Elodie Rambaud

The Paris Style Guide: Shop, Eat, Sleep Elodie Rambaud

In this sophisticated insider's guide to the best of Paris shopping, Parisian native and resident, stylist and interior decorator Elodie Rambaud provides a personal tour of the city, pointing out choice boutiques of every kind, mapping out the best shopping routes, and listing not-to-be-missed destinations in every quarter. With this book in hand, every dimension of Parisian shopping and the best of daily life is at your fingertips, from flea markets to artisan workshops, from bustling cafés to little-known gardens.

Inside you'll find:

An extensive list of more than 200 shopping destinations of every kind: trendsetting décor and antiques sellers, local green markets and gourmet food shops, craft suppliers and couture ateliers, and everything in between The address, telephone number, and website for every listing, as well as the closest metro station Valuable travel advice, including recommendations for hotels, cafés, bars, patisseries, festivals, salons, and markets Beautiful full-color photographs of every shop or location and comprehensive illustrated maps of the city, along with suggested itineraries

Whether you're traveling to Paris or want to explore what it has to offer from home, this gorgeous volume enables you to experience the city like a native Parisian.

From Reader Review The Paris Style Guide: Shop, Eat, Sleep for online ebook

Ann says

Oh, my, Paris - this book makes me want to book the next flight over with a pocket book full of money to savor the sights and the shops of Paris. A feast for the eye and a treasure to mine for inspiration to decorate , to wear , to use and to dine . A great window shopping book!

Mehsi says

Iets beter dan de Londen in Stijl gids. De vormgeving was mooi, leuke fotos en heel wat minder geblaat over van alles en nog wat.

Lisa says

Since my next trip to Paris is at least a couple of years away, I have to read about it for now. This book covers where to find everything from fabrics to tableware to art supplies. I enjoyed some sections more than others, but that's just my personal interests. The photographs are wonderful and I did make some notes about places I would love to visit.

Carol says

An absolutely gorgeous book!

Michaela says

I got this book free from Goodreads First Reads.

Paris is one of my favourite cities - two reasons are the food and shopping. The pictures in this book are beautiful. During my next visit I will surely browse through some of the shops - even if most of them are too expensive for me.

Nancy says

What a beautiful and quirky little book. It is like walking down the street and glimpsing in all of these hidden away little stores as the author, through photographs, shares images of all these nooks and crannies. Most of the entries are, as the title suggests, linked to style in decor or fabric or vintage items. There are some more "practical" sections highlighting some of the authors favorite places in Paris to dine or wander in nature. The

main interest though is definitely "le shopping"!! I wish I had this book way back when as a college student in Paris for a year. It would have provided a great treasure hunt throughout the city!

Thank you to Elodie Rambaud and GoodReads for providing a copy of this book for review. I would recommend The Paris Style Guide to anyone who dreams of strolling through the City of Lights and when I go back, I definitely plan on fully exploring the chapter on pastries and other sweet treats!

Cat Woods says

This is the ultimate guide to Paris. I'm going for the first time in May and fully intend on blending in with those chic, stylish French women with their tousled, I Woke Up Like This hair and flawless, poreless skin. I'm a big fan of Carine Roitfeld and Caroline de Maigret's smudgy liner from a Vogue party the night before and their ability to go from a tuxedo suit to sky-high heels without appearing to be trying too hard at all! The photography and layout is sublime - a book I know I'll treasure forever. This is totally recommended whether you're going for the first time, or if you feel you've been but you haven't REALLY seen the highlights of Paris. For stylish women, and those who really aim to be!

Anna says

My rating on this one is solely because the book is so pretty to look through, as I can't really judge its usefulness as a "where to go" guide until I travel to Paris again. But it's gorgeous to look at. I wish it had more restaurants and places to go to have fun, as there are a lot of "where to buy textiles, fabrics and art supplies" places included in here, but I'm sure it has more than enough fun places for multiple trips to the City of Lights. A nice coffee table book.

NancyS says

This book wants me to head back to Paris with lots of money in my pocket. Lovely photos.

Nadine says

What a feast this book is to the reader who has visited Paris or the armchair traveler! The feel of the embossed cover and thicker pages, the new book smell, the ribbon bookmark, and unusual photographs give you a much different feel for Paris than the Fodor's and other travel guides. Full information for locations of metro stop, web site, phone number along with the conventional map and address are so nice to have, but the best feature is the map of each arrondissement in the back showing all the locations mentioned. This allows you, when at a specific site, to see how close by the recommended places in the book are located to you on one map unlike many travel guides when you have to go to several maps of only hotels or museums or restaurants and then figure out how close by a spot is to you. Merci to Harper Collins and Goodreads for a review copy.

Claire says

I received The Paris Style Guide as part of a Goodreads giveaway.

A guidebook to Paris: as the title says, this is a guide to where to stay, eat, and visit in the City of Light. They're not in-depth reviews, so if you're looking for lengthy entries on the pros and cons of hotels, eateries, and attractions, you'd be better off with Fodor's. Rather, each page is a different place with a small paragraph of descriptive text and covered in gorgeous photographs. I have no plans to visit in the near future, but the book itself is absolutely adorable and high quality and the art is excellent--it certainly whets one's appetite to hop on a plane.

Kelsey says

I received this beautiful book in a Goodreads giveaway, and I'm so happy I did! I love how each page is filled with a picture and short description of places to visit. The places were located on maps in the back of the book and most descriptions included addresses, phone numbers, and websites. It is a convenient size, so it would easily fit in a travel bag. I thoroughly enjoyed reading this guide. It's both stylish and functional! A must read for anyone traveling to Paris or interested in Parisian style! This book made me want to plan a trip ASAP!

Tracy says

This is more of a what to do in Paris book as opposed to a pictures of Paris book. I like pictures of Paris because I'm a photographer. Whenever I saw a good pic, it was covered with text. Good for travel, not good for dreaming.

Andra says

As far as I'm concerned, this book is an absolute must-have for anyone visiting Paris, especially for the first time. There are beautiful photos on almost every single page. Each shop, restaurant and hotel entry lists the name of the closest Metro station and references the map of the arrondissement in which the shop, etc... resides. The maps are located at the back of the book with a legend indicating the location of cafes, restaurants, bars, hotels & markets. All I need now is my plane ticket, and I'm ready to go!

Mona Noori says

This book is absolutely beautiful, I can't wait to use it when I travel to Paris. It seems like the perfect thing to get the most cultural experience out of Paris. Every page includes pictures of the stores and places it directs

you to with a detailed map in the back as well as an index. Honestly I would enjoy just sitting and looking through each page.
