## Twin Stepbrother Secrets 1: Pregnant with Their Baby Cassandra Dee

I was all alone in the house ... until my identical twin stepbrothers moved in, mysterious, exciting, and oh so gorgeous.

### Morgan:

My mom married billionaire Gerald Kingsley a few years back, and we moved into his hilltop manor, surrounded by lush estates, serving staff, and tight security. I was lonely most days, until one day I came home and discovered two handsome, twin men in the living room! They were my new stepbrothers ... and they turned my world upside down.

### Landon and Cole:

Morgan was so innocent, blinking and naive behind those big glasses. But we couldn't forgive our father for what he'd done to our mother, so taking our sweet, trusting little stepsister seemed like the beginnings to a suitable revenge ...

This story is told from Morgan, Cole and Landon's points of view. Join the trio as they explore the boundaries of family ... *and what it means to cross the line.*

## **From Reader Review Twin Stepbrother Secrets 1: Pregnant with Their Baby for online ebook**

**Kattz says**

Good start to a serial.

---

**Tinsel says**

I read all six parts as one story at the end of another book, so I'm reviewing the first story as them all combined.

I didn't like this book at all. The way they treated her and planned to leave the whole time was effed up. They didn't see how their actions made them just like their dad. I didn't feel a connection between any of the characters and can't see them with a HEA.

The editing was bad and a couple times the twins got mixed up and switched names. I had to reread parts over because of that and it jarred me out of the story. I'm glad this wasn't the first book I've read by the author because I probably wouldn't purchase another if it had been.

**Twin Stepbrother Secrets #1**

TWINS!! And.. Both at the same time!

I cannot wait to read Book #2, and find out what happens.

**Jessica Gomez says**

Poor girl. They are going to make that poor sweet girl suffer all through their hookups. They deserve themselves to have to fall in love with her and loose her.

---

**Felicia says**

Interesting

## **Michelle Mulvey says**

### **Stepbrothers are the new hype**

Not worth it. The book ends at 65% huge rip off if us ask me. Got the book for free but will not be finishing the series.

---

## **Elizabeth holmes says**

I got this read in return for an honest review.

I will start this review with a confession that I dislike books that are produced a bit at a time. Don't get me wrong, I can cope where is a set of books where one leads to another.

As for this section on offer I was pleasantly surprised. There does appear to be a decent plot and I did not find any glaring spelling or grammar mistakes, which I have found in other serialized books.

I would much have preferred to be able to read the book as a whole and whether I bother to read the remaining sections will depend on their costs.

After checking them out I found that there are five more sections each costing £0.99 (\$1.56). This means the whole book would cost in the region of £4.96 (\$7.80). At present I can't afford to pay that much, especially where other serialized books end up being issued as a whole at a more affordable price. If this does happen then I will happily buy the whole book.
