## **Business Analytics** James R. Evans

Business Analytics, "Second Edition teaches the fundamental concepts of the emerging field of business analytics and provides vital tools in understanding how data analysis works in today's organizations. Students will learn to apply basic business analytics principles, communicate with analytics professionals, and effectively use and interpret analytic models to make better business decisions. Included access to commercial grade analytics software gives students real-world experience and career-focused value. Author James Evans takes a balanced, holistic approach and looks at business analytics from descriptive, and predictive perspectives.

## **From Reader Review Business Analytics for online ebook**

### **Kiran says**

I need to read this book

---

### **Seth Martin says**

If you are looking for an Excel how-to manual on how to build decision models look no further; however, if you are looking for a thoughtful and easy to read text...look further. This book is akin to reading a technical manual.

---

### **Nasir Ali says**

Use this book as text book for my MBA class, It is decent in terms of getting me started on the business analytics.
