Seven million years on the New Hell Sunday Times bestseller list... The damned are revolting! The underworld explodes with excitement as Satan himself rebels against forces from on high. Or does he? Dreams are dashed and strongholds topple as the greatest shared universe of all times convulses with mystery and mayhem. Shakespeare and Marlowe begin a new play to please the Devil.... Satan and Samael plot to expose the unrepentant damned... Before Napoleon's eyes, Caesar's villa explodes in chaos... Goethe finds out that hell is all around him... Isadora Duncan forgets that dreams can be hell... Hell's librarian throws a bash and the damned party down... and down... and down... All over the netherworlds, worse comes to worst as Hell's Most Unwanted try assaulting heaven's gates and raise more hell than they bargained for....

From Reader Review Dreamers in Hell for online ebook

Jennifer Loiske says

I started to read this book with only little time to spare...wrong move! I was instantly hooked, turning pages like a hungry rabbit, moving from a story to another. If you like TV-series like Supernatural, this is your book. No, this is your series!

Life in hell is not easy, but hey, what else can you expect? But what happens when Devil himself starts kicking out the creatures and poor souls living in there? Yet, all is not dark. There is hope lurking in the shadows and a promise of something good. Oh, my! This certainly was a book for my taste. Highly recommended!

Klarissa Kocsis says

Will have to brush off my Dante to see if Janet Morris's group of writers ever make reference to his interpretation of who deserves to be in his hell. I am very new reading this series and am confused at times, like who really is the Undertaker, but I am nevertheless intrigued by his relationship to the various lost souls. Or are they lost? Which prompts me to buy Morris's earlier works in her longstanding Heroes in Hell, to better understand the case she makes for her particular hell. Wonderful diverse group of short stories.

William O'Brien says

Dreamers in Hell (Heroes in Hell) ...

Janet Morris

Journeying to the gates of hell is always going to be riddled with fire and hatred.

Dreamers in Hell takes you to a whole new level of fantasy and mythological creations as Hell's librarian throws a party. The reader is drawn into a place of the damned as Satan rebels against forces and dreams.

Splendid fire and hate.

B. Ross Ashley says

A good read. I particularly liked the interaction between Shakespeare and Marlowe, and if I rate it only 4 stars it's because I remember the original series so well ...

Joe Bonadonna says

Welcome to Hell--a place of swords and automatic weapons, of sorcery and science, catapults and computers, and demons. In Hell, all things are possible. In Hell, many of the damned believe they have been wrongly sent there, while others accept their fate and try to make the best of a bad situation. There is no death in Hell: in the Mortuary, the Undertaker giveth and taketh away, revives and reassigns the damned--again and again--so they can continue their dance with the Devil. There is too much overcrowding in Hell for Satan's liking. So he sets into motion plans to prove that Humankind is unworthy of redemption, and deserves only oblivion. Yes, welcome to Hell--where rogues and heroes and fools quest for a way out, and Satan plots to storm the Gates of Heaven. Ah, but wait . . . Heaven has decided that Hell has become too comfortable. Infernity is in trouble. El Diablo is lying down on the job. Heaven has sent Erra, Babylonian god of plague and mayhem, and his 7 Sibitti Enforcers to dish out further punish, and they do so with great glee. They are Hell's judge, jury and executioners. Satan wants to rid Hell of Humankind, so the Netherworlds won't be plagued by Erra and his 7 Auditors from Above running amok throughout his rightful domain.

Dreamers in Hell is the 14th volume in this best-selling series, which has seen stories nominated and winning Hugo and Nebula awards. It is also the most ambitious book to date in this highly successful and most brilliant shared-universe of all.

Each story is top notch. Perhaps I should say each chapter, for this is truly a shared-universe that reads like a novel, rather than an anthology. The stories are all very good, many are great, some are superb. The beauty of the "Heroes in Hell" series is that all genres work in Hell, and no genre has been left undone. You'll find horror and science fiction here, fantasy and historical drama, satire and action/adventure thrillers--even romance. These metaphysical, "mythical epics" are character-driven, thoughtful, intelligent, and insightful. They examine the nature of Man, and the nature of good and evil. These are fables and morality tales, a look into the soul of humanity. Yet for all its torments and punishment and betrayals and violence, there is friendship and loyalty in Hell, courage and honor, and even love. And above all, Hope persists. For even in Hell, the damned can and do hope for redemption and salvation.

In Hell, the Devil is not mocked. So have some sympathy, some courtesy, and give the devil his due. Check this one out, folks. You can read my unedited review of Dreamers in Hell on the Black Gate Magazine website.

Denis Golikov says

Lawyers in Hell, edited by Janet Morris, is a satirical look at an afterlife filled with everybody who was anybody in life. In this volume, we not only meet the damned, we meet Hell's landlords. From ancient Akkadian mythology to modern sinners, the best and brightest will make you laugh and make you weep as heaven sends auditors to hell to find out why the Devil is slacking off, and hell is not as hellish as it should be. Great satirical fun with history, legend and myth for the sophisticated reader.
