The Mountain Man's Virgin A.J. Wynter

Of all the women in the world, I had to be trapped in my cabin with a virgin.

*A reclusive mountain man
An engaged college undergrad
The snowstorm of the Century*

Lucy

I'm a college virgin. There, I said it. Embarrassing right? How did it happen?

Between maintaining my GPA and my grueling track and field practices, I haven't had time for anything, or anyone else – including my new fiancé, Lawrence.

Waking up in a cabin next to the bearded mountain man was a shock, and let's face it, a little bit scary. What was scarier though, was how good I felt when I was with him.

I have been saving myself for the right moment, not necessarily my wedding night, and I can't help but wonder if the right moment is in front of me, smelling like cedar, musk, and woodstove.

Mick

Talk about irony: a sex addict trapped in a cabin with a virgin.

But for some reason, the protector in me is overriding the raw primal animal lurking inside of me.

There are two reasons why I won't sleep with Lucy: the first, and obvious one, I mean, she's engaged, although that never would've stopped me before; the second, I've made a vow to myself, to stay away from women.

And now I have a third, I am falling for her.

When Mick finds out the shocking truth about Lucy's fiancé, will he be able to get to her in time to save her?

**

The mountain man's virgin is an over the top, trope after trope filled love story that could never ever happen in real life, even if we wish that it could.

From Reader Review The Mountain Man's Virgin for online ebook

Magali says

Very well written and good romance despite the base of the mountain man that could have been redundant and uninteresting, but the characters are very good and it creates an originality in the story.

Lucy is betrothed to Lawrence, a wealthy student, but she is not sure of her feelings for him, especially that after an accident in which she almost died, this one does not come.

She had been rescued by Mick, a hermit in the mountain who is none other than a billionaire who needed to exhilarate in the mountains so like this he isn't confronted with his sexual addiction. He's helping Lucy, and feelings are appearing on both sides. When Lucy finds her fiancé she understands that something more sober is hiding under her engagement, that Lawrence's behavior is suspicious and her emotional attachment to Mick makes his betrothal even less acceptable.

I voluntarily reviewed an Advance Reader Copy of this book.

Reni Smith says

Love found in a snow storm

First I have to say I was surprised by this story. It held the essence of the playboy man however there was a twist to his playboy ways that made it tolerable. Michael 'Mick' Brady became a reclusive mountain man when his illness reared the last source of help he needed.

Lucy McKennit, college girl, engaged to a man, Lawrence, she met at college after a short time dating, thought she had it all until she was in a car accident and was rescued by Mick.

I loved how Mick admitted to his past as he and Lucy were trekking through the snow to the mountain ridge and she thought he was joking.

I shed a few tears when Lucy visited her ailing sister in the hospital.

Chewed on my lip nervously when Lucy discovered who Lawrence really was when he showed his true colors and even smiled when Mick once again saved Lucy.

My only complaint was how every time Mick was faced with being around a woman or women it was written as his perception was she was the most beautiful woman he had ever seen and the same was said for Lucy. Kind of killed the belief that he was in love with Lucy after their really short time together, but other than that the storyline was great.

Now that I've finished this book, I'm going back to read The Bikers Virgin and many more of A.J. Wynter's books.

I borrowed this book through Kindle Unlimited and my opinions in this review are my own and unbiased.

Kaye says

OH MY LAWD-AMERCY!!!

Talk about rocking a read. I fell in love. LOL. Yep! Couldn't help myself. This is one bad boy you don't want to miss. I was hook from the start and reeled in for the duration. If you're looking for action packed, sleeze balls, backstabbing men, lying, deceitful, snotty nosed losers who get what's coming to 'em. Grab your copy now. You have it in spades. Talk about pulling the wool over your eyes. Unfortunately for some, the

characters are well developed and believable. Their personalities are unique with qualities and multi-layered complexities it really adds spice in the mix. The scenes are so graphic and descriptive it paints a fantastic backdrop that really makes the storyline pop. With all the twists and turns, up and downs and running from douche bags. Yeah, that's exciting. The two main characters were drawn to one another. The two have an explosive chemistry that will rock your world. AJ did an exceptional job bringing this read to life flawlessly. Great job AJ, thanks for sharing this awesome read with us.

