Tough slog. Enjoyed prose short stories more than poetry. Translation of Eugene Onegin was awkward. unnumbered pages made slow reading parts seem even longer.

Glad I read it for its insights into Russian psyche.

Jorge Borrani says

I'm not a fan of poetry but the short novels are very good.

classic reverie says

I plan on reading his stories from here and post my review under the titles. Having only read a short story so far and that not having typos and this being very navigational looks quite promising.
