More Than Friends

Susan Child

More Than Friends Susan Child

They were best friends... Unfortunately.

When her sleazy ex cheated on her, Alice turned to her best friend Zack for support. Her head tells her never to love again, but in the arms of Zack, her heart has other ideas. And so does Zack. How can he tell her how much he wants her, when one night of passion could destroy the friendship of a lifetime?

Janneke Wolbers says

I never really put a bad review online... But this for me was a little too fast of a read for my taste.
I prefer my stories with a bit more to detail.
With that said it wasn't a bad story

LLEP Book Blog says

This is one hot little erotic story... but it's sweet too! LOVED it! And... I read it in 15 minutes while sitting in the car waiting at the pool this morning. Fanfreakintastic!! If you don't have it, get it!

LISA MURRAY says

Lovely quickie read and the good thing is you don't have to wait ages to find out what happens.

Will be keeping an eye out on new releases from Susan Child.

Amanda Adkins says

I would have loved to have had more to it but it was a great read. It was very sexy and I love how it played out. Can't wait for more like this from Susan!!

Tish says

A fabulous, Steamy short story.

A tale of best friends to lovers.
Come and join Alice and Zack, on their short journey of lust and passion.
It may be short but it definitely was worth the read.
Add to your tbr list ;) xx

Christine says

Short love story

This was a short love story of two best friends that became more then friends. Enjoy this story was cute.

Sharon Sawtell says

Wow a really great quick read.

Susan you did a fantastic job on best friends that turn into lovers. Bit sad that its finished would have loved more.

Can't wait to rad your next book

Why cant the author read my review?

Gray Creations says

Quick little read this one!!

They were best friends... Unfortunately.

Zack sounds like an awesome guy....in touch with who he is, becomes across as a strong character, happy in his skin.....in love with his best friend....ya know the normal stuff.

Alice his best mate. Bright, character is well developed, and sounds perfect for Zack.

Its a good little read this one. Very sweet, and could be an everyday senario. Susan child, one to follow in the romance genre!

Karen Shortridge says

this is a short read and very easy to get into, best friends who are in love with each other but one scared to ruin the friendship, great how it all happens and would love to read more

Tracey Steinbach says

First, I want to say HOT cover! This was a quick, cute read. It was too quick to form any attachment to the characters but I still enjoyed it. I would give it 3.5 stars.

Juanita Kees says

A lovely read with a good, solid message. Lovers are friends first and always. Ms Child shows promise as a new voice in romance. I'm looking forward to what she comes up with next.

Lani Sama says

More Than Friends by Susan Childs is quick read, but I loved it. I loved that this was from Zack's point of view. Not many books are from the man's point of view and I appreciated that this one was. It showed how much Zack wanted Alice and that he was willing to fight for her. I would love it if there was more written about Zack and Alice. I will be looking for more Susan Childs' books.

Helen says

I enjoyed this story when Alice and Zack let their passions out things get really hot on a massage table. A good short story.

Melsey says

Short, hot and sweet!!

I absolutely adore best friends to lovers stories as they have history and it's not insta love (absolutely nothing wrong with insta love BTW).

Huge fan of Susan's work and cannot WAIT to see what's next!!

Fiona Marsden says

This is a short story so not a lot of character development. Zack and Alice are old friends and it seems Alice has some history that makes her mistrust men. Zack has been trying to overcome it for years and this is the moment when he's decided to try all or nothing.

It's quite a hot read with some robust language but the characters are sweet and the friends to lovers romance believable if a little rushed due to the format.

Quite a nice little quicky in more ways than one. This is a new Australian author so I will be interested to see how she develops.