Joyce Black says

A very entertaining novel. The main female character had a core strength that gradually came into its own. She stood up for herself and her values. The main male character started out as a rather dysfunctional fellow due to an addiction. After meeting the main female character and over time, he was able to gain control of himself so that his addiction subsided. These two had an unusual beginning and courtship. However, the link was there between the two of them and did end up creating a future for themselves. The story had elements of drama, adventure, mystery and a lovely romance.

This reader learned elements of survival in extreme winter conditions.

I voluntarily reviewed an advance review copy of this novel and I am leaving an honest and unbiased review. I have no affiliation to this author.

Anne says

Lucy is a strong independent collage student who is a virgin. She is engaged to marry Lawrence. They plan to wait till they marry to sleep together, but Lucy has started to think that they have no chemistry.

She has gone on a girls weekend away when they are involved in a car accident. A winters storm has come out of nowhere. Lucy isn't hurt and decides to go for help when two of the girls are unconscious.

But going for help on a mountain when the snow just doesn't let up is hard going.

Mick yummy Mick lives on the mountain by choice. He is a sex addict and finds it hard to be around women with imagining them naked. He gets an emergency search and rescue call to find Lucy. With the help of his trusted dog they find Lucy who has hypothermia and very close to death.

Mick does everything to get her warm.

This is a outstanding read full of love but also shows a darker side that you won't see coming.

Will Lucy find the courage to say what she is feeling? Is she a gold digger? Will she keep her virginity till her wedding night

I really enjoyed this book and can't wait to read more from A.J. Wynter

An easy 5 star rating

I received an ARC and now I'm leaving my honest review

Douglas Williamson says

A virgin and a sex addict trapped in a cabin during a major blizzard. Do you think you know where this is going?

This is a romance book, so you probably do get the ending, but the path it takes to get there is decidedly different and quite enjoyable. Our heroine is engaged, but she sort of fell into it. Our hero is hiding in the cabin to fight his addiction to sex. He sees every woman as a sexual object and doesn't believe in relationships. So this is a story about first loves for both characters.

The story is very well written and incredibly engaging. I had a tough time putting it down. I just wanted to read one more chapter see what comes next. There is not a lot sex for a romance book of this length, but what is there is nice and steamy. And the reader definitely gets a nice HEA.

Highly recommended.

I received a free copy of this book for review purposes.

Julia Murdock says

This sweet little story will introduce you to Lucy Kennit. A college girl who felt she had the world on her shoulders. She was a good student and she was engaged to a smart and rich guy. As the tale goes on Lucy felt some doubts about her relationship but she considered herself lucky to have such a catch. A turbulent snowstorm makes things a little bit harder when she meets her rescuer, Mick Brady. She never encountered such a man and he made her feel things her rich fiancee' didn't inspire in her. She wanted all that he had to offer even if he was a hermit living in the mountains.

Mick Brady left society feeling his affliction woul border on dangerous. Until he met Lucy he definitely felt out of control emotions that settled too well with his affliction

As this story goes on you will see a strong instance of InstaLove and that determination to keep it strong. The light and intensity of this story will make you laugh, cry and become blown away. A good read that will make you smile.

I received an ARC copy of this novel and I voluntarily submitted my review.

BP34 says

Wow, what a story that will grab you emotionally. Fate brings Lucy and Mick together when he rescues her from a bad snowstorm. Lots of twists and surprises to this story. He's a billionaire sex addict hiding out as a rough mountain recluse. She's an engaged virgin. Imagine how many ways this story can go, especially since their chemistry is over the top. Lots of ways this story can go, but I'm not giving any spoilers. More twists with the fiance. Well developed characters and an entertaining story with lots of depth. I read a reader copy and voluntarily chose to write a review.

