George

Secrets from the past never stay in the past...or do they? *A Shade of Midnight* is a thrilling paranormal mystery that will have you turning the pages from beginning to end. Book 4 of Midnight Shifters by *USA Today* bestselling author Renee George is sure to be a favorite addition to your paranormal romance library.

“I’ve always found a 9MM to be an excellent problem solver.” Mina Vail

Empath Mina Vail spent the last two years trying to forget her time as an assassin for Caledon’s ex-king and move on with her life in the human world. Now she runs a security business that doesn’t involve killing anyone (most of the time), she has good friends she can count on, and she keeps her relationships easy and carefree. But when her lover is accused of murdering a co-worker, and her ex is the investigating cop, Mina is forced to face her dark past...and her growing feelings for two very different men.

Gav Doyle, a cop and a werelion, wants to pair bond with Mina, but while she likes a man who can make her roar, she isn’t interested in a lifetime commitment. Eric Bishop, a new partner in a large architect firm and a half incubus, thinks Mina is the cure for his insatiable appetites.

When Mina, Gav, and Eric attempt to track the real killer, they end up in the crosshairs between Queen Benoica and the rebel faction who want her off the throne at any price. With the lives of her two loves on the line, will Mina be forced out of the light of her new life and back into the shade of her past?

Linda Levine says

Mina is an empath with a troubling history. She runs a security business and likes her new life. She enjoys men and sex very much and is sorry when they want more than she can offer. She really liked Gav who is a were-lion and her neighbor. He wanted a mate and that is not something she could agree to be much as it disappointed both of them. To increase the complications in her life, Eric comes into her life. He is part incubus and he also wants her. She tries to resist keeping it from becoming more but her self-control is only so strong. When Eric is blamed for a murder, it is Mina who runs to the rescue. When she learns that they are all in great danger, she has to make some tough choices about the future.

I really enjoyed this story and the characters. Mina is a lot of fun. She is very open and honest about her sexuality. It is her feelings and the past that she has a hard time confronting directly. In the book, there are many surprises in store for Mina about her past and what the future holds. I would love to spend a lot more time with Mina. Gav and Eric are both good men and you can see why Mina would want them. There are some great M/F and M/F/M situations that keep the heat level extra hot.

I received a copy in return for a honest review.

Once Upon A Midnight Anthology

Mina unwittingly finds herself in the middle of a power struggle, which has way more ties to her than she would have guessed. Her two love interests are also in the thick of things, one being accused of murder and the other one investigating said murder.

This was ok, short and sexy. But, it could have used another round of editing. When there were more than 2 characters involved in a scene it was difficult to follow who was speaking and what was going on at times.

I am a lucky, lucky girl. 5 GOLD STARS

Sometimes fate is its own reward. LION, MINA & INCUBUS OH WOW! OHWOWOHWOW OH WOW INDEED!! Whew!! Does Renee ever know how to grab - and keep! - my attention! With two gorgeous men vying for Mina's heart & future, this is one TRITASTIC story with more than enough heat to melt my tablet! What makes it even more scorching is that the characters are just as amazing inside as they are on the outside. With Renee's natural & exceptional gift, this ROARSOME book comes to life with its apt descriptions and well developed characters. Add in the mysteries, humor, connections, friends, lovers, family, shocking moments and truths, as well as the HOT scenes, and you get one RENEELICIOUS book that you CANNOT put down! I even cried at the ending, not because it was happy or sad, but because I found my two most hated words there - THE END!! Okay, I cried a couple of other times too and that WAS

because it was happy or sad! ;) I have to mention this on its own, quite simply because... I LOVE, LOVE, LOVE the humor, sass, innuendos, teasing, etc.! How can you not with lines like this "Hello. You've woken Mina Vail. Be afraid. Be very afraid." It is exactly me & my sense of humor, so I was grinning, giggling & outright laughing often! Of course, with any Renee George book, you know there is more going on than 'just' a hot & funny book! One of my favorite aspects to a series is how a main story arc, or even multiple storylines, can play out over a longer time period, involving numerous characters all while weaving in & around smaller, more personal story lines that are book specific. I also love visiting with and getting caught up with my bookfriends lives since I last saw them. Renee has not only done just that with her *Midnight Shifters* series, but she has done it so beautifully, so PAWFECTLY, so expertly and so SHIFTACULARLY I can't help but squeal like the Renee George fangirl that I am every time there is a new book! ANY book! I also cannot wait to start reading and be transported into another world where OWs exist, and triads are more than just a great possibility! wink I LOVE how Renee keeps this series going, with each book adding to the SHIFTASTIC beginning, building, expanding, exploring this new world and taking it to new heights of enjoyment each and every single time. No matter the length - of the story, people! - no matter the cast of characters or the story plot, Renee creates one FURNOMENAL story each & every time! I love how I immediately become one with the story, lost in its pages, experiencing, living & accompanying the characters on their journey both with and AS them! Renee is so phenomenally talented, that I can't help but come to the conclusion that she is in fact an Other Worlder!! Maybe a HP or a hidden? (OOOPS! I guess not now! Sorry Renee! I didn't mean to "out" you!) She is aces at balancing all of the numerous aspects to create the PERFECT story each and every. single. time!! Of course, this also means that no matter how many times I read one of her books, I am as mesmerized and consumed as I was the very first time I read it! All in all – Renee is one astronomically talented and genuinely gifted author and YOU GOTTA READ THIS!!

