Textbook on International Law

Martin Dixon

Textbook on International Law Martin Dixon

The sixth edition of Textbook on International Law offers a concise and focused introduction to the essential topics of international law. Dixon guides students through legal principles and areas of controversy, bringing the subject to life with the use of topical examples to illustrate key concepts. The book incorporates helpful features including a glossary, chapter summaries and suggestions for further reading.

The sixth edition includes further discussion of topical issues such as Guantanamo, the International Criminal Court and the use of force. Purchase of the book provides complementary access Oxford's Online Resource Center website providing updates on case law and legislative developments, as well as annotated links to relevant websites.

this book is good..... and have great materiel on international law...

Al-anoud Al-Sarhan says

It's a great book if you're looking for an introduction to the sources and nature of public international law.dixon provides an overview of certain concepts supported by cases and examples to help clarify the grey areas in international law.like the law of treaties,law of the sea and the peaceful settlement of disputes etc.and most importantly : it is not as boring as the other books I've read on the subject of international law.
