## **Kristi says**

Very cute!

---

## **Bree says**

Count along as we embark on a tour of San Francisco! Perfect way to teach your little ones in a fun and enjoyable way! San Francisco is such a beautiful and vibrant city and its perfectly portrayed in this children's book. The illustrations are simple and beautiful. I wanted to frame a few of the pages! :)

---

## **Sara (SJWonderlandz) says**

This baby board book is a number primer disguised as a fun introduction to San Francisco for my daughter. She loves flipping the pages and looking at the charming illustrations. Very cute!

---

## **Karen says**

Vintage-poster-y illustrations. Would probably be more fun if we'd taken our kid around SF more and seen some of the sights mentioned. Decent 1-10 number book though, especially if you live in the SF bay area.

---

## **Dedria says**

This was a fun book to use for my counting story time. The bright and colorful pictures of landmarks around the city of San Francisco made counting the objects fun and easy for all who attended. My only wish was that it came in a larger format. Overall, it was a good concept read.

---

## **Valleri says**

A very pretty and simple book to help small children learn to count to ten. Complete with eye-catching depictions of iconic San Francisco landmarks, this book is a welcome addition to our "tiny hands" library.