Mina has taken a human job...no more an OW (other worlder) enforcer she has her own security business and all is going... well...if you don't count her uncontrollable desire for her ex the detective next door, oh yeah he's a lion shifter. Their relationship won't work because he wants a pair bond...not happening. Sex great, marriage and kids--No. Then her best friend asks her to be a date at a work function with her little "pimply faced" brother. Only Eric is all grown up and a sexy as heck-- part incubus who let's off pheromones no woman (and some men) can ignore, including Mina. Now she has two guys she can't resist and refuses to commit to either. Oh let's not forget the local police are after one of them and HER AUNT WANTS TO SACRIFICE her. She may have existed her OW connection, but it seems they aren't done with her. How will she deal with two irresistible guys? Or Local crime? Or OW threats, the steam, action, steam, unexpected help, reactions from her lovers, steam, life or death choices? There is plenty going on in this book. Returning to the *Midnight* series, *The Shade of Night*, is a page-turner-till-you-finish-it keeper. I was provided an ARC for an honest review.

Received this book for an honest review.

Review of "A Shade of Midnight", this book was great. It kept me reading from the start and I did not put it down. The characters Mina , Eric and Gav have the own parts of the story and they are interwoven pretty darn good.

Mina is a woman scared to truly live and love because issues in her past. She will learn secrets and that what she thought was true about herself she is more.

Ms. George has done a great job in giving life to Mina, Eric and Gav and I hope she will write more about them. Looking forward to reading the other books in this series soon.

Lynn Smith says

Mina Vail runs her own security business and does it well. As an other worlder and an empath it was the perfect job for her. Now her personal life was another story. When her ex Gav, who lived across the hall from her becomes the lead on a case she is involved in. She has trouble avoiding him. Gav was a lion shifter and in love with Mina. While Mina more then liked him she didn't believe in all that mate for life. That wasn't for her. When Mina does a favor for a friend, she finds herself attracted to Eric. She remembers him as a child and boy has he grown up. When Eric is set up for a murder. She has to work with Gav and Eric to solve it and keep Eric out of jail. Two men and she desires them both.

Great story. Mina being an empath she couldn't discern her own feelings. Finding herself attracted to two men and unable to resist either. She is confused and not sure what to do. Gav and Eric both want Mina and will take her anyway then can. Plenty of suspense, sexual attraction and action in the book. I loved the characters. You can't wait to see how it all plays out. I received an arc of this book in exchange for an honest review.

This ends up being a 3 some mating story so if that's not your thing you know it now and can stop reading the review.

Everyone still interested here it goes lol

Mina vail is an empath and works for the artemis protect services and has a problem with commitments her last boyfriend wanted forever and with her past she doesn't do forever. Her exboyfriend Gav Doyle just happens to be a lion shifter cop and he lives next door.

One night her best friend calls up and asked her for a favor. Her brother needed a date. When he picks her up she knows two thing, her friends little brother (Eric) growup hot and he is atleast part incubus but she determined not to sleep with her best friend little bro and goes with him to a business party. At this party he is accused of murder. And guess who is the detective on the murder scene? Her ex, yea things don't go real smoothly until Mina is in danger.

Great mystery, I love the action and characters. The hotness was boiling. I would like to read more story's about them so yes I would recommend it.

Book given for an honest review and I honestly loved it.

A SHADE OF MIDNIGHT-MIDNIGHT SHIFTERS BOOK 4-A MOST ENTHRALLING SUSPENSEFUL ROMANTIC STORY.... .

