## **Date Night** Emma Holly

Olivia Forster never dreamed she'd serve as queen of an enchanted city beneath the sea, something her three sexy husbands know. Though she adores her shapeshifter mates, she's shy by nature, and they can tell the strain of always being "on" is beginning to wear on her. Sneaking away from their responsibilities won't be easy, but come hell or high water, they'll treat her to a night she won't soon forget!

Date Night by Emma Holly

A nice quickie follow up to Hidden Depths which I read and enjoyed too. One of the hottest foursome I've read.

This was the first book of Emma's that I read on my new Kindle. OMG! I absolutely loved it. I purchased the remainder of the "Hidden" series and have followed her on Facebook! I am keeping track of what books I need to read from her. I am NEVER disappointed in her work. Thank you Ms. Holly. Keep up the great storytelling!!! I wish I could rate you at more than 5 stars!!

### **Sharyn says**

A little novella about Olivia and her 3 husbands from Hidden Depths. Don't know why she even wrote this or why I even read it. And I paid all of \$.99. for it!!!

### **Estara says**

Hmm - well this was just Olivia and her husband sneaking away and enjoying a good bout of sex all concentrating on her. If you haven't read the book this belongs to it's much too short. I prefer some exploration of character with my sex and this didn't quite fulfil that need, especially after the lovely scene which starts the book.

I got this book free in a contest which I got two books in one. The other part of the book is The Faerie's Honeymoon. I guess since I have not read the Hidden Series that I really did not understand too well what was really going on with Olivia and her 3 lovers. I was really surprised with how graphic the sex got in the book, but believe me I am not hating. :) Emma Holly is a great writer can not wait to start reading the series from the beginning.

### **Donna says**

A fun follow up to Hidden Depths.

---

### **Shannon says**

I'll admit the idea of wereseals was kind of strange to me but the writing was so hot it soon didn't matter. A hot date night indeed. **3.75 Stars**

### **Debbie says**

Really great follow on from Hidden Depths.

Anso, Olivia, Ty and James take a night off from royal duties to spend time with just the 4 of them.  
A great way to reconnect

### **Bev says**

Worst Emma Holly book I've read. I knew something was wrong when the first kindle page started at 4% - this 'book' finishes at 67% and then gives you a preview of the previous story in this series. I feel it would be reasonable to assume that you would buy this story after having read the others but what do I know?? The first story in the series (Hidden Talents) is very good and IS an actual story; however, the next 2 - this one and Hidden Depths have little to no story line whatsoever and are just the same regurgitated foursome sex scenes, which is fine I suppose if that's what you want, but I have come to expect something more from Emma Holly in view of her other books, and was extremely disappointed I'm afraid.

### **Michelle says**

I like the novellas that add to the stories you have already written. Kinda of lets us keep in touch with the characters that we fell in love with in the original book! As always Hot Hot Hot!!

---

### **Jeri says**

hot, hot, hot. great continuation story.

---

### **Lizzie says**

Hot and wanton Feeling breathless I remeber the love affair. Its good to be reminded sometimes

---

**Kim says**

BOught this out of curiosity since I read and enjoyed Hidden Depths and this was ok but didn't have enough meat to the plot - guess I just prefer novel length.

---

**Katherine says**

A spicy little novella featuring James and Olivia and their husbands from Hidden Depths. Makes more sense if you've read the precious book. I enjoyed this one.

Bought from kobo.
