The Naked Earl

Sally MacKenzie

The Naked Earl Sally MacKenzie He Took Her By Surprise

When a naked earl climbs through the window into her bedchamber, Lady Elizabeth Runyon does the proper thing: She screams. Loudly. And then...well, Lizzie has had enough of being proper. She wishes to be bold. Wanton, even. She won't be commanded to put on her nightgown. Just this once, she will be absolutely daring...

She Returned The Favor

Robert Hamilton, Earl of Westbrooke, has no intention of being tricked into marriage by a detestable female, and if he has to flee naked across a rooftop, he will. Jolly good there's an open window waiting--as well as an undressed, slightly drunk, and alluringly beautiful Lady Elizabeth. Oh dear. If they are caught together, he might have to marry her. The idea is delicious...and the temptation is irresistible...

Pamela Shropshire says

This may be my favorite one of the series.

Lady Elizabeth Runyon has been in love with Robbie Hamilton, now Earl of Westbrooke, since she was a little girl. Now she is definitely not a little girl anymore, but she worries that Robbie still thinks of her only as his friend's little sister. And then one night, Robbie has to quickly flee his bedchamber to avoid being trapped into marriage with Lady Felicity Needham who has been blatantly chasing him. He quickly goes out the window and slides into another open window, hoping to hide. The room is Lizzie's - and she is naked.

Robbie has always loved Lizzie, but he had an unfortunate experience years ago, and he experiences, um, performance anxiety. He can't doom Lizzie to a half marriage with no hopes of having children. But maybe with Lizzie he won't have difficulty?

KMKB says

Meh, at least all the other characters were interesting. Frankly it started well and parts were good, but it's not my favorite. (Also, the order Goodreads has this in is different from the order of the series all put together.

Katherine ??? says

[akal bulus Felicity dan kesenangannya dgn cambuk-cambukan dan sejenisnya. Trus ada perkosaan yg nyaris terjadi. Menjijikkan!!! (hide spoiler)]

Beth says

Probably my favorite of the Naked series. I love the character of Robbie and Lizzy.

MC says

I enjoyed this story, Sally Mackenzie is very good at giving us a roller coaster of emotions, from the very comical to the frightening violence to a very sweet romance.

Di says

I'm a sucker for romances where a girl who's loved a guy forever finally gets her man.

Readitnweep says

Earl Robert Hamilton jumps naked from window to avoid slut trying to trap him into marriage only to jump in room of his naked best friend Lady Elizabeth. She's been in love with him forever. The book moved well but was too convenient, too corny at times. Was far too contemporary American in voice; the blatant Americanisms pull ne right out of the story.

Will not be looking for more from this author.

Nightwitch says

Fun, rollicking read, but a few too many flaws to make this a reread or a series to continue. Too many characters, too much going on, and what I think of as an old-school romance trait: scenes from the point of view of the villains, including sex scenes to make up for the fact that the hero and heroine can't have sex until they're married at the end. Additionally, these scenes include the villain and villainess plotting the rape of the heroine, and later the villain attempting it, which wasn't pleasant. (The excerpt from the sequel also involves the heroine of *that* book nearly getting raped.) The secondary romances - a duchess married to an eighty-something duke who's desperate for an heir and the man who's in love with her, and a sixty-something chaperone who's been conducting an affair with her butler for the last forty years - are far more interesting than the main characters. On the plus side, the book moves quickly, and I really enjoyed the hero's reason for refusing to marry the heroine despite his love for her (he's impotent!). I'm not sorry I read it, but I won't be continuing.

Jody says

Funny encounters lead to scandalous situations.

Katie(babs) says

Sally Mackenzie has a knack for writing very loopy regency style romances. They are overall fun to read and not be taken seriously. So, if you want a good read with some outlandish scenes that will give you a good chuckle, this book is for you.

Robbie our hero has a "small" problem. The least of his problems is trying to get tied down in marriage. But certain parts of his anatomy won't work the way he wants it to. The poor guy can't get over an embarrassing moment he had ten years ago, so he is bereft that he will remain alone and never have sex again.

Lizzie is the sister of Robbie's childhood friend (Her brother James was the hero in *The Naked Duke*). She has loved Robbie forever and is ready for him to marry her. Well, this almost happens as Robbie falls into her window naked trying to escape from a spinster harpy who wants him for his money. (Just read the first

chapter and you will understand.)

Because Robbie has these issues he tries to stop Lizzie from her marriage minded ways, but that doesn't stop them from kissing and touching everywhere and anywhere they can get their hands on.

Along for this ride is a secondary cast of characters that are beyond believable. You will laugh and roll your eyes at their antics along with hoping Robbie can get over his trauma and be with Lizzie, a very sweet girl who adores him for just being him and not for his title or money.

One high point is that Mackenzie writes her heroes that are almost as innocent and naive as their heroines-meaning no over experienced men who have a thousand women under their belts.

So for oversexed characters and campy conversations you will not find in any other romance historical, enjoy a few laughs with this campy story.

Daneesha says

"Men are very simple creatures. They may be able to fight battles and build canals, but when it comes to emotions, they are hopelessly inept. They go along merrily eating and sleeping and fornicating until something or someone interrupts them."

This book was cute but after a while it got really annoying. The hero thought he suffered from impotence. Yeah when he really got down to it, he was sorely mistaken. :)

Erin says

Definitely not as good as the rest of the series which is a disappointment because I really wanted to love these characters, but there just wasn't any personality to love. And the humor just wasn't quite there...

Cara says

I really enjoy Sally MacKenzie's lighthearted style and abundance of humor, and I like this series, but this story just got stretched for way too long and it lost its sense of tension or urgency. That and my favorite couple was actually the ex-villainess and her fairly despicable affair partner, they had better angst, tension and sexytimes.

Francine says

Cute story, outlandish at times but entertaining !

Amy says

Meh writing, wholly unbelievable plot, uninteresting characters. Lacking in Regency characteristics.