This story focuses on; MINA VAIL, a sexy, drop dead gorgeous Empath who runs a security business; GAV DOYLE, a heart-stirring, blue-eyed powerful lion-shifter and Detective; ERIC BISHOP, a traffic-stopper, charismatic, green-eyed half human/half incubus, and brother to her best friend.

What you'll find in this story; a full cast of remarkably impressive and engaging characters, spectacular story-line, picturesque and magnificent vivid scene descriptions, phenomenal banter, camaraderie, gripping suspense, emotions spiral, pent-up rage, lots of action, gut-wrenching moments, horrific danger, life threatening incidents, earth-shattering toe-curling sensual romance, and a melt your heart conclusion leaving you wanting more.

Mina is on overload as craziness has entered her once calm life; she went to a black-tie affair with her best friend's brother, which has her now investigating a murder, and he is the prime suspect. Her ex-lover maybe; is the lead detective investigating the crime, and is treating her coldly sometimes. Her desires for Gav and Eric have her in quite a precarious situation since permanent relationships have her running scared, and how could she choose between the two anyway? Each step she takes in her investigation has her coming closer to the horrific danger that lurks in the shadows.

WOW/SPECTACULAR fast paced well written ingenious read by a truly gifted author. I relished this story as it was a most priceless exhilarating read. The thrilling suspense, intriguing twists, and astonishing plot keep you glued to the story from beginning to end. The characters come alive with the fantastic dialogue, and breathtaking scene descriptions. The romance sets the pages ablaze and is filled with undying adoration. Dora says

Mina was an empath who had been an assassin at the service of the Caledonian mad king. But no more in that path. Now she had her own business as a bodyguard. When strange murders by an unknown other worder were happening and one of them involved Eric, a leiol and her best friend brother, she was immersed in a difficult and life menacing case. Eric was doing something to her or she was really attracted, she could not say. Gavriil Doyle, her ex-boyfriend, was the detective in charge and another complication for Mina. He wanted more than what she can give. As she said, between Gav and Eric her lust-o-meter was maxing out. Since the beginning of the story there was intrigue, suspense and a good dose of pheromones. Liked how the author began the story. Caught my attention immediately. Mina's emotions were contradictory. She was an empath but could not define her own emotions and that made her doubt about her feelings. I was asking myself what Mina was going to do because she had been refusing to commit all the time. She wanted to keep her love life casual and things were not going her way. I think part of the development of the story was about the redemption of the Shade because the past was still present in her mind. Liked how the author portraits the male characters. Both different and open minded at the same time. In this story Mina, the female, was the hard nut to crack and that kept me interested in the outcome of the story. In this book we met some of the characters of previous books. I had read them all of them and liked them so much. Hope there are more because these stories are intriguing, steamy hot and with very good characters.

CAPTIVATING, SEXY AND DELIGHTFULLY ENTERTAINING !!!

Title: A Shade of Midnight

Series: Midnight Shifters

Designation: Book Four, Standalone, NO Cliffhanger

Author: Renee George

My Rating: FIVE SUPER SEXY STARS*****

Oh my! Renee George has dazzled her readers yet again with another fabulous release in her tantalizing Midnight Shifters series and BUTTONS OVER BISCUITS - it's a real firecracker! I've been a huge Renee George fan for several years, actually since reading The Lion Kings Series (another spectacular series by the way) and I now eagerly await each new release. And George never disappoints. A Shade of Midnight is the fourth title in her Midnight Shifters world and it totally rocks! The story is original, well crafted, action packed, exciting, riveting, enticing, romantic, seductive and steamy. Whew! That's a mouthful, but yes, it is all that! The narrative is exceptionally well written in the third person with multiple points of view. The dialog is smart, well executed and flows effortlessly. The characters are imaginative, captivating, engaging, intriguing, sexy as sin and utterly irresistible. The story and plot draw you in but it's the characters that grab your attention, capture your heart and hold you prisoner from beginning to end. If you love fantasy, suspense, action, a few unexpected plot twists, paranormal romance and some good old fashioned steamy sex, then this is the book for you.

