WHY IS THE 4TH BOOK NOT IN MY HANDS. AHHHH MASSIVE PLOT TWIST AT THE END OF THIS ONE!!! **Okay so, as always, I am a fan.** (I mean, DUH. I'm on Vol #3, when usually anything that remotely smells like a series takes me 19 years to work through.) I loved this one particularly much **because of the sheer amount of deducing and battles of wits.** I loooove smart books. This series is SMART. We're talking genius' battling it off and trying to make the other trip up but being so flawless IT NEVER WORKS.

hyperventilates

Guilty confession: Light is a mass murdering teenager and yet I still like him.

Less guilty confession: Ryuzaki (or "L") is adorable still and chews on things when he's thinking and has big eyes and I really shouldn't care so much about a little black and white drawing BUT THERE YOU GO.

This volume had plenty of plot twists, but it didn't have so much action as more THINKING time.

Which I'm okay with. But it did make it slower than the other books, I found. I love that Ryuzaki and Light have MET now and are constantly trying to trip each other up. I feel mortally ashamed of myself for getting panicky about Light possibly getting caught. WHERE ARE MY MORALS? IF YOU FIND THEM, SEND THEM BACK TO ME BECAUSE THIS IS NOT THE TIME FOR A HOLIDAY.

(Thank goodness it's library day tomorrow because I need the next ones immediately.)

My favorite of the series so far!

This is such a crazy *smart* series, and the plot keeps twisting in ways I'd never expect. Light and L are both fascinating characters and it was super interesting getting in both their heads as they face off.

It still moves a little slow at times and I'm not certain what I think overall-- but I'm definitely invested in seeing where this is going.

This one was kind of slow ... I mean I liked all the smart conversations, however it only consisted of talking. I wish it would've been more action-packed like the previous two.

La trama si infittisce sempre di piú?Light, ora per te inizia la vera tortura xD

Yet again, another stellar installment of the Death Note series!

This third volume felt more action-packed than its predecessors. The good/bad binaries became even more muddled and the the art work turned darker in tone to accommodate it. It felt like this volume marked a shift in the series, where from here on out we have entered more into the world of the psychological thriller. Again, there were many levels to this and many genres were converged on, but it primarily had a crime-based theme. This was enhanced by the increasing focus on the police detectives and the mysterious L, who are attempting to solve the case of the homicidal maniac murdering both convicted criminals and the police members attempting to trap him. This insight into the two conflicting sides of the case make this compelling reading!

In true Death Note style, this has ended on a cliffhanger that is making it impossible for me to stop now! I am a true convert into the Manga world.

Die Gedankengänge von L und Light, während sie beide die selbe Situation und ihre Wirkung auf den jeweils anderen durchanalysieren *-*

Clarissa Emiria says

In the final parts I tried to be better about taking the time to look at the graphics as well as reading the story as I had noticed my tendency to **just** read the text and speech bubbles I was so engrossed in what was happening I wanted to know more, I *needed* to know more.. xD

I am enjoying myself SO, so much, I feel like a broken record saying it over and over again, but I really do :-
) And I finished this in time to go to the library today, too, I'm considering if I should just check out the rest of the series while I'm there, if they have them xD

And I'm still terrible at reviews, I'm sorry... xD

Anywhoddle... I am quite loving this, I recommend it, highly, I think it's a good place to start if you have no prior experience with manga, like me :-) I plan to put the Black Edition of these, that are available from BookDepository on my christmas wishlist O:)

Prica se polako zaostrava, nadmudrivanje izmedju Kire i L-a je interesantno mada na momente smara njihova "ja sam pametniji". Dick waving contest :P

Plus dobijamo najavu novog igraca sto je odlicno. Malo da zacini ovu corbu.

L has instructed the police officers to put Surveillance cameras in Light's room to have a closer look at his activities.

Ah, Light will not like this:

But he has plans to get rid of it.

This series' best and most important success factor is that both main characters are equally strong and intelligent.

Let me get a phone and recommend this series to you!

It's a Misfortune Volume..

"They say humans haunted by Shinigami have nothing but misfortune."

— Ryuk

Okay, So you think all it'll be just "The Hunter and Haunted"?

Well, think again..

The surveillance between L & Light, Light & L is taken to whole higher level.. and it sure drive Light insane..But he's smart, he'll recover...

BUT...again, Think AGAIN..

"Kira is evil ... There's no denying that ... But lately I've been starting to think of it more like this ... The real evil is the power to kill people"

The Moral I thought about since the beginning is told here by Soichiro 'Light's Father' in a very misfortune circumstances..

But I am still Team Light, there's too much Misfortune deeds happen to innocent people BY Those who MUST JUST DISAPPEAR.

But did you thought just by doing that, you kill someone yourself... you take a soul...you're Death...you're cursed, Misfortune...

Well, in this volume you can see how Misfortune Light , he almost get insane really with facing "L" face to face and dealing with him...

BUT by the end of this volume. the course of the story will take a strange level.... Kira start acting crazy and clumsy...he sends videos to the Media....sending message to the Japaneses and the NPA...and L.

It's crazy move truly , could Light be that Misfortune to do that? or he has a Bigger plan?

It's really smart volume , that should have titled "Misfortune"

A huge plot twists come unexpectedly chapter after chapter , the curse is here...and Light still can't see

it.

New character appears I believe will make the next volume even more exciting.

And Now ,let's see the chapter by chapter rate;

Trash (5 Stars)

How Light get his killing with all the cameras around his room? if he didn't do any ,it will be even more suspension.. A smart chapter.

Gaze (4 Stars)

Well, no more cameras.. It was almost getting normal again..BUT The Gaze in the ending is a real 5 stars Twist.

The next chapters are just like a great Ping-Ping game.....

Humiliation (5 Stars)

The Messers and the Messies.... Light in Collage, and his colleague is "L"

First Move (5 Stars)

Still a Ping-Pong.... and it's getting smarter..

Duplicity (5 Stars)

Light & L will try to work together!!! but it's not the twist...the twist is how to write an end to this thrilling chapter...

Misfortune (4 Stars)

Here Light's father will deliver his line of Misfortune, But Will Light accept that?

Hard Run (4 Stars)

I almost hated it....I'm team Light BUT This chapter he's just went so far.... funny he's not here to explain..

Shield (4 Stars)

Still , had Light gone insane? totally insane? it's "L" chance now to get closer to him.

Fool (5 Stars)

Oh my God.....We've been fools to believe all of it..

It's really big twist..

I just love how smart the authors are..it's a really great thrilling read.
