## Fallacy Kimberly Bracco

It was only supposed to be one night. One night of hot, no-strings-attached sex.

But what happens when one night turns into two years? Two of the best years of their lives... until it wasn't.

Quinn Taylor doesn't believe in happily-ever-afters. Her heart hardened by the past. Despite Quinn's inability to trust, Alex Conway knows there's something worth fighting for.

Alex makes Quinn question everything she's ever believed to be true about men. She doesn't want to let him in but there's no denying he's under her skin.

Just when Alex thinks he's broken down her walls, Quinn runs, breaking his heart, and he has no idea why.

After two long years without closure, Alex has finally had enough of wondering what went wrong. He's determined to win Quinn back. The only problem... she's engaged to someone else.

Can Alex figure out how to win back the love of his life before she breaks both their hearts irrevocably? Will Quinn realize that everything she's ever believed is all a fallacy?

\*\*\*While this series can be read without reading The Uninhibited Series, it is a spin-off that contains spoilers for the first series. It is suggested you read Inhibitions, Unrestricted and Freed first.\*\*\*

## Vanessa Sims says

Ok I'm going to start off by saying, I should have seen that ending coming a mile away with how she wrote Ashley and Tanner's story. But I still read it and loved it. I love how she starts the story off with how Alex and Quinn met, and went from there. I was totally peeved when I got to the middle. OMG if I could jump in a book and slap a main character Quinn would be it. I think I had the same feelings about Ashley. There is something seriously wrong with them, if their men were real, I would have swooped them up in a heart beat, because seriously, who wouldn't want a man like Alex. Loving, caring, and who sees the real you. Sweet baby Jesus. Now I have to wait until April 29th to see if Quinn pulled her head out of her butt!

## Lisa A says

We meet Quinn and Alex in the Uninhibited series they are the best friends of Tanner and Ashley. They were great characters and I am so glad they got their own duet series. Quinn doesn't want a relationship, she doesn't believe in happy endings. She saw her dad cheat on her mom and her mom was aware and let it go. So Quinn built a wall around her heart. But when she starts to date Alex her walls crumble slightly and she starts to fall for him. (how could you not he is amazing) But when Quinn over reacts to a conversation Alex has with Tanner and Ashley, she pushes him away. Alex, for two years he stayed away but all he thought about was Quinn. Now he is back working with the Jets and he wants Quinn back. Only bad news Quinn has an engagement ring on her finger. Thank God the duet was out and I didn't have to wait for part two!!!

---

## Ashy Khaira says

i love love the book. Quinn is the daughter of a wealthy businessman. Her view of men, love and marriage has been ruined by seeing her father cheat on her mother with his secretary. and then finding out her high school sweetheart was doing the same as they call it the ways of the rich and its the ways of the world. She chose to have the life of flings and one night stands. Until the day she met Alex. Her insecurities causes her to misunderstand all that he says and she walks away from him despite loving him. She never explains it and her father tries hard to ruin her life. Will he succeed? Or will love triumph again in the end?

---

## Nasreen says

I didn't enjoy this book at all. I didn't feel the connection between Alex and Quinn - it might be because I didn't read the uninhibited series which I'm so fucking glad I didn't because I hate Ashley. I had no emotional investment in these characters, their stories, and their personalities or lack of for that matter. They were just

there to fill in the empty gaps in my opinion. I fucking hated tiffany - she was irrelevant. I wasted my time reading this, thinking okay it will get better because yeah at times it was fine, i liked it but then the next scene caused me to become angry. Pettiness describes Fallacy. I liked Jordan though, at least there's one good thing about the book.

### **Judy Miracle says**

Fallacy is a spinoff of Kimberly's first series Uninhibited where we got Tanner and Ashley's story as well as a bit of Quinn and Alex as they are all best friends.

Quinn is a one night kind of girl (shocking not many stories have them) but with Quinn she's strong, sexy and knows what she wants. and commitments and relationships are not one of those things. One encounter with Alex that was supposed to be just that - one encounter- turns into so much more.

Alex gets Quinn and he's good at reading people. When it comes to Quinn he knows exactly what she needs and he's not afraid to show her she's special and cherished. What started out as a one night stand has now continued for 2 years but those 2 years together comes to a very abrupt halt when she starts questioning things. Alex being heartbroken leaves town for a few years...