Former Other Worder assassin and Caledon warden, Semina Vail, has moved to a new city and changed

occupations in an effort to escape the memories of her dark past. Mina is now a private investigator and half owner in her own private security agency in Kansas City. Unfortunately, it seems she didn't move far enough. Apparently the bad guys didn't get the memo because all it took was one lousy, little week to completely destroy the new life she's fought so hard to build and is now thrust right back into a past she never wanted to revisit. The rebel group, Children of Caledon, are running amok in her city and the bodies are quickly piling up. To make matters even worse, she's still having commitment issues and her sexy, cop ex-lover and still across-the-hall neighbor, lion shifter Gavriil Doyle, is making her life even more pleasurable....um...I mean miserable. Mina's already been down that road with former husband Trace Caulder and doesn't intend to ever make that mistake again. But she can't seem to stop thinking about him and his sexy body, even when she's being seduced by her BFF's irresistible baby brother, Eric Bishop. Yikes! No really, he's actually irresistible - he's an Incubus! Huh? And like Gav, Eric also has his sights set on the beautiful Mina Vail! Yep, you read that right and he not only wants Mina, he needs Mina to satisfy his sexual...uh...,shall we say, problems. Who will Mina choose??? Well, maybe she won't have to choose either - maybe, she can have both! There's only one teensy, tiny problem. Okay, maybe two. Someone is trying to frame Eric for murder and someone wants her dead! Oh no! Let the mayhem begin! No spoilers from me but I will say this....Beautiful, independent empath trying to overcome her past and make a fresh start-check! Handsome lion shifter cop whose lion is set on having Mina as his mate-check! Totally irresistible wealthy businessman and also incubus determined to have Mina for himself-check! A cast of wonderful characters-check! Danger, drama, suspense, murder, malevolent enemies with a deadly agenda and legends from ancient lore-check! Heated attraction, fiery passion, sweet, sassy romance and dreamy sex-yeah baby! And even a generous measure of humor-you bet! Oh, and did I mention a steamy menage a trois? Oh yes! (After all, this is a Renee George book and ya'll know she's the queen of threesomes!) Two men determined to have the same woman even if it means having to share - we'll see! That and a whole lot more! We even get to see quite a few of our favorite characters(including Benie, Ian and Trace) from George's earlier releases! I love it! Fabulous entertainment and an awesome read! I never tire of reading books from Renee George. She makes me laugh, keeps me entertained and always leaves me with a big grin on my face! What do I love about this book? Everything! What didn't I like? Not a darn thing! Would I recommend it? You bet and I am but only for adult audiences as it does contain some very hot sex scenes! And just for the record, Mina is a very lucky girl indeed!

Complimentary copy received in exchanged for an honest review.

I read this book in Once Upon a Midnight. Boy this was interesting! Mina Vail sure didn't know what to do with her life...she loved Gav Doyle her ex fiancee and cop, then she does a favor for her best friend by being a date to her younger brother. Now Mina knew him when he was younger so no biggie! Wrong! He's a HOT and part incubus! Now her life is off the charts...she loves them both but knows Gav would never share and neither would Eric! What's a girl to do? Read the book and find out!

Denise Van plew says

I was looking for intrigue with excitement paired with heat in paranormal. When I opened the pages of this one I knew the author hit the nail on the head for my need. She gives me Mina who not only used to live with a bit of danger because of her past she now uses it for a different purpose. She also delivers supporting

characters to balance out with her. When a event though makes her take a hard look at what is really in her heart this will kick it up more than a notch. Love comes in different forms and you can love more than one. She takes a large does of intrigue with all the right elements including murder to have Mina do just that. Gav has his own story with him not being the only one to have her take that look, there is Eric which makes for really interesting because of his tastes. Anyone who reads a bit of paranormal will have to admit she knows how to make for interesting and at times a refreshing. What she brings into this will have you on the edge in more ways than one. They will have to work together also to find out all the answers they need. She does have time also to throw bits of humorous banter in along the way. When you finally have reached the last chapter you in for plenty of answers given but then the most important will is still yet to be answered which is all in the fun of reading.

Kim says

Mina is an awesome strong woman and independent. She doesn't need a relationship even if it comes in 6 foot plus of yumminess right across her apartment hallway. I loved Mina and the strength she portrayed, even with her background that she kept hidden from everyone. Then Gav, her scorching hawt neighbor and sometimes bed fling, he is the one that actually wants the commitment in their relationship. But will he still want her when she's dating someone else? When that person is involved in a murder? When Mina first runs into Eric, she doesn't recognize him but it doesn't take long to get steamy and for there to be a murder.

In between trying to balance the men in her life, Mina has to find a killer. Mina ends up finding out a lot more about herself and her family. She also learns to reevaluate her expectations of those around her as well as her needs and desires. Shade of Midnight has just enough of the magic and twists that I love to see in Renee George's books. There was even a nod to some previous characters of earlier books. All around a delightful and captivating read.
