Sometimes, crazy people do crazy things.

When local Matlacha artist Jean Oglesby confides in Ellie that her son may be in a spot of trouble, Ellie is sent down a winding trail that leads her into unexpected waters.

And when an old friend pays Ellie a surprise visit she's forced to reconsider hard possibilities about TEAM 99.

And through it all she begins to wonder if the truth is even out there at all.

But sometimes, good people do crazy things too.

### **Larry A. Ganstine says**

**Excellent series of books.**

Well written, hard to put down.

I will look for this author every time I go to Amazon.

Thank you.

### **Thomas D. Bunce says**

**Enjoyable read**

Still captures this reader's interest in the main characters search for justice and truth. There are some couple of editing mistakes that need attention. Pagev154 and 246.

### **Jim A says**

Third in the series. These really do need to be read in order, as it's a continuing story.

This one ends going off in another direction, elimination of Ellie's old CIA Group 99, one by one. That is the cliffhanger for this edition. Clues in Book Two as to the identity of 'Ringo', the drug lord, are confirmed.

Hardin might be dragging this story out too long. Too many side stories. He does tie them into the main story, but they don't really add anything to the overall plot.

### **Louise Pass says**

**big storm**

Well written, complex plot, with several long term story lines for the whole series, interwoven with the plot for each book. Major theme seems to be involved with secrets.

**Roger says**

Another good book in the series.

**Ronald W. Hogue says****Great Writing**

I'm loving this series. The characters are well developed and interesting. There's suspense, but it doesn't drag on. Looking forward to book #4!

---

**Doug says****I don't care for cliff hangers...**

It was a good story as far as it went. Interesting characters, suspenseful plot....it just didn't finish. At least not in this addition. Had I known I was going to be left wondering I probably wouldn't have started. Sorry, Jack...I like your work just not the finish.

**Bill says**

Another excellent entry in the series with a few surprises.

The BEST book in the series so far! I've been telling friends for over a month that Jack Hardin is the most exciting new author that I've seen this year. This book and his ranking proves I'm right! Ellie and friends pack a real literary wallop, and they'll keep you on the edge of your seat from the first chapter through the last. If you don't read another book this summer, you owe it to yourself to read this one!

In full disclosure, though we didn't know each other, Jack and I shared a couple of emails after I had posted reviews of his first two books. I was honored when he asked me to read and comment on the Bertram scene prior to publishing, because of my familiarity with that brand and model, and I was happy to do so. He provided only that scene and blocked out the names, so my full read wasn't spoiled. Thanks for that, Jack! Congratulations on another page turning great read!

**Ellie does another magnificent job with her very distinguished abilities and the right to see that justice is served once again! This is one of the fastest moving series I have had the opportunity to enjoy. There is never a dull moment throughout the entire series and this book fills in a lot of unanswered questions. Fast moving, but nothing is left out.**

Mr. Harden has created another five star masterpiece and every episode is definitely a thrilling adventure. This is one of the most interesting series I have had the opportunity to follow, and I am more than apprehensive throughout the entire process of far-reaching action.

The characters selected certainly are impressive in their assignments and the author apparently did his research before penning his first word. Too, storylines are perfectly defined to the a room at hand. I am normally a western adventure reader, but this espionage action certainly whets my appetite too.

I definitely recommend this series to anyone loving unbelievable ongoing excitement, as these stories will definitely curl your toes. There is never a dull minute from beginning to end, and the ongoing mysterious escapades kept me riveted to my chair until the final word! Don't miss this series, or the loss will be overwhelming!?

#### **Losing steam**

I was excited to start this book but found myself counting pages. The writing is good but I found this book a little long winded.

---

**Sandra Mallory says****Great read.**

I have read the first three Ellie O'Conner books and am about to download the fourth. After that I may be able to get some rest. These books are well written and hard to put down.

---

**Irvin B Robinson says****Better than the first two**

Ready action packed. Can't stop now. Have to read the next one. Hope it's on sale. I'm cheap. Enjoy this.
