**EVERYTHING IS ON THE LINE**

I've found a fragile happiness with my two men, Beast and Muscle, Warlords of the Bedlam Butchers. Our threesome works so well that I can't imagine a day without them...or a night without both in my bed.

But a rival MC has decided that what's in the past shouldn't stay there. With loads of blackmail information on the line, Beast might be going back to prison unless we can make a deal. But what the other club is asking for is nothing less than me, in a stranger's bed.

And Beast is going to sacrifice himself for me unless I find a way to save him...

## Sue says

Beast, Shy and Muscle...one of my favorite menage families are at it again...and this time it looks like the end for them as Beast faces possible prison time in a blackmail scheme that leaves him no choice. But Shy has other ideas and she wants to put herself out there, on the line to protect one of the men that she loves. A plan is made and in this short novella, we get a whole lot of more steamy action with these three and the emergence of a braver and less "shy" Shy!

I really love these little MC romances and although they are very quick reads, they always pack so much into them that it feels like a whole meal instead of just a snack. An HEA and a new beginning.

I received a free copy of this book in exchange for an honest review.

I just finished Double or Nothing and I so loved it! This is apart of the Bedlam Butchers series so for me this must be read in order since this is a continuance for Shy, Muscle and Beast. We just dealt with Muscles past and now we are going to deal with Beast's past. For me Shy has come so far since the beginning. It's an awesome transformation. She has to be strong to deal with her men and club business. You must read this short yet sexy ass story. Trust me, you'll enjoy it just as much as I did! I cannot wait for more!!!

And here we go again, their lives are on the line. I liked this part of all Shy, Beast and Muscle's books the least. I did not dislike it but there was too much coincidence for me.

## Whitney says

We have seen Shy's journey, Muscle's past, and now we got to see Beast's struggles. I know I mentioned this in my previous review, but I really love this trio. Their love for one another is just so raw and genuine. This series has definitely left me wanting to search out more MFM romances. ;)

A rival MC gang has framed Muscle and Beast to seek out revenge against the Bedlam Butchers. Unfortunately for Beast, the only hard evidence they have is against him. He's prepared to spend his life in prison as long as Muscle and Shy remain unharmed. Little did he know, Muscle and Shy don't plan on letting him fight this battle alone.

This is a pretty good conclusion to the Beast-Shay-Muscle story arc. Don't read this one before the other two stories about this threesome, or you will be lost.

I was *really* disappointed in Gemini and Domino in this 'episode', and it seemed like the MC's two presidents were too marginalized in their authority and decision-making by the author. Then, there was the basic immorality of sending your enforcers to do some dirty work, then not doing something about it at all when the SHTF. I know that it's that way so that Shay could work her little plot, but it just didn't come off (to me), as how this situation would work. For instance, it seems like these MC presidents would contact the other MC's Prez and find out WTF is the problem, then decide from there, not just wimp out after an unknown regular patch tries to run a scam. These guys are supposedly all 1% bikers, and I don't see just accepting a diss like this one as being in their realm of reality. I totally get the other club wanting their merchandise, especially if it's paid for, but I doubted the whole scenario and how it was handled.

So 3 solid stars for this one. I liked it.

One thing I liked a lot about the Bedlam Butchers series is that this is an experienced author that can actually write well, almost no typos, and you don't get too much repetitive angst and ruminations from the characters. No sighing, 'whispering Honey', and these are men that can actually speak and hold conversations, not just grunt or say 5 words or less, and they have real life issues (and even real JOBS!). I hope some of the other guys get stories in the future. I will keep reading this series for sure.

Fantastic follow up with Beast, Muscle and Shy . I loved seeing her find her voice and her place in life. After being held down her entire life, she's liberated by Beast, and Muscle, physically, mentally, and sexually. In this story she finds her voice and her backbone when the men she loves are threatened. I cheered for her the entire way.

Beast and Muscle are their same, masculine, demanding, and all around bad ass. We get to see a bit deeper into them. They're hardened, but when it comes to their girl and each other, they're real, loyal, and completely committed. It's awe inspiring seeing three people work together to create harmony. When a past scenario comes back to haunt Muscle and Beast, the happiness they built is threatened by an outside force hell bent on taking Shy away.

Wow. Ruby, you have out done yourself with this one!

Shy, well, she isn't so shy in this book. She grows a pair and put them to good use! I love that her strength shines and she is able to do something for her men. Beast and Muscle are in hot water with another club and it seems that Beast will be the one to take the fall. Even if it means he goes back to prison, he will do it for Shy.

