## **Pulling Her Trigger** Alexa Riley

I thought I had all I needed: my gun, my chopper, and my brothers. Most women don't crave a life like mine, but after the things I've done and seen, I never thought I longed for more.

The Ghost Riders Motorcycle Club is my family and I'll bleed for them. I'll do anything to keep them safe, even if it's from me.

One look from him and everything I fought to hide was ripped wide open. Being an FBI agent gave him the power to flip my world upside down, and he did it in a way I never saw coming.

What happens when an FBI agent becomes more obsessed with you than with his case? Do you let down your guard? Or pull the trigger?

Warning: This book contains a heroine who doesn't submit, a hero who fights for what he's claimed, and insta-love so hard it will dent your kindle. \*not responsible for dented kindles\*

Pulling Her Trigger is a complete novella. No cliffhangers. No alpha-hole. No cheating. HEA. STANDALONE.

## Monty Cupcake ? Queen of Bloodshed ? says

Meh. I wasn't a fan of the heroine. She's the sergeant in arms of a motorcycle club and the only female member. She's an ex military sniper and badass. Now there's badass where you're still feminine and then there's "I'm going to be more aggressive than a mating rooster to all dudes to show how dude like I am." I hate the latter. I read plenty of books with badass chicks that are way more dangerous than the guys and they aren't unfeminine. Cas/Mackenzie talking about her boobs was the only way I was able to figure out she was a chick for the first and second chapter, she's that sort of posturing. I really wasn't a fan at all with the idea of a female motorcycle club member, especially if you've read an MC book before. Those guys are gruff and basically have orgies when they're not running illegal trade. Yeah.

On to Vincent, the FBI agent. I've read other reviews complaining of his behavior before he met Mackenzie, that is him peeping tom-ing her window, whacking his salami off, and leaving his mark on the side of her house. Yeah, gross. I hope she makes him power wash the exterior. While his marking actions are gross, I was whatever about it, probably because I just read Thief by this author and that guy stalks the girl for weeks. Anywho, past that whacking time, he's very much into worshipping Mackenzie and going the distance to make her realize he accepts her being an MC member, etc etc. I liked Vincent because he's smexy and worships Mackenzie.

This book was steamy as are all AR books, but I could care less about Mackenzie and her MC brothers. Didn't like the plot or story, besides the romance part.

---

## Polly says

Holy insta love and smut!

Short and sweet. Loved it

---

## Bark says

Never read an Alexa Riley book? Well, now's your chance to get this one FREE (at least for today 8/18/16) at Amazon US . I saw it on my Amazon wishlist this morning and thought I'd share the love, lol.

## **2.5 stars rounded down to 2 stars!**

I think I've become numb. I've read waaay too much AR at this point.

I need an intervention.

So. This book. It's AR's version of a motorcycle club (MC) book - but "safe" (meaning no cheating, rape, abuse, and an HEA). For those who don't read MC books, imagine the TV show Sons of Anarchy...now add "romance." The quote marks are there because most MC books are romantic travesties (in my opinion). They are normally filled with hatred (self hatred, hatred of others, etc), violence towards women, rape, cheating, and numerous other atrocities. Obviously from my description, I don't read them.

*Pulling Her Trigger* stars Mackenzie, a female sharpshooter (former Military) and Vincent - FBI agent who is also investigating Mackenzie (Mac). Mac is the only female member of the Ghost Riders Motorcycle Club. The Ghost Riders are mostly legit but there are some issues thus the FBI investigation.

Why did I say I needed an intervention above? Because this one was a bit...skeevy. AR does insta-love so hardcore it might as well be "fated mates" so I'm a little numb to the overwhelmingly over the top-ness of AR's heroes. But this one was *eeewwww*. Vincent hangs outside Mac's house and jerks off while watching her through her bedroom window. FOR A WEEK. He literally stands outside her house and ejaculates on her walls for a WEEK before they were even introduced. That is so gross. And disgusting. And gross. And *eeeeewwwwwww!!*

I read the whole book but I was grossed out by Vincent and never got over it.

## **Tanu Gill says**

The book had hope. It was promising. The story was really good. But it was the hero's stupid form of dominance that popped up randomly and the weird-and-so-not-hot dirty talk that just soured my mood!

---

## **Isa Lavinia says**

So this dude stalked her and marked his territory by literally nutting every night onto the side of her house, and then forced her to have sex with him without a condom even though she told him like 5 times she wouldn't have sex without a condom and you expect me to find this romantic????

When will a meteor hit us and obliterate the human race?

---

## **Deborah says**

I've been on an Alexa Riley run lately for two reasons.

1. I like the books
2. I'm behind on my reading challenge

Since I love MC books this seemed like a good choice for me but it wasn't the book I'd hoped for.

I struggled with Mackenzie, now don't get me wrong I'm all for a strong intelligent woman making it in a man's world but Mackenzie didn't work for me.

