Olivia Sarlin is head-over-heels for gorgeous blonde Australian football god, Tyson Baldwin. But when she finally gets her chance to meet him, she's bowled over, literally, by a sexy, dark mystery man and her plans go awry.

He is cold and unapologetic and her fiery temper rears its head. But when he later ignites something other than anger within her, she finds herself inexplicably drawn to him.

There is, however, an obstacle. A wealthy but ridiculous would-be suitor places himself in their path. His malevolent heart will stop at nothing to have her, setting off a string of events that threaten to throw a wrench into her life and come between her and the man she loves.

Spring Rush is a steamy, contemporary romance with colorful characters and a splash of humor.

(This book contains adult situations and explicit content. 18+)

Choppy

The book did not have a flow to it. It bounced around and the characters were all not very good or nice to each other. To be best friends K and O were down right mean and nasty to each other. I guess the characters will develop more in future books but I'm not going to spend the money and time to find out

Kelly says

Not sure what it was, but I just could not get into this story. I'm not giving it a starred review because I may attempt this book again at a later date.

Rachel Dillin says

Enjoyable

This book was enjoyable. Occasionally I felt confused about why Kaley was leaving the business all up to Olivia because it wasn't well explained. However, the overall story is good and I want to read more.

Lucille Winslow says

Like the story

Want to get next book . To see what is next . Fun. Reading
I'm are

I'm retired person. My past time

Anita says

Cliffhanger

This is not a bad start but I am not a fan of series that could be published in one volume.

Janet Batchelor says

Spring rush

It is hard to believe that people really live the life of such wealth and can still be nice people and appreciate how some people work.

Victoria says

Is a great book to read

I enjoyed this book but didn't like how Kaley became so distant all of sudden. If the girls were that close for that long wouldn't they share Kaley's new romance?
