Welcome back to the Main Street Merchants series with book three, Five Golden Rings. Cara struggles with her feelings of self worth. She still sees herself as the fat girl she was growing up, and has been trained to connect being thin with being desirable and valuable. A talented musician, she has the chance of a lifetime to perform with the new guy in town, and even record a demo. Although her friends insist she is amazing, her mother does not support her efforts to improve her music skills. One friend is always there for her, her co-worker at the local jewelry store. Cara take and emotional journey of discovery and discovers love along the way.

This was a great story that brings back together the characters from the other two Main Street Merchants books and helps us learn more about a few others. I can't wait to read the next books. This is definitely and enjoyable series that I will continue to read.

Third in the Main Street Merchants' series, the pattern of high quality clean romance novels continues. I echo the reviewer who states, "What a fabulous book!" The story is crisp and clean with characters who reflect high moral standards. Unlike many romances where the protagonists are identified very early in the story, Ms. Timothy kept me in suspense as to the identity of the real hero until much later. As in her other offering in this series the reader is allowed to keep guessing as to the hero's identity, and may even come to the wrong conclusion before the heroin's choice is made known. This really keeps the pages turning. I am amazed at how much story depth can be accomplished in only 109 pages. Well done! Five Stars!

I had a hard time reading the end of this book. Not because it was badly written, no it was well written. I was beautifully written and that's why I had a hard time reading it. I wrote a book with a similar thing and I

actually teared at this one too. I was really emotional for me because It reminded me of my own dad. I also loved her struggle and the way she dealt with it. WOW! Great job!

#### **loved it!**

This is one of the roommates stories. The four girls living together and their bond from high school. This took some twists in a depths fashion. Well done.

Cute romantic novella. It was good to see Cara overcome childhood insecurities and make peace with her past and her family. Oh! And find love. :) These Main Street Merchant Books are a lot of fun. They all intersect and weave together with characters. Such a great idea. Clean- no swearing, only mild kissing.

Still no HEA for MAX?????

This one is about Cara and how she's trying to overcome the emotional abuse she suffered from her own mother about her weight and her life choices. Cara really comes into her own in this one, despite an incredibly sad ending. And, both she and Brennan figure out that they're meant for each other.

This book brought Taylor Swift's song lyrics to my mind...

"Can't you see that I'm the one who understands you?  
Been here all along so why can't you see?  
You belong with me"

That about sums up this cute story. What Cara needs is right in front of her but she just hasn't seen it yet. A cute romance that made me smile.

Cara works with Brennan at the jewelry store, and is developing her music with Max. Both guys are great, but she doesn't feel worthy of being loved by anyone. She has a lot of childhood insecurities that come from her relationship with her mother. As she starts to heal those insecurities, love finds her quickly and unexpectedly.

Another fun novella in the Main Street series...

### **A story of personal healing**

While the issues /conflicts from which Cara suffers are resolved a bit too conveniently and patly, it is a sweet romance with worthwhile insights, and a poignant happily-ever-after.

I recommend this book, and it can stand alone, but I recommend reading the series in order to really appreciate the wonderful sense of family as it develops in new ways amongst the 4 friends. The series as a whole is greater than the sum of its parts.