Vincent. Normally I would have loved Vincent, he fell in love with her from one look at her picture he adored her and put her before everything else including his career.

But.....

He stalked her, watched her undressing through her bedroom window while ejaculating against her house every night for a week.

That's seriously creepy and wrong.

I'm jumping on my soap box for a minute, I won't be long.

Alexa Riley as we knows write insta-love hot sexy books with no cheating and always a HEA and we love them but....

Just yesterday I had the H filling the h with his baby gravy (Unexpected Claim)

Then the H taking off the condom without the h knowing (His Rebel)

And now the H is peeping through windows and jacking off on the side of the h's house

Is it me that's being too picky?

I am picky I know but Alexa's book were always one of my quick read go to but what's going on?

I want the romance and the HEA and all those lovely epilogues but I don't want deceit or a freaky house spraying stalker and I never ever want baby gravy. I mean that's a huge NO.

Right I'm back and I think I'm going to leave Alexa's books for awhile.

---

**?\*? Alicia ?\*? says**

Sorry, the whole alpha chick thing.....

---

**Val Shameless ?? Steamy Reads ?? says**

**So I'm just gonna go ahead and DNF here at 25%...**

Because, I'm **#sorrynotsorry** - I like crazy weird kink and all...

...but the FBI AGENT "Hero" **slappin' the salami** whilst LITERALLY spying on the "heroine" - whom he hasn't even actually met yet?

Through her bedroom window?

At night?

Like a run of the mill PEEPING TOM?

\*  
\*  
\*  
\*  
\*

And then coming all over the side of her house?

Let me repeat that for those just joining us...

He actually EJACULATES.

All. Over. The. Side. Of. Her. HOUSE, people...

Every night.

For. A. Fucking. WEEK.

**Subway called.**

**They want their salami back, Jared.**

---

**Bonnie-Anne Carmichael (Love Triangles Are Fucking Stupid.) says**

Why do I make such bad choices? Why did I think this would actually have a story line? This was just sex start to finish. That bores the hell out of me. I need some plot with my sex.

Also I LOVE insta-love, and I love heroes who pursue the heroine to the point it's basically stalking and in real life they probably should be arrested. BUT I completely draw the line at some weirdo who before he even talks to a lassie stands outside her bedroom window every night for a week and gets off in her bushes watching her undress. CREEP. I watch Criminal Minds, that's how serial killers start.

---

**Ellen Gail says**

DNF at 40%. Thank god I didn't pay any actual money for this.

The supposed "hero" stalks Mackenzie for a week, using info gained from his job as a detective. But this isn't just any ole' stalking.

He's hiding outside her bedroom window.

He's jizzing on her house.

Every night for a week. He masturbated on her house.

And lets not forget the part where they are about to get freaky and she insists MULTIPLE times that he's going to wear a condom. No condom, no sex. She couldn't have been clearer.

***“Yes you are. You’re wearing a condom or we aren’t fucking.”***

His response?

***Before she can protest, I pull her ass off the edge of the bed, and slam her down on my dick.***

And that's where I rage quit. Mid sex scene, mid sentence.

Fuck this book.

---

## Jacqueline says

This is the first in a series of standalone novellas about an MC that promises to compress all of the emotion and racy smut of a full length story into a quick and action packed, dirty read (I may have paraphrased a little here, but you get the gist).

What an excellent idea.

What is also unusual is that the badass MC member with a military past is a female and her beau a federal agent who operates in the shadows of the law. He is also an Italian hottie with an improbably large *service weapon* who falls hard and fast for his feisty yet tormented mark.

He also has quite the filthiest mouth I've read in a while and the smut is of the exceptionally dirty variety, so that was me happy.

As a short read this totally delivers on its fast and dirty promise; somehow, in spite of the crazy-fast insta-love, this works. It's not one to read if you're hoping to lose yourself in a long, emotion packed tale as the insta love is the fastest and borderline creepiest I've ever read (literally he falls for a picture of her then spends a week peeping through her windows and jacking off :-/ ), but if you don't take this too seriously and you're looking for quick and dirty with a filthy mouthed alpha badass and a strong female, this is definitely worth a read.

**\*\*I received an arc from the author in return for my honest opinion\*\***

---

## CC says

2.5 stars

At first I did not like the heroine. I do not like women who try to act like men or "one of guys" in romance or women who sleep around. And I felt that was how she was presented, especially early on. Sorry if that is sexist but it is my preference. After they got together, she chilled out a bit so she did not bother me as much.

I liked the hero. How he was so proud to be with her. No matter that they made fun of him. But fundamentally I do not want a hero willing to ride bitch on a bike. More beta than alpha.

This was not bad. It was short and safe. Crazy Insta love. But I needed something more or else more traditional mf characters.

---

**EgyptDiva says**

**2.5 stars**

Nothing against the characters, it was just too insta-everything even for me! so I couldn't really connect. Hot though!