Now back in town he realizes he is still in love with Quinn and determined to win her back. But what happens when him coming back to claim the only woman he's ever loved doesn't work out the way he had hoped? Does Quinn even want him back?

I kid you not you will not be able to put this book down. As a Kimberly reader for life I will say reading Tanner and Ashley's story before this one will only enhance it but is not necessary. There are a few things that I had to remember what happened in their story but for honestly besides this book leaving you wanting more Quinn and Alex you will want Tanner and Ashley's story too..

Freaking amazing read. Well done Kimberly cannot wait to see where you take Quinn and Alex next especially after that ending.

#### **Disappointing**

Personally, I do not like being strung along in a book only to find it is a continuing story right at a crux moment. The way the female lead treats the hero, who is almost an unbelievably great guy, hurt me to read. I suffered along with him hoping the person he loves will wake up after breaking up with him over

ridiculously wrong assumptions about him, but instead things get worse. Throughout this book SHE NEVER REALLY REMEMBERS THE EXTENT OF HIS DEVOTION! She doesn't deserve him, so I refuse to pay for 2 more books for her to get her head out of her @ss. I find myself reflecting on the whole book realizing much that happens stretches credulity. I am also tired of reading about anal sex. I may try another book by this author, but I do not recommend this one.

---

## **Big Joe Rossi says**

Fallacy is a spin off from Kimberly Bracco's Uninhibited series, Alex and Quinn's story. Best friends of Ashley and Tanner.

Quinn is a hit it and quit it gal, she dont do relationships, hell she doesnt do seconds. One day or night and on to the next. Alex is a good guy, he gets his one night but works to get another and when she gives in he works to bring her walls down and she works to have Alex with her walls up.

That is until a misunderstanding of something Alex says to someone leads to a spiraling of the relationship and friendship. It leads to him fleeing to Arizona and her falling inline under her fathers thumb. The reason in contrast to why we loved her in Ashley/Tanner story.

This story spans many years and for me that made parts seem more of a telling then a showing. I like a book that spans many years to be present with flash backs. That is a personal choice.

Kim Bracco has now written 3 great reads and I am eager to follow her career and read her works.

### **JewelsyGoolsey says**

3.5 stars. This was a book with characters that irked me and time gaps that infuriated me for various reasons. But it would take me too much time to explain all my reasons, so I won't. But dammit the storyline hooked me all the way up to the cliffhanger and as much as I don't wanna do it, I gotta go read book 2 now. Well done Ms Author. You baited and caught me.

I also didn't have to read the previous couple's story to understand this one, but it sure made those above mentioned time gaps annoying.

Oh and a side note for the die hard safety gangers: (view spoiler)

---

### **Efrat Almog says**

very disappointed...this book wasn't good as the first 2 books in the series... I didn't like the idea of the story at all...the main character was not strong enough to make me fall in love with them or their story...sorry.

Reviewed for A Wanton Book Lover Blog

If you have read Inhibitions series by Kimberly Bracco, you know there was something going on with Alex and Quinn although little details of their "relationship" were given. But know Ms. Bracco gives Alex and Quinn their own series in Fallacy (Apprehension #1). Fallacy can be read as a stand-alone but I definitely recommend read the Inhibitions books to meet Alex's best friend Tanner and his dirty mouth. Alex and Quinn were just supposed to be a one-night only thing-no strings, no dating, no relationship. That's what Quinn did with all her men. Sleep with the once and then goodbye. But after that one time, Quinn finds herself hanging out with Alex and really becoming friends with him. One time lead to another and coupled with their intense sexual chemistry, Alex and Quinn found themselves in a relationship. Now, Alex could never call it a relationship in front of Quinn, as she would freak-out, but that was essentially was it was. Quinn had spent her whole life building walls around her heart to keep from getting hurt and Alex made it his personal duty to knock down those walls. Two years later, Quinn suddenly announces to Alex that they are through and completely cuts all ties to him. Looking for fresh start, Alex finds himself working and living in Arizona where he moves up the ranks in athletic training. A few years later, the Jets want Alex back. But when Alex arrives home and still in love with Quinn, he finds out she is engaged to someone else. Alex tries to get Quinn to see what they had was real and that he should be the one she is engaged to.