Linda says

Lots of HEAT in this cabin during a winter storm, but sweetness too. Mick is my hero! Lucy is engaged to a very eligible young man, old-money-rich, aristocratic family, but she just doesn't feel it

or comfortable in his world. On a girls' getaway Lucy and her "friends" have a bad accident in a snow storm, which threatens their lives. Lucy gets out of the car in search of help. What she finds is Mick, a recluse and unbeknownst to her, a sex addict but he becomes her savior and so much more in this winter storm. O.M.G. LOVED this book. I like a mountain man scenario anyway, but this one was different enough to be very engaging. Well-written with the right amount of heat and intrigue to keep this reader happy, wink. I volunteered to review an ARC of this book and it comes highly recommended.

Misty Goan says

A awesome well written funny, sweet, and angst in the drama romance. A fast paced smooth flowing story. It has wonderful characters and detailed decriptions of people, surrounding landscape and activites making you feel as if your there. A virgin story like no other she is just waiting for the right person. Lucy considers herself lucky to grab the attention and be dating such a rich popular guy. Lance you just don't know in the beginning he just feels off. Mick is a billionaire hermit who sometimes help search and rescue. When encouraged to go on a paid girls weekend away to a spa with the other girlfriends, two of the three she never met, they end up crashing and rolling in a snowstorm. The story is so addicting I just had to know what happened and was glued page after page, enjoying every twist turn and obstacle. A must read and added to permanent library to be read again and again. Have no fear their is no cheating but very much so a happy ending where your heart just wants to explode with warmth and happiness. Kudos to author and will definetly be looking for more, loved the story and writing style. I voluntarily reviewed this ARC with my honest feelings.

Purplesnow13 says

This book was given to my as an ARC in exchange for a honest review.

A recovering sex addict and an engaged virgin in a remote cabin stuck in a snowstorm....

I really enjoyed this book. I have very little bad things to say about it.

Mick was yummy in all the ways that count. Rugged but a CEO. Mountain man but owns the whole city. Chops wood everyday but runs corporations. Best of both worlds. Recovering sex addict/ adrenaline junkie, he hid himself away in a remote isolated cabin way up in the mountains when he realized he can't deal with his addiction, unless he gets away from all women in every single way. I kind of loved how he was a sex addict/ adrenaline junkie because that's not something you get from the male character in books often. It made him a unique male character and that's something I liked.

Lucy is a young college girl with a solid and focused head on her shoulders. She hasn't had it very easy in life with being the oldest of her sibling or siblings and the sole caretaker. Her sister is sick so she has a lot of stress and responsibilities weighing on her. In college on a track scholarship and engaged to her college boyfriend and first serious boyfriend.

I found this book very easy to enjoy and read. By the end of the first chapter I knew I liked this author. I liked her writing style and I was also invested in the book by the end of that first chapter too. Nothing worse

than a slow book that doesn't pull you in. Am I right or am I right?

Normally when I read a story like this I'm anxious for the main characters to meet. I was pleasantly surprised when this book gave you a few chapters of the main characters' back story before hand. That way you were able to get to know them before they meet instead of getting to know them as they get to know each other in the story after they meet. I found myself enjoying that instead of being anxious for the meet-cute.

I loved the way they met. It made her trust him and feel safe with him and set it up properly. It made the story of them more realistic. If you didn't already have that trust while being stuck in a remote isolated cabin on a mountaintop with a man you just met and didn't know, then you probably wouldn't be comfortable enough to fall for him that quickly.

Their time together was short and sweet but impactful. Wonderful story with a happy ending. The first impression you get from this book is that it's a typical smut fest, but that's the farthest thing from it. It's an actual story with feelings, and ups and downs, and hard times and good times, and love and a little hate. I was expecting one thing and got something else entirely and I wasn't mad at it.

