Paradise Valley Mysteries Boxed Set Debra Burroughs

This boxed set contains: **The Scent of Lies** (Book 1), **The Heart of Lies** (Book 2), **The Chain of Lies** (Book 3), plus a BONUS Prequel Short Story, **The Edge of Lies** , (best read after reading at least one of the other books).

OVERVIEW: A captivating series, full of romance, mystery, and intrigue. Think "Sex and the City" meets "Nancy Drew".

Emily Parker, a beautiful young widow, decides to take over her late husband's private investigation business in the affluent small town of Paradise Valley, hoping to solve the mystery of his murder. With the help of her close circle of friends and the sexy new police detective in town, Emily tackles other murder cases while discovering clues that her late husband wasn't who he said he was.

Follow along on the exciting and suspenseful mysteries as the murder cases are solved by Emily and her interesting group of friends.

Jenny Shank says

These books were quick reads. I didn't feel like the story flowed.

Jackie Blatt says

Paradise Valley Mysteries Boxed set: books 1to3

What an amazing Author! Spellbound from start to finish. A really great set of books that I thoroughly enjoyed. I highly recommend this series.

Cassy Cisneros says

I enjoyed these books. They were not amazing or anything, and character traits were irksome but overall it was fairly easy to just take them lightly and enjoy the stories. I guess one of my main problems was being able to know what the outcome was going to be? It's hard for me to guess what's going to happen in a story, usually, so to say that I easily saw where these stories were heading is saying something. Again, not the most annoying thing, just not the best stories.

pam laporte says

So good roundabout it down

I read them all in one day. I had to know everything. Emily Parkers husband was murdered. She went from being a real estate agent to being a private eye. She met a sexy detective who had secrets of his own ..when they met things heated up and the mysteries were flying. Emily gradually finds out who killed her husband. And sparks fly between Emily and Colin , the detective. Love this series

Jay Williams says

Debra Burroughs has a great style of writing. It conveys information in depth and captures the reader very quickly. A small town in Idaho is the stage for action involving love, espionage, covert action, and the interaction of good friends. Although each of the books is complete on its own, the story carries over from one book to the next. This set of the first three books is a real bargain, and it also includes a novella that adds more meat to the story. The story includes violence without gore, romance without graphic sex, and captures beautifully the relationships found in a small town. The lies of the book titles involve deceit, direct misinformation and sins of omission. Each of the books involves a different set of crimes, but many of the

same people are involved throughout. All the characters are people the reader should be familiar with, and the story progresses as if it was going on in your neighborhood.

Jereeq says

I liked them ... I actually read them awhile back but decided to refresh the characters before reading a later book ...

J.V. Carr says

Entertaining Reads

I chose to rate this series as a five star review, because I was interested enough to read all three books in one week. I have to say, I started to read Debra Burrough's books, because I was interested the fact that she's an indie author and a USA Today/NY Times best-selling author. Go, Debra! I loved the first two books, the friendships, action, and sweet romance. I did think by the third book, it was a little redundant with the facts about what previously happened. They were reiterated over and over, and I found myself skipping the facts I already knew. In a way, that's good. It reads as a standalone, but for readers who read from the beginning, it was a little frustrating. I like her 3rd person writing style. It made me feel like the characters were real. All in all, an enjoyable read!

Kerry Smith says

Looking for a good mystery series to read over the holidays or that vacation that's coming up...this could be just what you want.

Follow Emily as she tries to get her life back together after her husband dies. Taking up the role of P.I. and finalising his last case brings a sense of fulfillment .

With her friends help she starts to investigate what happened to Evan and finds more questions than answers. I know others have stated that they didn't like the repetition of facts but the books would have been and published seperately first off and helpful to those who needed a refresher.

Una Tiers says

NOT a mystery but a romance with a lot of repetition. I will not read the remainder of the set.

Ashley says

I thought this was a great series and would love to hear more about Emily and Colin's cases. Also I would love to see what happens with Maggie and Peter.

Great books!

angela yargus says

AWESOME writer! Wish she would go on even further! Have read all the Paradise Books and started on some of her others!

Roxanne says

3.5 light easy mysteries

Jennie Ersari says

Very good series.

Emily takes over her dead husband's job as a private investigator. While solving crimes, she continues to work on the mystery of his death while trying to move on in her life.

sharon check says

Fair to midland

The potential of a good book but for me doesn't quite work. Story line is good but dialog is sometimes just not realistic. Not how folks really speak to each other. But maybe the romantic readers want to think so. Just sounded goofy to me. But I hung in there and the murder mystery was wrapped up with a good spin.

pam moore says

Great set of mysteries

I really enjoyed reading this series of mysteries. Emily is a P I who has a knack for solving crimes. She has a great group of friends, who you will enjoy getting to know. Looking forward to reading the next one in the series.