And the heat level in this book? Just take your panties off so you don't get hurt when they melt. The last scene, holy mother of monkey's everywhere! ~ Devlynn, 5 stars

## **Judy says**

Another great episode of Shy, Beast and Muscle fighting for their lives and their strong relationship. This author knows how to write a m/f/m long term relationship that you can believe. Shy shows her strength in this episode, leaving her shyness behind when Beast is threatened with prison and she looks at the possibility of losing him from her life forever. Seldom do I like reading multiple stories about a couple and especially a m/f/m menage but Ms. Dixon has made very book in this series interesting and addicting.

## **Laurie says**

While I've enjoyed reading the Motorcycle Clubs Series, The Bedlam Butchers hasn't been my favorite of the three series. I did like this one a little better and Beast and Muscle are starting to grow on me.

Shy is showing signs of maturity and growth, which is a blessing because the weakling persona/act was getting on my last nerve. Her confidence has grown and it's obviously a result of Beast and Muscles TLC. That being said, her solution to the problem of Scorpion and the Hard Nine is far fetched although it was nice to watch her grow as a character.

Muscle takes a definite back seat to Beast this go around. He seems to be settling into a beta role and that is quite an interesting and surprising dynamic. Beast is in martyr mode for this book and it does not suit him. He seems to want to roll over and just take it in this book, and that doesn't fit his personality at all, so it really didn't make sense to me.

It's a Bedlam Butcher's book so there is lots and lots of sexy time packed into a fairly short book. Beast is enjoying being the alpha of this trio and gets almost Dom-like which spices things up a bit.

I am still not impressed with The Bedlam Butchers as a whole. Someone's going after one of their own, and instead of backing their brother they seem to be willing to just let him swing. (view spoiler)  
Overall, this series is growing on me, but I'm still not sold.

At the time this was written, Double or Nothing was available on Kindle Unlimited.

### **Noura says**

I do enjoy short and hot stories because you can just read them in between stories and when you have short few hour breaks.

This is probably the last of the story of trio. Muscle and Beast's assignment in the previous book has come back to haunt the men and Beast is at risk of going back to jail to protect the club. Shy is frantic to save Beast from this fate. Muscle is finally not so moody and Shy turns out to be smarter than all the Bedlam men and is now quite a bad-ass. And Beast is definitely has a Dom streak. Their relationship is now stronger than ever and there's a kinky little HEA at the end.

This has been a very entertaining series. Is there another one coming up?

Third installment of story of Shy with Beast and Muscle of the Bedlam Butchers MC (Albuquerque, New Mexico). The fancy dinner date to celebrate Shy getting a job. Blackmailing extravaganza with sexual harassment and gender wages inequality thrown in. Hard Nine MC (out of Arizona) Guest appearance.

"This is what contentment feels like. It's profound and utterly, completely fucking frightening." (Beast, 26/94)

"They wanna play blackmail games? They don't know who they're fucking with. I killed my own brother." (Shy, 54/94)

"Who brings lube to a wedding?" Beast asks. (73/94)

"I'm panting and so close to having an orgasm I could scream. "Please," I pant, clinging to Muscle's neck. "I need you."

"I'm coming, Shy-girl," he murmurs. "Patience."

But I'm tired of being patient. I want both my men. I want us to come together, in one big crazy explosion of legs and limbs and lust." (77/94)

"Lust, and need, and pleasure. So much pleasure." (78/94)

### **AlligatorSmith loves to read says**

Shy, Muscle, and Beast are a committed threesome in Ruby Dixon's Bedlam Butchers part of the overall MC series that she writes with Kati Wilde and Ella Goode. I really enjoy all the books in this series: the stand-alones and the continuing stories. The books are .99 and an easy read between getting done with work and

going to bed.

Overall, well-written, well-edited, and well-plotted for the size of a novella. I give this one 4 stars.

Thanks for reading!

### **Christina says**

This book picks up after the second one in the Shy, Muscle, Beast trilogy. In the last book, Muscle and Beast complete a job and think everything is rosy and taken care of. Shy applies and lands a job as an entry level clerk doing menial tasks for a chauvinistic boss. She starts getting hit on by the owner of the company's son who turns out to be a biker and later revealed to be the reason she got the job to begin with. So after some sexual harassment up the wazoo, and being treated like crap, she accidentally comes across evidence that women aren't being paid equal to men at the job. Surprise surprise.

Meanwhile, Muscle and Beast find out a rival club has blackmail on them for the earlier job that could send Beast back to prison unless they deliver some guns and of course Shy, the girl with the apparently golden snatch.

This book was pretty easy to read and predictable BUT I liked that the girl was the one to come up with the plan. I found it hilarious that the first response from the men was, well guess Beast is going back to prison. Well that escalated quickly. Don't worry boys, Shy has is covered. It wasn't even that she came up with the plan but she also, on the fly, read the villains mind and called his bluff even though she stutters, is scared and has no experience with a stand off and blackmail. But kudos to her for being the brains of the operation.

Smut level was pretty tame is time around mostly between Beast and Shy which is fine with me because I like her and him together better anyway.