That being said there is one small thing that I didn't like or that I felt was a little deceiving. With a title like The Mountain Man's Virgin it makes you envision a sex filled romp fest. Like I said earlier it isn't. Yes there is talk of sex throughout it because your in the mind of a sex addict half the time. There's also a little something something at the end but it's meaningful sex that is important to the storyline. Not just thrown in there for no good reason. That's ok. I enjoyed the ride there. It was a pleasant surprise that it made us wait and told the story to lead up to that moment and build up anticipation. What I wasn't so ok with was they skimmed on the detail of that big scene. I felt like with the name of the book that's what the whole story is leading up to. Him taking her and you don't even give a detailed scene of that part?? That's kind of false advertising! I would understand if they didn't go into any juicy details at all but they did, briefly for the juicy parts leading up to right before that. So why would they skimp on the details when it really matters? That bummed me out a little. I did kind of like how by the time they got there though he was practically a born again virgin when she was an actual one. Him being celibate and all for a long time before that.. born again virgin as far as he's concerned.

I did enjoy this book over all. I will definitely read more by this author in the future

Sherry Westendorf says

What a very well written book. It captures your attention and keeps it. I would grab your favorite drink and curl up and read this one. She gets engaged to her rich boyfriend who has problems with attitude and a multitude of other things. She goes up with some girls into the mountains to have a bachelorette stay over of sorts. One of the girls drives too fast and they wreck. In the meantime a man living on the mountain goes to look for them. He lives up there because he considers himself a sex addict. And he grows to like it up there a lot and decides to stay and just fly to his companies when needed. She is a virgin and can't decide whether to stay engaged or go for it with him. He is such a good person. I highly recommend it. I was given a review copy and voluntarily review it.

Traveling Bookworm says

One great love story. Spoiler alert...

Lucy is a college student with no time for men as she pursues her career goals through a college scholarship she would never have been able to afford. She meets popular guy while running track and they begin to date and then he proposes to her, which was a total surprise. Feeling she couldn't say no in front of a crowd of people, she accepts, but has doubts along the way.

On a girl's weekend trip for her bachelorette party, they are in an accident. Lucy tries to leave the vehicle to go for help but falls prey to hypothermia.

Billionaire, Mick Brady is a recovering sex addict who has been in a cabin in the woods for the last 3 months trying to get his emotions under control. He is sent out on a rescue mission to look for a missing person (Lucy). He and his dog find her and brings her back to his cabin to get her warmed up.

They form a wonderful connection and once Lucy finds out that her nobody can find her fiancé and he hasn't a clue she has been injured, she finds comfort (but not sex) in the arms of Mick.

Eventually she gets reunited with her friends (and fiancé) and the fiancé goes bonkers over the fact that he thinks she gave up her virginity to Mick. Once he finds out this hasn't happened he calms down but tries to woo her into having sex with him.

In the meantime, Mick finds out that her fiancé is a part of an old boys club who makes bets regarding sexual encounters. The bet is \$1,000,000 for the first person to bed a virgin.

Mick finds out where he has taken Lucy and comes to her rescue just in time.

This is a sweet love story with a great HEA.

I received an ARC copy and am voluntarily posting an honest review.

Emily Pennington says

Lucy McKennit, a college student studying biochemistry, smoothed down her dress with shaking hands, wondering if she would ever feel comfortable around the wealthy people as she tried to fit in as Lawrence's girlfriend. In the world of the rich, they seemed to have a language and vocabulary all their own. Watching how Hunter treated his girlfriend with no respect because she didn't match their academic level made her uncomfortable, unable to figure why he was dating her if he felt that way. It seemed that both Lawrence and Hunter took pleasure in mocking the clueless young woman. After the dinner, Lawrence had champagne brought to the table. He got on one knee and offered Lucy an engagement ring. He was very rich, popular, and everything she could want – so why was her brain screaming NO?

