Wild Weekend Susanna Carr

One small gamble.

One BIG (sexy) payoff!

Bank manager Christine Pearson is dismayed when she finds her old "bucket list." After ten years, nothing is crossed off. Nothing. So she does the sensible thing—ditches her "reliable" shoes, grabs some kick-ass heels and hits Vegas! But the second she sees the tall glass of sexiness heading her way, Christine's list is suddenly updated...to include one wicked night with Travis Cain.

But when her naughty one-nighter shows up in her small town, Christine panics. After all, she's Sensible Christine. Not Christine-Who-Did-Sexy-Things-with-a-Scrumptious-Stranger. The weird part is that Travis keeps behaving as if she stole something important from him. Something valuable. But until he tells her the truth, Naughty Christine will take advantage of it—and him. Because now her bucket list has gone from mild...to wild!

Krys says

Awesome story! finished this book in less than 24 hours. I could not put it down it was so hard to get work done! great characters with fears and insecurities like everyone else and let them hold them back. the end was so sweet I wanted to cry! do wish I could have read about them getting married and have a baby tho! maybe that could be a sequel with the best friend jenni finding her guy!

I received the book for free through Goodreads First Reads.

Andrew says

I'm sorry but I didn't find a single part of this believable; the staid lady who impulsively decides on a sinful weekend, the bucket list (does anyone really do this?), the bad boy who throws over his entire life for her, the vengeful ex, the trope about small towns and small minds, the story with the emerald and the bracelet. None of it. It's probably a bit cruel, but the closest comparison I can think of is porn where they try to inject too much story and lose their way.

Christine should have gone to sin city and stayed there, I think.

Angela Mitchell says

Christine Pearson finds her ten year old bucket list one day with nothing crossed off.

Disappointed that her life has become so mundane she decides to trade plain Jane for Vixon and heads for Los Vegas.

Once in the Casino she looks up and sees the sexy Travis Cain headed her way and decides that a one night stand of wickedness should be added to that list.

Misunderstandings and a stolen emerald put a stumbling block between them but will love win in the end?

Wild Weekend is a very cute love story.

Jennie says

(I won this book free on goodreads.com)

Overall, the book was your typical romance novel. Nothing super spectacular about it, but a good book to lose yourself in.

Massanutten Regional Library says

Calista, Main patron, July 2015, 4 stars:

Better than I thought it would be. Adventurous and exotic. A romance with a good ending.

Connie says

Cute, sassy read! Christine Pearson is a small town girl looking for some excitement and to cross some items off her "bucket list" at the same time. On a week-end trip to Vegas, Christine meets tall, dark and handsome Travis Cain. He's a no relationship, no commitment kind of guy. Mix in a missing emerald, lots of miscommunication and two really scary henchmen and you end up with a really cute story! I received this book, free, in a Goodread's First Read's Giveaway. Thank You!

Betty says

Travis Cain is in Las Vegas with his friend, Aaron. Aaron is getting ready for a high stakes poker game and is using a large emerald to 'bankroll' his game. The main high stakes player in the game is the man that Aaron originally win the emerald from. He has been trying to steal back the emerald since losing it to Aaron. Travis is holding the emerald in hope that the men trying to steal it back won't look for it with him and he can present it to the bank as collateral for Aaron's game. He thinks they are on to him though so he is looking for a way to blend in better with the other tourists in order to throw the men off his scent. In walks Christine Pearson who is escaping her dull, routine life for a "bucket List" week-end in Las Vegas. The two click and take us on a wild adventure that is both fun and (for me) the ultimate fantasy.

I absolutely loved this book and the smiles and giggles that it brought to me. I very highly recommend this to romantics and people who just love a feel good book. Its well written with fun characters and is exciting enough to be a quick read.
