## **Zane's Inferno** Sara York

Zane's Inferno-when burning, hot lust ignites into raging love.

After being trapped in a fire, Zane Wilson is shocked by the heat directed his way by Nick Dubois, the fire department's top paramedic. Nick comes on to Zane, kissing him in the bunkroom and surprising the hell out of him. The next day, Nick shows up at Zane's house and the fireworks really begin. The sex is rough and hot, not at all like anything Zane has had before.

Their relationship began because of a fire then almost ends because of one. When Zane is trapped in a forest fire and almost killed, Nick moves in and doesn't leave his side. But a jealous ex is setting up Nick...and gunning for Zane. Will they survive they survive the firestorm created by their relationship, or succumb to the flames?

Now the question is...will his efforts be too late?

# From Reader Review Zane's Inferno for online ebook

**LunaKat says**

## **Disappointing**

I had higher expectations based on the summary and reviews. There is virtually no story here. Nothing remotely complex. The confrontation at the end silly and completely expected. I am giving it two stars because a potential existed but the writing and story line were too weak.

---

**Alina says**

Awesome story!!!

So far my absolute favorite from His Hero anthology!

I just loved all about it: the constant risks of being a firefighter (and loving one), Zane and Nick's unwavering love (I'm so sick and tired of the usual middle-book break ups, I love it when the characters stick together through hard times and the troubles don't break them apart) and the sex is deliciously hot.

Great book and the perfect example of why I LOVE firefighter stories :)

---

**Gigi says**

Another big, giant FAIL re-read of a former 5 star book. MCs said the "I" word after their first date/ fuck at 26% of a short story. Nah, not my favorite.

---

**Plainbrownwrapper says**

"Nick always knew how to make him feel special."

"Zane stuck out his bottom lip and pouted."

Seriously?? This is a big hulking firefighter -- but he's pouting and mooning over someone who "makes him feel special"?? AND the guy cries three times within one 50 page short story??

Oh, just barf me.

Dumb plot, terrible excuse for a bad guy, awkward writing, and a fifteen-year-old-girl firefighter.

I shouldn't have expected too much. I couldn't stand Texas Rough, either.

2 stars.

---

### **Rachel Emily says**

You know it's gotta be rough when you can't finish a 50 page story. On to something else, sorry...can't recommend.

---

### **Tammy says**

The fires are hot but the sex is hotter!

I loved the firefighting part of this book but the mystery of who is setting the fires was just...

The insta love really didn't seem insta to me as the guys worked together for a couple of years. So they knew each other and lusted from afar. I liked it!

---

### **Wendy Ann says**

Not bad, but not great either. There's a lot going on in this one – probably too much for the shortness of it. There's really no time for the relationship to develop – it doesn't exist one minute, and then bam, pinned to the wall the next. I figured out where trouble was coming from immediately, so no real mystery there. I really appreciate the “Z” title though for my alphabet challenge. :)

---

### **Candice says**

This story had promise with a sexy fireman and paramedic who have worked together for awhile without admitting their attraction/lust for each. However, the underlying story was just too weak and made no sense at all.

---

### **Shaz says**

This is a story that suffers from overload...way too much going on in so few words. Honestly, this should have been at least twice as long as it is and then it could have been a great book. More background information, more relationship building rather than insta-love, more of everything that was lacking in this one.

The premise was great, the execution unfortunately lacking. And please, I wish an editor or beta had suggested a change in terms which, rather than coming across as something terribly sexy and hot, in reality made me feel as if the MC's should be seeking medical attention for a rather serious problem!

---

### **Thomaidha Papa says**

This review contains spoilers

Zane's Inferno is a story about two firemen. Well a fireman and a paramedic actually. I don't find it necessary to go on about the story since the blurb pretty much says it all so I'll just go ahead and be a bitch. This story was so, so wrong, it actually accomplished making me bang my head on my desk quite a few times. Beside the sexual scenes that I have to admit were pretty damn HOT, everything else was terrible. Zane and Nick hook up quite spontaneously and after a hot to hell and beyond encounter they both say "I love you"... and cry... and dismiss all that hot sex by claiming that the emotion was beyond anything they had encountered... I didn't feel the "love" emotion, I didn't feel any connection beyond lust, which was pretty well displayed, but did not evolve further.

Further on, on the story there were the arsons and the "bad guy's" attempts to kill Zane, the bad guy being a colleague and all, yet even if Zane felt something misplaced about that bad guy's behavior, he didn't call it in. Really? A fellow fireman leaves you and your work-partner to die and you don't call it in? He gives you an empty oxygen tank and you don't make an issue of that? Going on was the accusations at Nick and the "evidence" found at his place... and the detectives behavior... oh damn, the entire story was completely off. Too bad, it really had potentials.

---

### **Tanyabell says**

Sexy firemen, hot sex (complete with porno dialog), but the end of the story came out of nowhere and make absolutely no sense whatsoever to me. I wanted to toss my computer across the room. I would suggest you read Damon Suede's Hot Head if you are looking for hot firemen and an ending that leaves you satisfied.

---

### **Katrina Passick Lumsden says**

Well, here's some truly bad writing. Most of this is so completely disjointed that the reader has no clue where certain revelations come from. The relationship between Nick and Zane appears to just pop up out of nowhere, but then York throws in that they've been besties for years....something that was neither shown nor hinted at before they began bumpin' uglies, which occurred very early on so there wasn't any buildup whatsoever.

And then there's just...lines like this:

***"Their relationship had started with a bang, but not really."***

This from one of the detectives questioning Nick:

***""Sleeping in the same bed? What do you mean? Are you guys some sort of homosexual lovers?""***

Nooo. They just really enjoy cuddling.

***""No matter what anyone takes from us, they can't take our love.""***

Excuse me while I go throw up.

---

### **Serena Yates says**

This is a story about Zane, a fire fighter, and Nick, a paramedic, who work together and have been friends for a while. They're pretty much already in lust with each other before they admit there may be more. Lust carries these guys pretty far, and they are extremely hot when they get going.

Zane may not have liked rough play before, but when Nick introduces him to it, he can't get enough. Nick has always been extremely dominant, but with Zane he is ready to try loving and tender - once in a while. As they learn to stick together and trust each other, though, it becomes clear that not everyone wants them to stay together. Ferreting out the culprit takes a while, which enables them to see where things will lead. The constant danger they are in as they do their jobs probably makes them more sensitive to the fact they may lose each other. The animosity against gay men in their Texas town also helps to push them more closely together and they realize what they have may be love very early on.

If you like men who play a little rough, if firemen and paramedics are your thing, and if you're looking for a fun, light read with a bit of mystery, you may like this book.

NOTE: This book was provided by Total-E-Bound for the purpose of a review on QMO Books.

### **Page Crusherz says**

Not bad, but not thrilling. I felt like the romance was rushed and everything wrapped up so fast. I know it was a short story but I didn't ever buy into the MC's the way I wanted to. Nevertheless, it was an enjoyable read.

---

### **Trisha Harrington says**

This was a nice short story. I love men in uniform and this was the perfect little story for my mood. Everything worked out well in the end, although I would have liked a longer story, I can't really complain. The "ex" part was something that came as a bit of a shock.