Mick lives in the mountains because he knows he is a sex addict and felt he was keeping society safer if he didn't let himself be tempted. His only indulgence is his helicopter, which one of his companies manufactures, and he uses it to get back and forth to his office periodically. What started out as a kind of self-punishment was starting to make him feel that he was where he belonged. Mick called out for his dog, then put on snowshoes and went looking for him. Chopper had lost a back leg and the heavy snows were causing him more problems as he got older. But he heard rustling nearby and found Chopper under the porch. The two of them went to chop wood before the snow arrived.

Tania invited Lucy to a weekend bachelorette party for her in the mountains with two other girls. It was obvious that Avery and Tania had gone to college to find a husband, while Montana focused on earning her MBA to take over her dad's publishing corporation one day. Lucy connected immediately with her. Despite

the roads getting slippery with the heavily falling snow, Tania continued driving at 70 mph. With the next skid, Tania slammed on the brakes seeing an oncoming car, and their vehicle rolled off a small cliff face. When Lucy woke, she checked the others. Everyone was alive. But the snow was bad and she had to go for help. It was soon going to be dark. But when she had to take a different path to get up the cliff, she suddenly realized she was lost.

Mick knew that Search and Rescue were trying to find the site of an accident. Sometime later, they radioed him that one of the victims left the car to get help. Mick and his dog took off in a snowmobile and tried to figure what way the person would go. Finally Chopper, who had helped in rescues before, started to bark and he found a body buried in snow. It was a woman and she might not survive. He took her back to his cabin and treated her hypothermia. She woke up fighting him and terrified, her odd dreams confusing her, the pain and burning in her feet a mystery. But his calm voice helped her settle down. Lucy couldn't help but make comparisons between this man and Lawrence. They were so completely different – and everything about this man, even his scent, was attractive to her. She trusted him.

Being stuck together at the cabin during the storm, the two of them grow closer. There was a wrongness to her engagement and she wants to break things off. Mick cares for Lucy in a way that is new for him and he needs to explore this. Will things sort out for the two of them? Will they realize that they only now found what they needed all along in each other? Or will the selfish rich boy make sure that he gets what he thinks is his, no matter what it takes?

I thought the writing of this book was excellent. The descriptions give the reader a vivid impression of the people, their activities, and the surrounding landscape that makes everything seem more real and believable. The characters, by their actions and motivations, provide a clear impression for the reader to understand the truth behind what is happening. It definitely makes it easier to understand Lucy's confusion about why she feels the way she does about things. The book really catches the reader's attention and the story line kept things moving at a good pace. I definitely recommend this book. It's an experience you won't want to miss!

Julianne Macneil says

i read this book as part of an arc program. In this book, Mick is living in the mountains because he is a sex addict and he cut himself off from temptation. Mick is a billionaire who runs a number of companies, he commutes to his office by helicopter. Lucy is a college student who is a virgin and studying biochemistry. Lucy is recently engaged and is going to a spa retreat with the girlfriends of her fiancee's friends. When they are in a car accident in a storm, Lucy leaves the car to find help and gets lost in the storm. Mick hears the call for a missing person and he sets out to find her. When Mick finds Lucy, she is close to death, so he takes her to his cabin to warm her up and saves her life. When Lucy and Mick are stuck at the cabin for a few days during the storm, they grow close and fight their mutual attraction. When Lucy wants to leave to see her fiancee, Mick takes her to the local hotel where he is and leaves without saying goodbye. Lucy knows something is wrong and wants to break off her engagement, but she wants to see her sick sister first. Mick knows something is wrong, so he sets out to find out why Lucy is with her fiancee, and what he is up to. Mick and Lucy have developed feelings for each other and they have to learn the truth before they act on things. Mick is a great guy and he wants to protect Lucy. I really enjoyed this book and thought Lucy and Mick had great chemistry. They had an instant love and were meant to be together. I loved how Mick wanted to expose the wrong doings and make things right for many others. Good one.