I loved the Inhibitions books and I loved Fallacy. Ms. Bracco's writing had my falling in love with her characters. I felt that I was living their relationship as it happened while experiencing their love, frustration, hate, and surrendering as it happened. Quinn was a hot-mess and really had a twisted outlook on relationships but she had been betrayed more than once and was just trying to protect her heart. Alex was the

boy-next-door we love to love with a little hidden dirty side to him. I just loved the whole book and the direction their story took. Yes, I know what direction it was heading from Ms. Bracco's previous books but she really built in a wonderful story full of life around that foundation background. **READER BE WARNED....**that evil writer Ms. Bracco (jk)loves cliff-hangers and *Inhibitions* ends in a cliff-hanger (so if that isn't your thing, wait until book 2 comes out but definitely read this duet). As I was getting near the end according to my Kindle, I just keep praying things were going to wrap-up and Quinn and Alex would get their HEA but NO! I am so looking forward to book 2 in the *Apprehension* duet and thank you Ms. Bracco for giving us readers Alex and Quinn's story.

### **Tracie says**

3.5 stars..... due to cliffy

I did not read the first two books and started with this one. It has a great story line but it is a huge cliffy. Loved Alex, patient, faithful, kind, loving..... Then there is Quinn, geez, someone needs to smack some sense into her. I understand her background and that is why she is having a tough time trusting, but to get trust, you must trust and she must give the trust. She needs to share her secrets about her fathers behavior to her. The story will make you keep turning the page and then that is it.....what ?!?!?! that is why 3.5 stars.

Got to wait until April 29th for conclusion....ooh my

### **Melissa says**

This story I LOVED everything about this. If you read the *Uninhibited* series you've met Alex and Quinn . If not that's ok you can read this and not be lost . Quinn has been living her life with a goal .. To be the best. Alex is he perfection he's sweet and the two of them together are AMAZING . The chemistry is fantastic. Go one click now!

---

### **Sofia Almiroudis says**

*Fallacy* is a spin off from Kimberly Bracco's *Uninhibited* series; the series that first introduce us to Alex and Quinn. The best friends to Tanner and Ashley. It's here that we first get a glimpse of Quinn and Alex's relationship, but never given any details. So I was thrilled to see that Quinn and Alex got their own book, their story.

Quinn is a strong, ambitious, sexy, confident, a no barriers kind of woman. Men fall to her feet and she has a slew of men to choose from. One-night-stands are all she needs to satisfy her sexual desires, never needing or wanting anything more. A encounter with Alex that was suppose to only be one time, leads to more. One night so incredible that both Quinn and Alex are ruined for others. Alex is very good at reading people and sees Quinn for who she really is. He knows she carries a lot of baggage and treads lightly as he wins her over through friendship. Without realizing it, Quinn's one-time rule is forgotten when it comes to Alex. Alex gets her. He makes her feel special, loved and cherished. Everything she doesn't feel from her parents especially her father who she does everything and anything to impress. She has a very hard time trusting, but somehow she has allowed her walls down and has fallen for Alex. She doesn't admit it with words, but Alex knows through her actions. What started as one-night leads to two years. Two years of wonderful, until something

causes Quinn to question Alex's true self. Ending things with Alex causes a spiral of changes. A heart broken Alex moves to Arizona to pursue greater opportunities for his career. Quinn jumps back, head first into work, working in gaining her father's approval so one day she can fill his shoes. What Quinn doesn't expect is her father changing the rules. After two years, Alex finds himself back, as head-trainer for the Jets. Still in love with Quinn he is determined to win her back, until he finds that Quinn has moved on and engaged to another man. Hurt, Alex needs and wants answers. Why did she end things between them when everything was going so well? What did Quinn's fiancé have and do to convince her to finally commit to forever?

I became a fan of Kimberly Bracco's through the *Uninhibited* series and an even bigger one now. Her writing keeps getting better and better. Ms. Bracco has this amazing ability to make you feel as if you're experiencing what the characters are. Her sex scenes are hot with just the right amount of sweetness and spice. I loved Quinn and Alex's story. I love that Alex was able to break down Quinn's walls with his simple gestures. I am so eager to see what choices Quinn is going to make in book 2, *Irrefutable*.
